The information contained in the Calendar is correct at the time of publication. Certain information, and in particular that relating to fees, admission regulations and papers, is subject to a continuous process of review. The University therefore reserves the right to change its policies, procedures,

statutes, regulations, papers and any other content of the Calendar at any time. Any alterations and amendments to the Calendar will be reflected in the web version, which is the authoritative version.

Unless specifically stated otherwise, all policies, procedures, statutes and regulations printed in the Calendar are effective from **1 January 2019** and supersede those in any prior Calendar. Matters concerning enrolment and examinations apply to the academic year for which the student is formally enrolled for the relevant paper(s).

While in most cases there are no specific time limits for completing qualifications, over the years the degree structures and papers may change in response to developments in their areas. Occasionally core papers or requirements are changed or discontinued.

Candidates will have their overall programmes of study confirmed as meeting the requirements for the award of a qualification on the basis of the relevant regulations in the Calendar in their final year of study. However, if the regulations have changed since the candidate first enrolled for the qualification, the relevant Dean or Head, or equivalent, may decide in individual cases, under the [Personal Programmes of Study Regulations](#) and the [Delegation of Powers Statute](#), to vary or waive particular requirements. Students who are uncertain about whether papers passed under previous regulations will meet current requirements should consult the relevant Dean or Head, or equivalent.

Detailed transitional regulations will be printed in the Calendar from time to time if substantial changes are made to the structure of a particular qualification.

Personal Programmes of Study Regulations

These regulations apply to candidates beginning their studies in 2024. Candidates who first enrolled in a qualification prior to 2024 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. Candidates who are resuming their studies for a qualification after an extended absence are advised to consult the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies concerned at the time of re-enrolment regarding the requirements for completion. However, where there have been significant changes in the structure of a qualification or content of the major or specified programme during the candidate's absence, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may prescribe a specific programme of study which will be deemed to satisfy the requirements for completion of the qualification.

1. **Title**

These are the Personal Programmes of Study Regulations 2012.

2. **Date of effect**

These regulations are effective from 1 January 2013.

3. **Delegation of powers**

The powers and authority of the Academic Board referred to in these regulations have been delegated in certain matters under the [Delegation of Powers Statute 2014](#).

4. **Definitions**

In these regulations

paper means a segment of work in a particular subject and is identified by means of a unique code number. Papers are delivered through lectures, tutorials, practicals, and such other coursework as may be required by the department concerned

programme of study means the selection of papers taken by a candidate in any one academic year for a particular qualification

restricted papers are either in effect the same papers e.g. one of which was taught in the past with a different paper code, or they share a significant amount of common content. Candidates may therefore receive credit for only one of the papers listed. Restricted papers may not necessarily be used to satisfy prerequisite or corequisite requirements

a **prerequisite** must be passed before a candidate may enrol in the paper for which the prerequisite is specified. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies in which the other paper is offered approves otherwise)

a **corequisite** must be taken either prior to or concurrently with the paper for which the corequisite is specified

internal assessment means all or some of the following: essays, assignments and reports of various kinds, practical work, work in tutorials and/or seminars and tests

a **field** means a general area of academic study that includes a number of related subjects

a **subject** is a grouping of papers with a common academic theme, defined in terms of the listings under individual subject headings in the University of Waikato [Catalogue of Papers](#). A department may offer more than one subject

a **major** means a principal area of study a candidate has chosen for a bachelors degree and is selected from those listed in the relevant degree regulations. A candidate is required to take a defined and substantial number of papers in the major at a range of levels up to and including 300 or 400 level

a **minor** means an additional subject to the major and is a requirement of some bachelors degrees

a **supporting subject** means an additional subject to the major, usually of at least 60 points in a single minor subject

a **specialisation** means a recognised pathway within a qualification or major which provides an area of focus within the qualification or major

points is the term used to express the student workload of a paper or programme. A normal full-time academic year comprises 120 points or 1.0 EFTS (Equivalent Full-time Student)

5. **Application**

These regulations apply to undergraduate certificates, undergraduate diplomas, bachelors degrees, bachelors with honours degrees, graduate certificates, graduate diplomas, postgraduate certificates, postgraduate diplomas, masters degrees and individual paper credits.

6. **Admission and re-entry**

(1) In order to be eligible to be enrolled at the University of Waikato, candidates must meet the requirements of Section 255 of the Education and Training Act 2020.

- (2) The criteria for admission to the University of Waikato in a given year are determined by the Council and are set out in the [Admission Statute 2016](#).
- (3) The criteria for admission to a particular qualification in a given year are determined by the Academic Board and are set out in the [Criteria for Admission to Particular Qualifications](#) and the qualification regulations.
- (4) To ensure that a candidate is adequately prepared for a graduate qualification, the Academic Board will require relevant papers in the relevant subject or subjects of the qualifying bachelors degree to have been passed at grades which it deems appropriate.
- (5) Candidates are usually required to have majored in their bachelors degree in the main subject to be presented for a graduate degree. This requirement may be waived in cases where no more than one or two papers in a given subject are proposed to be incorporated into the candidate's graduate degree.
- (6) In exceptional circumstances, based on academic merit, candidates who have no more than 30 points left to complete the requirements of a qualifying degree may be permitted to enrol in a graduate degree, provided that they have completed all of the requirements of the major or main subject of the qualifying degree. The graduate degree will not be deemed to have been completed until the qualifying degree has also been completed.
- (7) The Academic Board may approve limitations on enrolment for programmes or papers due to insufficiency of staffing or resources. Limitations and the criteria for selection are published in the [Limitations Statute](#).
- (8) A candidate who has been awarded a particular qualification in one major or subject may only be re-admitted to the same qualification in another major or subject.
- (9) The criteria for re-entry for returning students are determined by the Academic Board and are set out in Part 3 of the [Criteria for Admission to Particular Qualifications](#).
- (10) In addition, the Academic Board may decline to re-enrol a candidate whose progress during the preceding year or years has not been to the satisfaction of the Academic Board.

7. Enrolment in a programme of study

- (1) The Academic Board may prescribe qualifying or additional papers which must be passed by a candidate either prior to, or concurrently with, the minimum requirements for a qualification. Qualifying or additional papers may be required if the candidate is considered by the Academic Board to be inadequately prepared in a core subject area.
- (2) Enrolment in a programme of study or paper is subject to the approval of the Academic Board. Such approval will be determined on the basis of the candidate's academic background as well as staffing and resources.
- (3) The personal programme of study of every candidate is subject to the approval of the Academic Board.
- (4) The papers for qualifications and their prescriptions are defined in the University of Waikato [Catalogue of Papers](#). Before enrolling for a paper, candidates must meet any

requirements specified in the relevant prescription unless approved otherwise by the Academic Board.

- (5) Particular regulations governing qualifications may be varied or waived by approval of the Academic Board.

8. **Maximum student workload**

- (1) The normal maximum full-time student workload for an academic year (excluding C trimester) is 120 points.
- (2) For the purposes of calculating workload, a paper that runs for the duration of two full trimesters has a workload equivalent to half of its points value during each of the trimesters in which it is taught.
- (3) The normal maximum full-time student workload for C trimester is 45 points.
- (4) Approval of the Academic Board is required for a candidate to enrol in a programme of study which has a workload equivalent to more than the normal maximum full-time workload.

9. **Completion of a qualification**

- (1) The minimum requirements for the completion of a qualification are defined in the relevant regulations.
- (2) With the approval of the Academic Board, a candidate may be permitted to complete the requirements of a qualification in less than the minimum period of enrolment prescribed in the relevant regulations. Approval will depend on the candidate's academic record and on the availability of suitable teaching and supervision arrangements.

10. **Eligibility for Honours or Distinction**

In order to qualify for Honours or Distinction in a particular qualification, a candidate may be required to complete the requirements within a prescribed time period of first enrolling for the qualification.

11. **Dissertations and theses**

- (1) The *Dissertations and Theses Regulations 2020* governing the presentation of dissertations and theses apply in these regulations and any dissertation or thesis required for a graduate qualification must be presented in accordance with these regulations.
- (2) Enrolment in a dissertation or thesis, or a qualification which requires the completion of a dissertation or thesis, is subject to the availability of a suitable supervisor for the dissertation or thesis.
- (3) For dissertations and theses, one or more supervisors will be appointed by the Academic Board. If the chief supervisor is also an examiner of the dissertation or thesis, at least one other examiner (who is not also a supervisor) will be appointed.
- (4) A dissertation or thesis must embody the results obtained by the candidate in an investigation relating to some branch of the subject or subjects being presented, or, with the approval of

the Academic Board, shall take some other form proposed by the candidate's supervisors and approved by the relevant Head of School or Dean concerned. The chief supervisor or sole supervisor will be required to certify that the dissertation or thesis embodies the candidate's own work carried out under the supervisor's direct supervision.

- (5) Dissertations and theses are assessed in terms of the points value they represent.

12. **Date for submission of dissertations, theses and research reports**

- (1) The deadline for the submission of any dissertation or research report will be 4.00pm on the last working day of the paper occurrence which completes the candidate's enrolment in the total points required for the dissertation or research report.
- (2) The deadline for the submission of any thesis will be 11.59pm on the last day of the paper occurrence which completes the candidate's enrolment in the total points required for the thesis.
- (3) Candidates who expect that they will not submit their dissertation, thesis or research report by the due date may apply to the relevant Head of School or Dean or delegated authority for an extension of time without the requirement for re-enrolment, provided that the application for an extension is lodged prior to the deadline for submission.
- (4) Extensions will not normally be awarded for periods of more than 21 days beyond the relevant due date.
- (5) Candidates who do not submit their dissertation, thesis or research report by the due date, and who have not applied for and been awarded an extension, will be required to re-enrol for a minimum period to be determined by the relevant Head of School or Dean or delegated authority and will be liable for a further payment of tuition and any other fees and charges for the period of re-enrolment.

13. **Resubmission of dissertations and theses**

- (1) A dissertation or thesis for a graduate qualification that receives a narrow fail may be returned to the candidate with the offer of an opportunity to revise and re-submit. The decision to offer such an opportunity is at the discretion of the relevant Head of School or Dean and is based on a number of factors, including the likelihood that the revision will be successful, and the availability of suitable supervisors and examiners.
- (2) An offer by a Head of School or Dean under subsection 13(1) of these regulations will be in writing, and any conditions attached to the offer will be explicit. The period allowed for the revision will be no more than the equivalent of one trimester and the deadline for submission will be prescribed. If the offer to revise and submit is accepted, the candidate will be eligible to receive a maximum grade of C and, in the case of a masters degree, will not be eligible for the award of Honours.
- (3) A candidate's acceptance of an offer to revise and re-submit and associated conditions must be in writing. The candidate must then re-enrol for the equivalent of one trimester and pay fees accordingly. For administrative and fees purposes, the candidate will enrol for the particular enrolment period in which the deadline for re-submission falls.

- (4) A 'provisional fail' is recorded against the first dissertation or thesis enrolment for the period of revision. The 'provisional fail' grade is replaced by a final grade (either a fail grade or a C grade, depending on the outcome), after the revision and re-examination processes are concluded.
- (5) The opportunity to revise and re-submit a particular dissertation or thesis may be offered to a candidate only once.

14. **Credit - transfer credit and cross credit**

- (1) **Transfer credit** means credit towards a University of Waikato qualification for papers passed at another tertiary institution.
- (2) **Cross credit** means credit towards a University of Waikato qualification for papers passed towards another University of Waikato qualification.
- (3) A candidate who has passed papers at an appropriate level at the University of Waikato or another tertiary institution may apply for credit in respect of those papers towards a University of Waikato qualification.
- (4) Applications for credit must be submitted on the online qualification application, together with the prescribed fee.
- (5) Applications for credit from another institution must be accompanied by a verified copy of an academic record. If the original document is not in English, the academic record must be accompanied by an official English translation of the record. The University reserves the right to request an original copy of an academic record.
- (6) The policy on the level and amount of credit which may be awarded from a completed qualification is determined by the Academic Board and is set out below:
 - (a) Credit from a completed qualification is normally only available towards a bachelors degree.
 - (b) Credit is not normally awarded from a completed graduate or postgraduate qualification.
 - (c) Credit from a completed qualification will normally be limited to no more than one third of the completed qualification.
 - (d) Credit towards a University of Waikato bachelors degree from a completed qualification will normally be limited to no more than one third of the University of Waikato degree. For the purposes of this regulation, one third of a bachelors degree is considered to be 120 points at 100 and 200 levels, including a maximum of 60 points at 200 level. Where appropriate, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may, at their discretion, permit 20 further points at 100 or 200 level to be credited towards a four-year bachelors degree where the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies deems a paper to be relevant to the candidate's programme of study.
 - (e) Credit will not normally be awarded for 300 or 400 level papers required for a major in an undergraduate degree.

- (f) No paper may count towards more than two qualifications.
- (7) The decision to award credit in individual cases will be made by the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies.
- (8) In making decisions on credit, the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies will consider the relevance and level of the papers completed, the regulations of the University of Waikato qualification concerned, and the credit guidelines maintained by the Student Services.
- (9) Regardless of the total number of papers which an applicant has passed at other institutions, the total credit awarded will not be more than half of the total requirement of the University of Waikato qualification concerned, unless this is approved under subsections 14(10) or 14(11) of these regulations.
- (10) In individual cases, the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies or delegated authority may vary subsection 14(9) of these regulations and award credit for up to two thirds of the University of Waikato qualification concerned.
- (11) In individual cases, the Education Committee, under delegated authority of the Academic Board, may award credit for more than two thirds of a University of Waikato qualification, or for more than half of an undergraduate degree that includes 300 and/or 400 level papers for a major.
- (12) Applicants wishing to appeal a Pro Vice-Chancellor's or the Dean of the Faculty of Māori and Indigenous Studies decision on credit may apply to the Deputy Vice-Chancellor Academic.
- (13) The consideration of an appeal will involve the Pro Vice-Chancellor or the Dean of the Faculty of Māori and Indigenous Studies concerned being requested to reconsider the decision. Further appeals against the outcome of a reconsideration will be referred to the Education Committee for consideration on behalf of the Academic Board.
15. **Completion of a University of Waikato qualification at another New Zealand university**
A candidate who, based on the assessment of the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies, has completed the major part of a qualification at the University of Waikato and then moved to another district may, in some cases, complete the University of Waikato qualification by taking the remaining papers at another university in New Zealand. Prior approval of the specific papers, in writing, must be obtained from the Deputy Vice-Chancellor Academic of this University and the prescribed charge paid. The candidate must advise the Registrar of the other university of the purpose of the enrolment and the papers concerned must be taken on a Certificate of Proficiency (COP) basis at that university. The candidate's academic record will not be transferred.
16. **Completion of a qualification of another New Zealand university at the University of Waikato**

A candidate who has completed the major part of a qualification at another New Zealand university may, in some cases, be permitted by that university to complete the qualification by passing specified papers at the University of Waikato. Any such approval must be given in writing by the 'home' university and the candidate will take the papers concerned on an Individual Paper Credit (IPC) basis at the University of Waikato. The candidate's academic record will not be transferred.

The University of Waikato

Te Whare Wānanga o Waikato is committed to academic excellence and innovative teaching programmes, priding itself on international outlook while remaining very much a university for the region.

Vice-Chancellor Professor Neil Quigley is leading the University through its next phase of development and bringing a culture of excellence and high performance to all aspects of the organisation. This includes strengthening programmes to meet national and international skills shortages, addressing global issues, such as water quality, indigenous studies and cyber security, and enhancing teaching and research quality in health and high performance sport.

Research is a key focus for the University. Students are taught in research-intensive environments by experienced lecturers, and a lot of importance is placed on fostering an active research community and producing critical-thinking, future-focused graduates who are globally aware.

The University is the tertiary partner with the Avantidrome in Cambridge and the Adams Centre for High Performance in Mount Maunganui, both centres for elite athletes. Staff based at those venues work with some of New Zealand's top sportspeople.

In Tauranga, the University is part of a tertiary partnership working with other tertiary providers to ensure students can easily make the transition between institutions to complete qualifications, and the University has also led the development of a purpose-built campus in the CBD opening in 2019. Tauranga is home to the University's Coastal Marine Field Station where staff and students undertake research to enhance water quality, increase kaimoana stocks, and improve the environmental impacts

of business on and by the ocean.

The University of Waikato stands proudly on the world stage as an institution that provides a future-focused international education and plays an active part in global research. The latest Quacquarelli Symonds (QS) World University Rankings place Waikato in the top 1.1% of universities in the world with 13 subjects in the top 300. QS ranks universities across a range of areas including reputation, research, teaching, employability and internationalisation. In the Times Higher Education (THE) world rankings, Waikato sits in the 351-400 band, third equal in New Zealand.

The University also ranks highly for student satisfaction. The International Student Barometer survey showed more than 90% of international students surveyed who studied at the University of Waikato were satisfied with their experience and 82% would recommend our university to others.

Part of the University's success is due to the high priority of pastoral care. The development and well-being of every student is an important dimension of the institution's uniqueness. Staff have a strong reputation for excellence and take an innovative approach to student learning support. They have a track-record of effectiveness for supporting students as they transition to university study, particularly Māori, Pacific and first-generation tertiary students.

The University of Waikato is distinct from other universities because it embraces its strong Māori identity and heritage. The campus sits on Tainui land and staff are committed to working in partnership with Tainui to meet the needs of iwi through teaching and research.

The Māori student and staff communities on campus are vibrant and welcoming, and there are many University programmes and activities dedicated to Māori student achievement and success. And while the University of Waikato has renowned strength in the teaching and research of te reo Māori and tikanga Māori, our Māori expertise can also be found across the various disciplines including Māori psychology, education, law, social sciences and computer science.

In the last two years the University has been implementing a new curriculum, which was reviewed and revitalised to ensure that teaching continues to be relevant to student, employer and societal needs. As a result, new work-integrated learning programmes and compulsory work experience have been introduced to all undergraduate degrees.

The University of Waikato, Tauranga

In 2019, students in Tauranga will be able to study at the new Tauranga CBD campus that the University of Waikato developed on behalf of the Bay of Plenty Tertiary Education Partnership. The new campus will enable the University to increase the number of programmes it offers in the region, particularly with an increased focus on areas of regional activity. Further information is available at www.waikato.ac.nz/tauranga-campus/

Further information about programmes and papers offered in Tauranga is available on the University of Waikato, Tauranga website: www.uwt.waikato.ac.nz.

Finally, the University of Waikato has mapped a clear and agreed framework for well-informed strategic investment decisions for its campuses and their students in Hamilton and Tauranga. After more than five decades, the University of Waikato has evolved into a truly New Zealand institution which, as the motto Ko Te Tangata (for the people) reflects, supports the country's nation-building policies and reflects the nation's identity.

Important Notice

The information contained in the Calendar is correct at the time of publication. Certain information, and in particular that relating to fees, admission regulations and papers, is subject to a continuous process of review. The University therefore reserves the right to change its policies, procedures, statutes, regulations, papers and any other content of the Calendar at any time. Any alterations and amendments to the Calendar will be reflected in the web version, which is the authoritative version.

Unless specifically stated otherwise, all policies, procedures, statutes and regulations printed in the Calendar are effective from **1 January 2024** and supersede those in any prior Calendar. Matters

concerning enrolment and examinations apply to the academic year for which the student is formally enrolled for the relevant paper(s).

While in most cases there are no specific time limits for completing qualifications, over the years the degree structures and papers may change in response to developments in their areas. Occasionally core papers or requirements are changed or discontinued.

Candidates will have their overall programmes of study confirmed as meeting the requirements for the award of a qualification on the basis of the relevant regulations in the Calendar in their final year of study. However, if the regulations have changed since the candidate first enrolled for the qualification, the relevant Pro Vice-Chancellor or the Dean of the Faculty of Māori and Indigenous Studies, or equivalent, may decide in individual cases, under the [Personal Programmes of Study Regulations](#) and the [Delegation of Powers Statute](#), to vary or waive particular requirements. Students who are uncertain about whether papers passed under previous regulations will meet current requirements should consult the relevant Pro Vice-Chancellor or the Dean of the Faculty of Māori and Indigenous Studies, or equivalent.

Detailed transitional regulations will be printed in the Calendar from time to time if substantial changes are made to the structure of a particular qualification.

Limitations Statute

Limitations on enrolments can be established under section 224(5) of the Education Act 1989 where the Council is satisfied that it is necessary to do so because of insufficiency of staff, accommodation or equipment, or section 224(12) where the Council has established places for foreign students in a programme whose continued availability is dependent on the fees payable by foreign students enrolled in it. The Council has delegated authority to approve limitations under section 224(5) to the Academic Board.

Schedule of Limitations on Enrolments for 2019

Limitations under Section 224(5) of the Education Act 1989

Ministry-funded enrolments will be limited in a manner that allows the University to meet the Government's expectations with respect to its approved Mix of Provision for the year in question. Applications from Ministry-funded students who meet the University's published deadlines for applications to enrol, as well as the admission, entry, re-entry and programme approval criteria for the relevant qualifications and papers, will be accepted according to the priority groups listed below until the relevant Faculty/School of Studies achieves its Mix of Provision target at the relevant level. If places are still available after the published deadlines for applications to enrol, Ministry-funded students who have not met those deadlines, but who meet the admission, entry, re-entry and programme approval criteria for the relevant qualifications and papers, will be accepted in order of application up until the relevant targets have been met.

Undergraduate (Bachelors, Undergraduate and Graduate Certificates and Diplomas)

All these groups will be considered in priority order and, within each priority group, on academic merit.

1. Undergraduate returners (enrolled in undergraduate study in the previous year returning to continue an undergraduate qualification).
2. School Leavers (in secondary school in 2017 or 2018) who qualify for University Entrance (UE) or who are eligible for Discretionary Entrance in terms of the Criteria for Admission to Particular Qualifications.
3. Students transferring into degree programmes having successfully undertaken recognised partner pathway programmes in 2018 (including Certificate of University Preparation (CUP) and Toi Ohomai Institute of Technology guaranteed credit programmes).
4. Students who have previously been enrolled at the University of Waikato, returning after a break of up to two years to continue an undergraduate qualification.
Applicants who have qualified for admission to university but who have been away from secondary school for up to two years.
Special Admission applicants (students over 20 without UE).
Other students with UE or equivalent.

Taught Postgraduate (500 level - except 594 theses)

All these groups will be considered in priority order and, within each priority group, on academic merit.

1. Taught postgraduate returners (enrolled in taught postgraduate study in the previous year returning to continue a postgraduate qualification).
2. Students who have previously been enrolled at the University of Waikato, commencing taught postgraduate study or returning (after a gap in study) to continue a postgraduate qualification.
Students new to the University of Waikato.

Research Postgraduate (Doctoral, MPhil, Masters 594 theses)

Because research postgraduate students can apply to enrol at any point in the year, applications will be considered at regular intervals according to the following groups:

All these groups will be considered in priority order and, within each priority group, on academic merit.

1. Research postgraduate returners (enrolled in research postgraduate study in the previous year).
2. University of Waikato Doctoral and Masters Scholarship recipients.
3. Students who have previously been enrolled at the University of Waikato, commencing research postgraduate study or returning after a gap in study to continue research postgraduate study.
Students new to the University of Waikato.

Notes:

1. *In order to be considered within any priority group, students must apply by the relevant deadlines, as set out in the Enrolment section and Change of Enrolment Regulations.*
2. *Within each level (undergraduate, taught postgraduate, research postgraduate), applicants who have not met the relevant deadlines will be considered in the same order of priority as indicated*

above after all of the students who have applied within the deadlines for that level have been considered.

Students who have achieved an equivalent to New Zealand University Entrance through a qualification other than NCEA at Level 3 will have their admission assessed on a case by case basis.¹ Please contact the International Office for detailed guidelines on admission to the University of Waikato.

1.

Many of the degrees offered at the University of Waikato have prerequisites on their core papers. Applicants who have not achieved specified prerequisites through their study will be required to take additional papers or foundation courses in order to satisfy these prerequisites. Applicants in this situation are advised that not all papers may count towards the completion of the degree and that the programme may take an additional period of time.

As indicated above, international students are required to obtain their student visa and pay their tuition fees before enrolment can be completed. These funds are held against the student's name until they complete their enrolment in person. This policy details the process for refunding these funds if (i) the student travels to New Zealand and does not complete their enrolment, or (ii) completes the first semester of study and does not enrol in the second semester of study and they have a student visa valid for one year.

	(1)		All students must apply in writing for a refund of their pre-paid tuition fees to the Director of Student Services Division.
	(2)		Students are required to supply a verified copy of their passport and student visa, and a copy of their University of Waikato receipt(s) with their application for a refund.
	(3)		The University of Waikato will notify INZ that the student has not fulfilled the obligations of their visa by completing their enrolment at the University of Waikato.
	(4)		Where a student wishes to attend another institution in New Zealand, the University of Waikato will transfer the pre-paid tuition fees to that institution, upon written confirmation from that institution of the student's intention to study. This should be in the form of a formal letter of offer or invoice which confirms the student's acceptance into a qualification. If the student has already paid their tuition fees at the other institution, the University of Waikato will refund the pre-paid tuition fees to the student, upon

			written confirmation from the other institution that the fees have been paid. It is the student's responsibility to provide the necessary documentation from the other institution.
	(5)		Where a student will be returning to their home country, the funds will be refunded in one of two ways:
		(a)	an overseas bank draft sent to the overseas address provided by the student
		(b)	if it is known that the pre-paid tuition fees have been paid by a third party, the refund may be paid back to that third party.
	(6)		Where a student is wishing to remain in New Zealand without enrolling at an educational institution, the University of Waikato will refund these funds either:
		(a)	upon evidence of a valid INZ visa to remain in New Zealand, or
		(b)	confirmation that INZ has discharged the University of Waikato's duty under the

			original student visa.
	(7)		If a programme of study is cancelled by the University of Waikato, a full refund of pre-paid tuition fees will be made to the student by bank draft.

International Students Refund Administration Charge

International students who withdraw their application or their enrolment before the start date of their programme will receive a 100 percent refund of pre-paid tuition fees less a \$500 Administration Fee. Students who withdraw their application or their enrolment after the start date of their programme but during the period for deletion of papers (refer to Clause 12 of the [Change of Enrolment Regulations 2012](#), will receive a 100 percent refund of pre-paid tuition fees less a \$2,000 Administration Fee.

Compulsory Medical and Travel Insurance

International students (including group students) must have appropriate and current medical and travel insurance while studying in New Zealand, as stated in the *Code of Practice for the Pastoral Care of International Students*. Under the Immigration New Zealand Policy, this must be at least for the duration of your student visa. Enrolment is dependent on proof of appropriate insurance. To simplify the process of selecting insurance, the University has selected Studentsafe-University (underwritten by Allianz New Zealand) as the preferred insurance policy for all international students. The Studentsafe-University insurance premium will be added to tuition fees at the time of enrolment, resulting in international students being automatically enrolled in the Studentsafe-University insurance scheme. This premium will not be charged if evidence of an alternative compliant insurance policy is provided to the University before the specified deadline (please note there are only a small number of approved alternative compliant policies). For further information please refer to the website <https://www.waikato.ac.nz/study/international>.

Eligibility for Health Services

Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on the website <https://www.health.govt.nz>. The Accident Compensation Corporation provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website www.acc.co.nz.

New Zealand Government Scholarships

The New Zealand Aid Programme (NZAP) is the New Zealand Government's International Aid and Development Programme managed by the Ministry of Foreign Affairs and Trade. Education is vital to the New Zealand Aid Programme's mission of supporting sustainable development in order to reduce

poverty and contribute to a more secure, equitable and prosperous world. Scholarships are available to citizens from selected developing countries to undertake vocational training or tertiary level study in their home country, in New Zealand, or in the Pacific region. These scholarships enhance the skills, training and knowledge of individuals, and build their capacity to contribute to the sustainable development of key areas in their home country. The eligibility criteria and application process can be found on: <https://www.mfat.govt.nz/en/aid-and-development/scholarships/>.

Student Exchanges between the University of Waikato and Partner Institutions

The International Office administers the University's international student exchange programmes. Exchange students must come from a university that has a formal two-way student exchange agreement with the University of Waikato and must be nominated by the relevant office of their home university. Exchange students can enrol at the University of Waikato for one or two semesters and credit study to their home degree but students may not go on exchange to their home country. Exchange students are expected to be positive ambassadors for the University of Waikato and New Zealand. With prior approval, study completed at the partner University will be credited towards students' University of Waikato qualifications, although this cannot be guaranteed in advance. Further information for exchange applications can be obtained from the Study Abroad and Exchange Manager in the International Office, Level 2 of the Gateway Building, Hamilton Campus, or the website: <https://www.waikato.ac.nz/study/international/study-abroad-and-exchange> .

Strategic Alliances, International Partnerships and Agreements

The University is a forward-looking, innovative institution that welcomes strategic alliances, international partnerships, and agreements. Consideration is given to international institutions that match the University of Waikato profile in terms of reputation, academic standing, and research output.

All proposals for University to University linkages should be discussed in the first instance with the International Office. Proposals for guaranteed credit agreements need submission of full documentation to the International Office which will refer them to the appropriate academic authority for approval. Partnership proposals are welcome and will be explored on a case by case basis. Memorandums of Understanding should also be submitted as proposals to the International Office, which will refer them to the appropriate authority.

Overseas visitors are welcome. Prospective visitors should contact the International Office with full background information about their proposed visit. The International Office will assist in arranging an itinerary which meets both the visitors' and the University of Waikato's needs.

Ethical Conduct in Human Research and Related Activities Regulations

Preamble

Any member of the University community who participates in research and specified related activities is required to conduct the research and/or related activities in a manner that conforms with ethical standards set down by the University, by relevant national and international professional bodies, and by the law of the country in which the research is undertaken.

These regulations apply specifically to the following activities: research, teaching, consulting, evaluation, and publications which involve collecting data about and from people and organisations. These regulations also apply to any research where there are ethical issues that are not addressed by the Animal Ethics Committee [Code of Ethical Conduct for the Use of Animals for Research, Testing and Teaching](#) .

Staff are referred also to the University's [Staff Code of Conduct](#).

Students and staff are also referred to the resources on [Ethical Conduct in Research and Related Activities](#), available from the [Research & Enterprise Office](#).

Ethical Conduct in Human Research and Related Activities Regulations

1.		Title
		These are the Ethical Conduct in Human Research and Related Activities Regulations 2008.
2.		Purpose
		Ethical issues arise when University research and/or related activities involve the interests and rights of others. The purpose of these regulations is to facilitate ethical conduct which respects the rights of people, communities, companies, trusts, and other organisations. These regulations explain the standards of ethical conduct and the procedures that apply for the maintenance and monitoring of these standards. All applications to the University's human research ethics review committees will be reviewed for approval on the basis of their compliance with these regulations.
3.		Date of effect
		These regulations are effective from 1 July 2008.
4.		Scope
	(1)	These regulations apply to all
	(a)	staff of the University of Waikato
	(b)	students of the University of Waikato, and
	(c)	any other person authorised to undertake research and/or a related activity on behalf of the University of Waikato, including those employed or contracted in

			wholly-owned subsidiary entities.
	(2)		Research collaborators or partners are expected to apply for approval of their research and/or related activities from their organisation and must also apply to the relevant University of Waikato Faculty committee.
	(3)		Under these regulations, all research and/or related activities are required to have formal ethics review and approval.
	(4)		Applications for approval are not required for normal teaching activities; but are required for specific teaching that involves the participation of a student or students and has the potential for harm (see section 13 of these regulations), or that involves collection of data from students.
	(5)		Applications are not required for University teaching evaluations or for University reviews and quality assurance activities; however, such activities do have ethical implications and should be conducted in a professional way consistent with the University Staff Code of Conduct and should be consistent with the spirit of these regulations.
5.	Definitions		
	In these regulations		
	<p>research means an inquiry of an investigative, experimental, or critical nature which is driven by a question, hypothesis, or intellectual position capable of rigorous assessment, and the findings of which are open to scrutiny and formal evaluation. It may include any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium</p>		
	<p>related activities may include teaching, consulting, evaluation, and publication when these activities involve collecting data about and from people and organisations. These activities are defined as follows:</p>		
	<p>teaching means teaching in lectures, tutorials,</p>		

		demonstrations, and related educational research
		consulting means the provision of advice to a client, such advice being based upon the pre-existing professional knowledge and skills of the consultant
		evaluation means the systematic collection and analysis of information to make judgements, usually about the effectiveness, efficiency, and/or appropriateness of the research and/or related activity
		publication means any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium
		participant means a live human being or group of live human beings who participate in research and/or related activities whether by observation, questioning, participation in an experiment, provision of specimens or human tissue samples, or by any other means
		organisation means a social unit of people systematically arranged and managed to meet a need or to pursue collective goals on a continuing basis. Examples include firms, iwi groupings, schools, and professional societies
		researcher means the person undertaking research and/or related activities
		harm includes physical, psychological, social, economic, or cultural harm to participants
		field research means research conducted in person in a natural setting outside of a laboratory.
6.		Application procedures
	(1)	A staff member, student, or authorised person must not commence research or a related activity until it has been approved by the appropriate authority and in accordance with these regulations.
	(2)	Researchers must submit applications for approval for

			their research or related activity to one of the delegated Faculty or department committees (see section 22 of and Appendix 2 to these regulations) within the University.
	(3)		Where applications are made to an external ethics committee, an application must also be submitted to, and approved by, the relevant delegated committee within the University (see section 22(3) of and Appendix 5 to these regulations).
	(4)		Applications for approval of research and/or related activities must be submitted in the form prescribed for the relevant Faculty, department, or unit (see Appendix 3 to these regulations).
	(5)		If an ethical issue relating to the research and/or related activity that was not envisaged at the beginning arises during its course, the researcher must stop the research and/or related activity, consult the appropriate authority, and apply for approval. The researcher must not begin the research and/or related activity again until the necessary approval has been obtained.
	(6)		For situations where prior, free, express, and informed consent from participants may not be possible, see sections 10 and 11 of these regulations for guidance in making application for approval of the research or a related activity.
7.	Responsibility for ethics in research and related activities		
	(1)		Individual staff, students, and authorised persons are responsible for ensuring their research and/or related activities comply with these regulations.
	(2)		If a researcher is a student, the staff member responsible for supervising the student's research must take all reasonable steps to ensure that the student complies with these regulations.
	(3)		Paper convenors may apply for ethics approval for an entire paper if it involves students in that paper engaging in research or related activities. Such

			applications must cover all anticipated research or related activities the student may engage in, and the convenor's, lecturers' and/or tutors' responsibilities. Applications must identify ethical issues and describe practices for addressing them.
8.		Value of research or related activities and the public interest	
	(1)		A researcher must be able to justify to his or her peers the goals and methodology of the research and/or related activity in terms of its reasonably anticipated benefits balanced against any foreseeable risk of harm to the participants.
	(2)		A researcher must normally make available the findings of research in the public domain. Any exception to this must be approved in writing by the Senior Deputy Vice-Chancellor, or by a person to whom authority is delegated in writing by the Senior Deputy Vice-Chancellor (see section 10(7) and section 14 of the Dissertations and Theses Regulations 2015).
9.		Informed consent of participants	
	(1)		Researchers must gain participants' prior, free, express, and informed consent in a culturally and socially appropriate manner, unless in the case of approved exceptions. For proxy consent from authorised representatives, see subsection (4)(e) and (4)(f) of this section of these regulations. Exceptions regarding large sample surveys and similar research methods, some cases of field research, and the possibility of gaining informed consent after data collection are dealt with in sections 10, 11 and 14 of these regulations.
	(2)		A researcher must establish explicit processes for reaching agreement with participants. A researcher must not involve a participant in any research and/or related activities unless the researcher is satisfied that the participant has understood the nature of his or her involvement and freely agreed to it in accordance with the principles outlined in this section.
	(3)		A researcher must not use explicit or implicit coercion to obtain the agreement, and must not use inducement to

			obtain the agreement except in accordance with section 18 of these regulations.
	(4)		Unless sections 10, 11 or 14 of these regulations apply, a researcher must adhere to the following principles with respect to informed consent of participants:
		(a)	A researcher must inform prospective participants of all information relevant to the decision to participate including
			(i) their right to decline to participate in the research and/or related activities or any portion or any part of these
			(ii) the form in which the findings will be published
			(iii) duration and security of data storage
			(iv) their right to withdraw any

			information they have provided up until analysis has commenced on their data
		(v)	their right to access and correct personal information
		(vi)	the process for withdrawing information they have provided.
	(b)		<p>The more readily identifiable the participants may be, the more formal the consent should be. Where participants are asked to answer questionnaires that might identify them, answer questions in a formal interview, undergo formal tests, or where they are subjected to formal observation and recording procedures, the process for obtaining informed consent, and the form of the consent, should be similarly formal and recorded in writing or some other reproducible form. Where the participation is more anonymous the consent may be less personalised and less explicit (see section 10 of these regulations).</p>

	(c)		<p>If the research or related activity involves manipulation of, or intervention in, the physical or psychological state of a participant, the participant's consent, or, if subsection (e) of this section applies, the consent of the person with authorised responsibility for the participant, must be recorded in writing or some other reproducible form.</p>
	(d)		<p>Because some research and/or related activities involve collectives, a researcher must recognise the complexities of relationships between individuals and collectives. In some cultures it is common for the leader of a collective to make a decision in respect of participation on behalf of its members. If an individual in a collective wishes to participate or not to participate in the research and/or related activity, regardless of a decision taken on behalf of the collective, the individual's wishes must be respected and all reasonable care taken to ensure that those wishes are also respected by other members of the collective.</p>
	(e)		<p>If a prospective participant is reasonably judged incapable of giving informed consent, the researcher must obtain the proxy consent from the person who has responsibility for the prospective participant's welfare, taking particular care to protect the participant's interests and also taking into account any potential conflict of interest between him or her and the person whose consent is required.</p>

	(f)		A researcher who seeks the proxy consent of another person on behalf of a prospective participant under subsection (e) of this section must make all reasonable effort to involve the prospective participant him or herself in the process and the decision about consent.
	(g)		Staff, students, and other approved persons must obtain informed consent when recording images of participants, participants' possessions, or research and/or related activity in which participants are involved, unless the recording of images is of lawful activity occurring in a public place and is culturally appropriate.
	(h)		A researcher must provide the information under subsection (a) of this section plainly and in the language and medium that is appropriate for the prospective participants.
	(i)		A researcher must inform participants of their right of access to any data that may have been collected from or about them.
	(j)		A researcher must inform participants of their right to complain about the conduct of the research and/or related activity and must also inform them of the process for making a complaint.

10.		Large random sample surveys and informed consent	
	(1)		A researcher who intends to collect data involving large numbers of people is not required to adhere to all the principles concerning informed consent outlined in section 9(4) of these regulations if the research method makes adherence to all these principles impractical or undesirable and if such a requirement is likely to impact adversely on the researcher's ability to generate reliable information.
	(2)		However, the researcher must declare and justify an intention not to adhere to the principles in section 9(4) of these regulations in the application for approval submitted under section 6 of these regulations.
	(3)		In these situations the researcher must provide the following information, as a minimum, to a participant before the research or related activity begins
		(a)	the anticipated length of the research or related activity
		(b)	the general purpose of the research or related activity
		(c)	the forms in which the data might be published
		(d)	an assurance that the participant will not be identified in any publication or dissemination of research findings.
11.		Field research and informed consent	
	(1)		'Field' research in this context means research conducted in person in a natural setting outside of a laboratory.
	(2)		In field research situations, prior, free, express, and

			informed consent must be gained in a culturally and socially appropriate manner from participants.
	(3)		In some forms of field research using such methods as participant observation, participatory research and action research, where obtaining prior, free, express, and informed consent from all participants would be inappropriately intrusive or impractical for social, cultural, or methodological reasons, it is acceptable not to gain such consent.
	(4)		However, the researcher must take care to apply other ethical principles, especially minimising the risk of harm to participants and maintaining the anonymity of participants. It may also be appropriate in such cases that informed consent be sought afterwards but prior to the publication of research findings, from people who have in the course of information collection come to the attention of the researcher.
12.	Archiving of data, privacy, storage, and use of information		
	(1)		All non-identifying data (eg data sets and transcripts) used for publication must be securely kept long enough to allow for academic examination, challenge, or peer review. This period would normally be at least five years. Identifying data such as consent forms, photographs, and videos will be securely stored consistent with agreements made under section 9(4)(a) of these regulations. The responsibility for data storage lies with the department or other equivalent academic unit.
	(2)		Where the research and/or related activity is conducted in New Zealand, the researcher must comply with the Privacy Act 1993 and the Official Information Act 1982, and must adhere to the following principles consistent with that legislation
		(a)	participants and informants must not be publicly identified or identifiable without their explicit consent
		(b)	participants must be informed

			(unless sections 10, 11 and 14 of these regulations apply) that they will not be identified in any publication or dissemination of the research findings without their explicit consent
		(c)	researchers must take all reasonable precautions to prevent unauthorised use, access, modification, or disclosure of personal information
		(d)	data identifying participants must not be kept for longer than required for the purpose for which it is collected (see subsection (1) of this section)
		(e)	except in circumstances specified in the relevant legislation, personal information may be used only for the purpose for which it is collected.
	(3)		Where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply with any legislation that applies in that country with respect to privacy and storage of personal information.
	(4)		Even where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply as far as possible with the spirit of the Privacy Act 1993 and the Official Information Act 1982; however, if there are contradictions between the legislation of New Zealand and the other country, the legislation of the other country must prevail.
	(5)		A researcher must include in an application submitted under section 4(3) of these regulations a statement about the conditions under which, and the period for which, any personal information collected for the research and/or related activity is to be stored.

	(6)		Data must not be made available to persons or for purposes that are not named on the application.
13.	Minimisation of harm		
	(1)		A researcher must make particular effort to identify physical, psychological, social, economic, or cultural harm to participants before seeking their consent to participation.
	(2)		A researcher must minimise both the risk of harm to a participant and the potential for negative consequences of the harm.
	(3)		'Harm' in this context includes pain, stress, emotional distress, fatigue, embarrassment, and exploitation.
	(4)		Unless it would be impractical or undesirable to do so in the terms described in section 10 of these regulations, a researcher must consult participants to ascertain any risk of harm that they themselves may identify or concerns that they themselves may have.
	(5)		If, during the course of the research and/or related activity, it is apparent to the researcher that the risk of harm to the participant is greater than originally envisaged, the researcher must inform the participant and re-evaluate the research and/or related activity in terms of the principles outlined in this section.
14.	Limitation of deception		
	(1)		Deception of participants conflicts with the principle of informed consent, but in some research and/or related activities it may be necessary to withhold information about the purpose of the research and/or related activity or the procedures involved.
	(2)		Research and/or related activities involving deception of participants will be approved only if the researcher demonstrates in the application for ethics review that the deception is absolutely essential to the goals of the

			research and/or related activity.
	(3)		A researcher who undertakes research and/or related activities involving deception of a participant must ensure that the participant is provided with an explanation of the true purpose of the research and/or related activity and the reason for the deception as soon as practicable after the participation.
15.		Social and cultural sensitivity	
	(1)		A researcher must respect the cultural, social, and language preferences and sensitivities of the participant.
	(2)		Where the research and/or related activity potentially affects individuals or groups who are significantly different in culture from the researcher, the researcher must consult an appropriate person before the research and/or related activity begins about appropriate cultural procedures and approaches to the research and/or related activity and about informing the participant or community concerned of the research findings.
	(3)		An application for ethics review under these regulations must demonstrate how the researcher has responded to the advice received from the person consulted.
	(4)		Appropriate consultation and subsequent responses on matters of social and cultural sensitivity are the responsibility of the researcher.
16.		Exploitation of relationships	
	(1)		A researcher must not exploit the relationship between researcher and participant.
	(2)		A researcher must resist any initiative by a participant to exploit the relationship between researcher and participant.
	(3)		'Exploitation' in this context means the seeking or obtaining of money, goods, services, favours,

			information or relationships that have no direct bearing on the stated research and/or related activity aims or data gathering.
	(4)		Where a researcher is a staff member and the prospective participant a student, the researcher must not exploit that relationship and must strive to ensure that the student is not disadvantaged through his or her participation or refusal to participate, academically, professionally, or otherwise.
17.		Respect for property rights	
	(1)		A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe legally determined property rights.
	(2)		A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe culturally determined property rights to the extent possible and reasonable in all circumstances.
	(3)		Property rights in this context may apply to land, goods, works of art and craft, images, and intangible materials such as spiritual treasures, music, information, and intellectual property (see Appendix 4 of these regulations).
	(4)		A researcher must identify and address any issues associated with property rights and ownership of data at the time he or she seeks informed consent and monitor these issues throughout the research process.
18.		Payment for participation	
		A researcher must not pay participants for their participation, or arrange for participants to be paid, in money, goods, services, prizes, favours, or in any other form of remuneration or form of hospitality appropriate to the engagement, either directly or indirectly, unless the payment is approved by the appropriate approving authority (see section 22 of and Appendix 2 to these regulations).	

19.		Professional codes of ethics
		A researcher must ensure that his or her research or related activity complies with any professional code of ethical practice or standard relevant to the research and/or related activity.
20.		University research and/or related activities in schools and early childhood services
		A researcher involved in research and/or related activities in schools or early childhood services must comply with the Guidelines for Observation and Research in Schools and Early Childhood Services  (see Appendix 5 to these regulations).
21.		Declaration of potential conflict of interest
	(1)	A researcher must, in an application submitted under section 4 of these regulations, declare any potential conflict of interest.
	(2)	'Conflict of interest' occurs where a researcher or related party is, or is reasonably likely to
		(a) obtain an unfair, inappropriate, or unethical professional, commercial, or personal advantage as a result of or in connection with the research and/or related activity
		(b) be in a position in relation to the activity or the participants that could appear to affect the researcher's impartiality in the research and/or related activity;
		(c) obtain a direct or indirect pecuniary benefit or interest as a result of or in connection with the research or related activity.
	(3)	If the research and/or related activity is commissioned

		(b)	offer the student the opportunity to undertake a special examination.
	(10)		If the chief examiner does not estimate a grade for the paper under subsection 17(9) of these regulations, and it is not practicable to offer a special examination (either because of the nature of the assessment or the continuing circumstances of the student), the student may apply under the Change of Enrolment Regulations 2012 to withdraw from the paper on medical or compassionate grounds.
	(11)		Where a student demonstrates to the Director of Student Services that, because of circumstances beyond his or her control, he or she is not able to accept the offer of a special examination, the student may apply under the Change of Enrolment Regulations 2012 to withdraw from the paper on medical or compassionate grounds.

Part 5 Review of Grade and Return of Examination Script

18.		Review of grade

	(1)		A student who considers that a mistake has been made in the process of calculating or determining a grade for a paper may apply for a review of a grade.
	(2)		An application for review of grade must be submitted by the student on the prescribed form, together with the prescribed fee, to the Assessment and Graduation Office not more than 14 days after receiving notification of the grade.
	(3)		The application must be accompanied by all items of internal assessment for the relevant paper that have been returned to the student.
	(4)		A review of grade involves a re-marking of all items of assessment that contribute to the final grade and a re-calculation of marks, or the student may elect to have their exam script only reviewed.
	(5)		A review of grade results in a grade either being left unchanged, raised or lowered.
	(6)		The fee for a review of grade is refunded if the review results in a change of grade.
19.		Return of examination script	
	(1)		A student may apply for the return of his or her marked examination script.
	(2)		An application for the return of an examination script must be submitted to the Assessment and Graduation Office online, as prescribed in the Copies of Examination Scripts , no later than three months after the date of the examination concerned. Proof of identity and the prescribed fee must accompany this application.
	(3)		Non-publishable exam papers remain the property of the University. Students are only able to view a non-publishable paper exam script for 10 minutes under supervision. Proof of identity is required and no notes can be taken. This does not incur any

			charges.
	(4)		Examination scripts are destroyed by the University after the three-month deadline has elapsed.

Part 6 Grades and Annotations

20.		Grades	
	(1)		Grades are confirmed by Boards of Examiners or delegated authorities.
	(2)		The schedule of grades used by the University and the range of marks represented by each grade is as follows:
		Pass Grades	
		A+	90-100%
		A	85-89%
		A-	80-84%
		B+	75-79%
		B	70-74%
		B-	65-69%
		C+	60-64%
		C	55-59%
		C-	50-54%

	RP	Restricted pass
	P	Ungraded pass

Fail Grades

	D	40-49%
	E	0-39%
	F	Ungraded fail

(3) An IC annotation means “Incomplete”, and is awarded if a student

(a) does not submit a compulsory assessment item, or

(b) if an examination was prescribed, does not undertake the examination.

(4) An IC annotation is treated as a fail grade.

(5) A “...” annotation is used on students’ academic records for theses and papers that may be undertaken over more than one year, and indicates that the enrolment is continuing into a subsequent year.

(6) A restricted pass (“RP”) grade may be awarded at the discretion of a Board of Examiners or delegated authority for a paper in which the student has

			achieved
		(a)	borderline performance, or
		(b)	a D grade compensated by overall good performance in the relevant subject or the relevant subject and closely related subjects.
			<i>Note: A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Dean of the Faculty or School of Studies in which the other paper is offered approves otherwise.</i>
	(7)		The NC annotation means “No Credit” and indicates that credit for the paper has been refused as a direct consequence of a finding of misconduct.
21.		Conceded credit	
	(1)		A Board of Examiners or delegated authority may award a conceded credit to a candidate for a bachelors degree who has
		(a)	undertaken the required number of papers for the degree,
		(b)	passed all compulsory papers, and
		(c)	passed all papers required for the major, specified programme or stream,
			but who has narrowly failed one paper in the final year.

	(2)		The award of a conceded credit is based on the candidate's performance in the bachelors degree as a whole as well as the paper in question.
	(3)		The conceded credit is attached to the degree as a whole (and does not affect the fail grade in the paper in question).
	(4)		A student may be awarded one conceded credit only in a bachelors degree.
22.		Notification of confirmed grades	
	(1)		When assessment results are returned to a student those results will include a percentage mark, except where a P (ungraded pass) or F (ungraded fail) mark is given.
	(2)		Confirmed final grades are published confidentially, using individual student identity numbers on Moodle.

	(1)		A student may appeal against any decision taken under these regulations.
	(2)		An appeal, comprising a written statement of the circumstances of the appeal, together with supporting evidence if available, must be submitted by the student in writing to the Director of Student Services Division not more than seven days after the date on which notification of the relevant

		decision is received.
	(3)	Appeals under this section are considered and decided by the Deputy Vice-Chancellor by delegated authority of the Education Committee.

Policy on the Use of Māori for Assessment

Statement of Principle

1. In recognition of the status of the Māori language as a tāonga protected under the Treaty of Waitangi, and within the spirit of the Māori Language Act 1987, the University of Waikato endorses the right of its students to use the Māori language in written work for assessment within the University.
2. In keeping with the above and in accordance with its Charter commitments the University seeks to have sufficient suitable staff employed or available throughout its Faculties and Departments to ensure that any work submitted in Māori would be assessed in that language by staff competent in the subject under examination and in the Māori language.
3. In the meantime, the use of the Māori language in assessment is subject to conditions set out in this policy statement.

Exceptions

4. There are occasions when, due to the nature of the skills being tested, work submitted for assessment may be required to be in a particular language. In such cases that requirement shall be made explicit in writing, either in the relevant subject entry or prescription in the University of Waikato [Catalogue of Papers](#) or in the paper outline distributed to candidates at the beginning of a paper.

Notice

5. Candidates who intend to present all or part of an examination or piece of internally assessed work in Māori are requested to give at least 14 day's notice of their intention of doing so in writing to the Assessment and Graduation Office. This notice of intention is desirable to allow the University the time and opportunity to make proper arrangements for marking including, when necessary, translation and external assessment. If less than 14 days' notice is given, the material presented in Māori will still be accepted. The processing of it may, however, be delayed and the opportunity to

have the script marked in the original language may be reduced.

6. Where a candidate who intends to present material in Māori has given the requested notice of intention, he or she will be informed as soon as reasonably possible, as to whether or not the assessment will be based on translation.

Potential for Delays

7. The University will do its best to make the results of an examination or item of internally assessed work presented in Māori available to the candidate within the ordinary time-frame. However the process of assessment in such cases, possibly including translation, may result in delays in the return of coursework or in the publication of results.

Māori-speaking Paper Examiners

8. The examination or internally assessed work will be assessed in Māori by the examiner for the paper if the examiner is considered by the Deputy Vice-Chancellor Māori or their nominee to be linguistically competent to do so.

Co-examiners

9. If the examiner of the relevant paper is not competent to assess in Māori, a co-examiner, competent in both the subject under examination and in Māori, may be appointed to conduct the assessment of work presented in Māori in consultation with the examiner.

Translation

10. If no person is available in the circumstances to assess the work in Māori, a translator will be appointed by the Deputy Vice-Chancellor Māori or their nominee in agreement with the appropriate chief examiner. The translator will be asked not to correct errors in the original nor to make any embellishments; however, ambiguities may be pointed out to the examiner. Where necessary the examiner may seek clarification of the translation of the paper from the translator but contact between the student and the translator is prohibited, as is contact between the student and the examiner. The assessment will then be carried out by the examiner of the paper on the basis of the translation.

The University intends that resort to translation be made only when reasonable efforts to find an examiner capable of assessing the work in its original language have been exhausted.

11. In the process of appointing a translator, the Deputy Vice-Chancellor Māori or their nominee will take all reasonable steps to ensure that the translator is competent in the relevant subject under examination, as well as in the Māori language.

External Assessment

12. If the internal assessment and/or examination script is to be subject to external assessment, the other institution undertaking the external assessment will be requested to indicate whether an external assessor is available to conduct the assessment in Māori. If not, a translation will be obtained for the purpose by the University according to the process explained in sections 10 and 11 of these regulations.

Return of Scripts

13. When any translation is relied upon in the assessment of an examination, a candidate making proper application for the return of a script shall also receive any translation made of the script. When assessed coursework is normally returned to the student, any translation used is likewise to be returned.

Appeals and Reconsiderations

14. An appeal against a decision regarding linguistic or subject competence made under the provisions of sections 8 and 11 of these regulations shall be to the Senior Deputy Vice-Chancellor whose decision shall be final.
15. The regulatory provisions for reconsideration of final grade together with the established appeal provisions will apply, with the addition that the Māori Language Commission is regarded by the Council as the final authority on the accuracy of a translation.

Oral Work

16. The details of this policy apply to written internally assessed work and to examinations. When oral work is assessable, the same principles should apply; however, practicalities may necessitate more restricted policy details, such as a requirement on the candidate to give longer notice or a limitation on the use of Māori where oral work involves interaction with other candidates.

Personal Programmes of Study Regulations

These regulations apply to candidates beginning their studies in 2019. Candidates who first enrolled in a qualification prior to 2019 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. Candidates who are resuming their studies for a qualification after an extended absence are advised to consult the Dean of the Faculty or School of Studies concerned at the time of re-enrolment regarding the requirements for completion. However, where there have been significant changes in the structure of a qualification or content of the major or specified programme during the candidate's absence, the Dean may prescribe a specific programme of study which will be deemed to satisfy the requirements for completion of the qualification.

1.	Title
	These are the Personal Programmes of Study Regulations 2012.
2.	Date of effect
	These regulations are effective from 1 January 2013.
3.	Delegation of powers

The powers and authority of the Academic Board referred to in these regulations have been delegated in certain matters under the [Delegation of Powers Statute 2014](#).

4.

Definitions

In these regulations

paper means a segment of work in a particular subject and is identified by means of a unique code number. Papers are delivered through lectures, tutorials, practicals and such other coursework as may be required by the department concerned.

programme of study means the selection of papers taken by a candidate in any one academic year for a particular qualification.

equivalent papers are in effect the same papers, one of which was taught in the past with a different paper code.

restricted papers share a significant amount of common content. Candidates may therefore receive credit for only one of the papers listed. Restricted papers may not necessarily be used to satisfy prerequisite or corequisite requirements.

a prerequisite must be passed before a candidate may enrol in the paper for which the prerequisite is specified. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Dean of the Faculty or School of Studies in which the other paper is offered approves otherwise).

a corequisite must be taken either prior to or concurrently with the paper for which the corequisite is specified.

internal assessment means all or some of the following: essays, assignments and reports of various kinds, practical work, work in tutorials and/or seminars and tests.

a **field** means a general area of academic study that includes a number of related subjects.

a subject is a grouping of papers with a common academic theme, defined in terms of the listings under individual subject headings in the University of Waikato [Catalogue of Papers](#). A department may offer more than one subject.

a major means a principal area of study a candidate has chosen for a bachelors degree and is selected from those listed in the relevant degree regulations. A candidate is required to take a defined and substantial number of papers in the major at a range of levels up to and including 300 or 400 level.

a minor means an additional subject to the major and is a requirement of some bachelors degrees.

a supporting subject means an additional subject to the major, usually of at least 60 points in a single minor subject.

a specialisation means a recognised pathway within a qualification or major which provides an area of focus within the qualification or major.

points is the term used to express the student workload of a paper or programme. A normal full-time academic year comprises 120 points or 1.0 EFTS (Equivalent Full-time Student).

5.

Application

These regulations apply to undergraduate certificates, undergraduate diplomas, bachelors degrees, bachelors with honours degrees, graduate certificates, graduate diplomas, postgraduate certificates, postgraduate diplomas, masters degrees and individual paper credits.

6.

Admission and re-entry

(1)

In order to be eligible to be enrolled at the University of Waikato, candidates must meet the requirements of Section 224 of the Education Amendment Act 1990.

The criteria for admission to the

	(2)		<p>University of Waikato in a given year are determined by the Council and are set out in the Admission Statute 2016.</p>
	(3)		<p>The criteria for admission to a particular qualification in a given year are determined by the Academic Board and are set out in the Criteria for Admission to Particular Qualifications and the qualification regulations.</p>
	(4)		<p>To ensure that a candidate is adequately prepared for a graduate qualification, the Academic Board will require relevant papers in the relevant subject or subjects of the qualifying bachelors degree to have been passed at grades which it deems appropriate.</p>
	(5)		<p>Candidates are usually required to have majored in their bachelors degree in the main subject to be presented for a graduate degree. This requirement may be waived in cases where no more than one or two papers in a given subject are proposed to be incorporated into the candidate's graduate degree.</p>
	(6)		<p>In exceptional circumstances, based on academic merit, candidates who have no more than 30 points left to complete the requirements of a qualifying degree may be permitted to enrol in a graduate degree, provided that they have completed all of the requirements of the major or main subject of the qualifying degree. The graduate degree will not be deemed to have been completed until the qualifying degree has also been completed.</p>
	(7)		<p>The Academic Board may approve limitations on enrolment for programmes or papers due to insufficiency of staffing or resources.</p>

			Limitations and the criteria for selection are published in the Limitations Statute .
	(8)		A candidate who has been awarded a particular qualification in one major or subject may only be re-admitted to the same qualification in another major or subject.
	(9)		The criteria for re-entry for returning students are determined by the Academic Board and are set out in Part 3 of the Criteria for Admission to Particular Qualifications.
	(10)		In addition, the Academic Board may decline to re-enrol a candidate whose progress during the preceding year or years has not been to the satisfaction of the Academic Board.
7.	Enrolment in a programme of study		
	(1)		The Academic Board may prescribe qualifying or additional papers which must be passed by a candidate either prior to, or concurrently with, the minimum requirements for a qualification. Qualifying or additional papers may be required if the candidate is considered by the Academic Board to be inadequately prepared in a core subject area.
	(2)		Enrolment in a programme of study or paper is subject to the approval of the Academic Board. Such approval will be determined on the basis of the candidate's academic background as well as staffing and resources.
	(3)		The personal programme of study of every candidate is subject to the approval of the Academic Board.

		(4)	The papers for qualifications and their prescriptions are defined in the University of Waikato Catalogue of Papers . Before enrolling for a paper, candidates must meet any requirements specified in the relevant prescription unless approved otherwise by the Academic Board.
		(5)	Particular regulations governing qualifications may be varied or waived by approval of the Academic Board.
8.		Maximum student workload	
		(1)	The normal maximum full-time student workload for an academic year (excluding Summer School) is 120 points.
		(2)	For the purposes of calculating workload, a full-year paper has a workload equivalent to half of its points value during each of the two semesters in which it is taught.
		(3)	The normal maximum full-time student workload for a Summer School semester is 40 points.
		(4)	Approval of the Academic Board is required for a candidate to enrol in a programme of study which has a workload equivalent to more than the normal maximum full-time workload.
9.		Completion of a qualification	
		(1)	The minimum requirements for the completion of a qualification are defined in the relevant regulations.

		(2)	With the approval of the Academic Board, a candidate may be permitted to complete the requirements of a qualification in less than the minimum period of enrolment prescribed in the relevant regulations. Approval will depend on the candidate's academic record and on the availability of suitable teaching and supervision arrangements.
10.		Eligibility for Honours or Distinction	
		In order to qualify for Honours or Distinction in a particular qualification, a candidate may be required to complete the requirements within a prescribed time period of first enrolling for the qualification.	
11.		Dissertations and theses	
		(1)	The <i>Dissertations and Theses Regulations 2015</i> governing the presentation of dissertations and theses apply in these regulations and any dissertation or thesis required for a graduate qualification must be presented in accordance with these regulations.
		(2)	Enrolment in a dissertation or thesis, or a qualification which requires the completion of a dissertation or thesis, is subject to the availability of a suitable supervisor for the dissertation or thesis.
		(3)	For dissertations and theses, one or more supervisors will be appointed by the Academic Board. If the chief supervisor is also an examiner of the dissertation or thesis, at least one other examiner (who is not also a supervisor) will be appointed.
			A dissertation or thesis must embody

		(4)	the results obtained by the candidate in an investigation relating to some branch of the subject or subjects being presented, or, with the approval of the Academic Board, shall take some other form proposed by the candidate's supervisors and approved by the Dean(s) and Chairperson(s) of department(s) concerned. The chief supervisor or sole supervisor will be required to certify that the dissertation or thesis embodies the candidate's own work carried out under the supervisor's direct supervision.
		(5)	Dissertations and theses are assessed in terms of the points value they represent.
12.	Date for submission of dissertations, theses and research reports		
		(1)	The deadline for the submission of any dissertation, thesis or research report will be 4.00pm on the last working day of the paper occurrence which completes the candidate's enrolment in the total points required for the dissertation, thesis or research report.
		(2)	Candidates who expect that they will not submit their dissertation, thesis or research report by the due date may apply to the Dean or the appropriate staff member(s) with delegated responsibility for Graduate Studies of the Faculty or School of Studies in which they are enrolled for an extension of time without the requirement for re-enrolment, provided that the application for an extension is lodged prior to the deadline for submission.
		(3)	Extensions will not normally be awarded for periods of more than 21 days beyond the relevant due date.

			<p>Candidates who do not submit their dissertation, thesis or research report by the due date, and who have not applied for and been awarded an extension, will be required to re-enrol for a minimum period to be determined by the Dean or the appropriate staff member(s) with delegated responsibility for Graduate Studies of the Faculty or School of Studies in which they are enrolled and will be liable for a further payment of tuition and any other fees and charges for the period of re-enrolment.</p>
13.		<p>Resubmission of dissertations and theses</p>	
	(1)		<p>A dissertation or thesis for a graduate qualification that receives a narrow fail may be returned to the candidate with the offer of an opportunity to revise and re-submit. The decision to offer such an opportunity is at the discretion of the Dean of the Faculty or School of Studies that offers the degree, and is based on a number of factors, including the likelihood that the revision will be successful, and the availability of suitable supervisors and examiners.</p>
	(2)		<p>An offer by a Dean under subsection 13(1) of these regulations will be in writing, and any conditions attached to the offer will be explicit. The period allowed for the revision will be no more than the equivalent of one semester and the deadline for submission will be prescribed. If the offer to revise and submit is accepted, the candidate will be eligible to receive a maximum grade of C and, in the case of a masters degree, will not be eligible for the award of Honours.</p>
			<p>A candidate's acceptance of an offer to revise and re-submit and associated</p>

	(3)		conditions must be in writing. The candidate must then re-enrol for the equivalent of one semester and pay fees accordingly. For administrative and fees purposes, the candidate will enrol for the particular enrolment period in which the deadline for re-submission falls.
	(4)		A 'provisional fail' is recorded against the first dissertation or thesis enrolment for the period of revision. The 'provisional fail' grade is replaced by a final grade (either a fail grade or a C grade, depending on the outcome), after the revision and re-examination processes are concluded.
	(5)		The opportunity to revise and re-submit a particular dissertation or thesis may be offered to a candidate only once.
14.	Credit - transfer credit and cross credit		
	(1)		Transfer credit means credit towards a University of Waikato qualification for papers passed at another tertiary institution.
	(2)		Cross credit means credit towards a University of Waikato qualification for papers passed towards another University of Waikato qualification.
	(3)		A candidate who has passed papers at an appropriate level at the University of Waikato or another tertiary institution may apply for credit in respect of those papers towards a University of Waikato qualification.
	(4)		Applications for credit must be submitted on the prescribed form, together with the prescribed fee, to the Credit Office.

	(5)		<p>Applications for credit from another institution must be accompanied by a verified copy of an academic record. If the original document is not in English, the academic record must be accompanied by an official English translation of the record. The University reserves the right to request an original copy of an academic record.</p>
	(6)		<p>The policy on the level and amount of credit which may be awarded from a completed qualification is determined by the Academic Board and is set out below:</p>
		(a)	<p>Credit from a completed qualification is normally only available towards a bachelors degree.</p>
		(b)	<p>Credit is not normally awarded from a completed graduate or postgraduate qualification.</p>
			<p>Credit from a completed qualification will normally</p>

	(c)	be limited to no more than one third of the completed qualification.
	(d)	Credit towards a University of Waikato bachelors degree from a completed qualification will normally be limited to no more than one third of the University of Waikato degree. For the purposes of this regulation, one third of a bachelors degree is considered to be 120 points at 100 and 200 levels, including a maximum of 60 points at 200 level.

		Where appropriate, the Dean may, at his or her discretion, permit 20 further points at 100 or 200 level to be credited towards a four-year bachelors degree where the Dean deems a paper to be relevant to the candidate's programme of study.
	(e)	Credit will not normally be awarded for 300 or 400 level papers required for a major in an undergraduate degree.
	(f)	No paper may count towards more than two qualifications.

	(7)		The decision to award credit in individual cases will be made by the Dean of the Faculty or School of Studies concerned.
	(8)		In making decisions on credit, the Dean will consider the relevance and level of the papers completed, the regulations of the University of Waikato qualification concerned, and the credit guidelines maintained by the Student Services Division.
	(9)		Regardless of the total number of papers which an applicant has passed at other institutions, the total credit awarded will not be more than half of the total requirement of the University of Waikato qualification concerned, unless this is approved under subsections 14(10) or 14(11) of these regulations.
	(10)		In individual cases, the Dean or delegated authority may vary subsection 14(9) of these regulations and award credit for up to two thirds of the University of Waikato qualification concerned.
	(11)		In individual cases, the Education Committee, under delegated authority of the Academic Board, may award credit for more than two thirds of a University of Waikato qualification, or for more than half of an undergraduate degree that includes 300 and/or 400 level papers for a major.
	(12)		Applicants wishing to appeal a Dean's decision on credit may apply to the Director of Student Services Division.
			The consideration of an appeal will

(13)

involve the Dean concerned being requested to reconsider the decision. Further appeals against the outcome of a reconsideration will be referred to the Education Committee for consideration on behalf of the Academic Board.

15.

Completion of a University of Waikato qualification at another New Zealand university

A candidate who, based on the assessment of the Dean of the candidate's Faculty or School of Studies, has completed the major part of a qualification at the University of Waikato and then moved to another district may, in some cases, complete the University of Waikato qualification by taking the remaining papers at another university in New Zealand. Prior approval of the specific papers, in writing, must be obtained from the Director of Student Services Division of this University and the prescribed charge paid. The candidate must advise the Registrar of the other university of the purpose of the enrolment and the papers concerned must be taken on a Certificate of Proficiency (COP) basis at that university. The candidate's academic record will not be transferred.

16.

Completion of a qualification of another New Zealand university at the University of Waikato

A candidate who has completed the major part of a qualification at another New Zealand university may, in some cases, be permitted by that university to complete the qualification by passing specified papers at the University of Waikato. Any such approval must be given in writing by the 'home' university and the candidate will take the papers concerned on an Individual Paper Credit (IPC) basis at the University of Waikato. The candidate's academic record will not be transferred.

Specialisations

Specialisations provide you with another opportunity to shape your qualification to your interests and needs. They can be used to broaden your knowledge, allow you to focus on an aspect related to your first major, or perhaps provide some cohesion to your elective papers in an area of interest to you. Specialisations meet all of the requirements for a qualification but provide for further specialisation in or beyond the major (bachelors degree) or subject (honours or masters degree, graduate certificate, graduate diploma, postgraduate certificate, or postgraduate diploma).

For more information and advice on how a specialisation might fit into your programme of study, talk to a Student Adviser in your Faculty.

Specialisations at degree level

Specialisations at degree level allow students to include complementary study within their overall programme of study. Specialisations available at degree level are:

Advanced Pedagogy	BEd
Technology	BEd

Specialisations at major or subject level

Specialisations at major or subject level allow students to focus in depth on a particular aspect of that subject. For example, within the International Languages and Cultures major, specialisations in Chinese, French, Japanese and Spanish are available.

At postgraduate level, for example within the Education subject for the Postgraduate Diploma, specialisations in Adult Literacy and Numeracy Education, eEducation, Global Studies in Education, Guidance and Pastoral Care, Māori Medium Teaching/Te Ropu Paerua, Middle Schooling Music Education, or Restorative Practices are available.

Specialisations available at major or subject level are listed under the subject entries in the [Catalogue of Papers](#).

Enrolment for Individual Paper Credit (IPC)

Students may be permitted to enrol in a paper without enrolling for a particular qualification. This may be because they have no intention of completing a full qualification, or because the paper is being taken for the purposes of qualifying for admission to a specific qualification. Alternatively, the student may be taking the paper for credit towards a qualification at another institution. Enrolments of this nature are recorded as Individual Paper Credit (IPC) enrolments.

Regulations Governing Enrolment for Individual Paper Credit (IPC)

1.	A candidate who enrolls on an IPC basis is liable for all fees and charges prescribed for the paper(s) and must meet any requirements specified in the prescription and paper outline.
2.	Enrolment on an IPC basis is subject to the approval of the Dean of the Faculty or School of Studies in which the paper is offered.

3.		<p>A candidate who has passed a paper taken on an IPC basis may, at a later date, apply to have the paper credited to a University of Waikato qualification. Approval will be based on the regulations for the qualification concerned.</p>
4.		<p>A student enrolled on an IPC basis is subject to all general regulations of the University of Waikato.</p>
5.		<p>A candidate who completes a paper on an IPC basis will receive official notification of his or her final results from the University of Waikato, and will be eligible to apply for an academic transcript.</p>

Prescriptions for Papers

The following page contains a brief introduction to the subjects and papers offered by the University. Subjects are set out in alphabetical order. A brief description may be given of the content of each paper as well as equivalents and restrictions, prerequisites and corequisites, required book information, and the internal assessment/examination ratio. Students also receive a paper outline when classes start, which provides more detail about the content, reading and assessment requirements for each paper.

In addition to the papers listed, departments may offer 800 and 900 level papers for MPhil and PhD students. Prospective students are advised to consult the School of Graduate Research and the Chairperson of the Department concerned for more information.

The prescriptions refer to the papers which the University expects to offer. The availability of these papers is subject to change if the University encounters unexpected staffing or resource difficulties. For up-to-date details of 2019 offerings, see the online Catalogue of Papers at papers.waikato.ac.nz.

In all cases where it is necessary to cancel papers, the Policy and Procedure for the Cancellation of Papers will apply, as approved by the Academic Board. Copies are available from the Academic Office.

In the prescriptions, each paper is identified by an alpha-numeric code.

For example:

HISTY107-19A (HAM)			<i>New Zealand Histories: Fresh Perspectives</i>	
HISTY			This is the subject code. In this case, History.	
	107			This is the level of the paper, followed by a unique identifier. 100 = 100 level 200 = 200 level 300 = 300 level
		19A		This is the year and semester in which the paper is taught.
			(HAM)	This is the location where the paper is

A **prerequisite** must be passed before a student may enrol in the paper for which the prerequisite is specified. For example, FRNCH231 *French Language Intermediate 1* is a prerequisite for FRNCH232 *French Language Intermediate 2*. Students may not enrol in FRNCH232 until they have passed FRNCH231. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Dean or Director of the Faculty or School of Studies in which the other paper is offered approves otherwise.)

A **corequisite** must be taken in association with the paper for which the corequisite is specified. For example ENGEE211 *Electromagnetics* is a corequisite with ENGEN201 *Engineering Mathematics 2*. You may enrol in ENGEE211 only if you have either already passed ENGEN201 or are concurrently enrolled in it.

Equivalent papers are in effect the same papers, one of which was taught in the past with a different paper code. For example ACCT331 *Management Accounting* is equivalent to ACCTN303 *Management Accounting*. Students who have passed ACCT331 may not enrol in and receive credit for ACCTN303.

Restricted papers share a significant amount of common content. Students may therefore receive credit for only one of the papers listed. For example MGSYS200 *Tools for Managing Projects* has a restriction with MGSYS300 *Tools for Managing Projects*. Restricted papers may not be used to satisfy prerequisite or corequisite requirements.

The **required books** which may be listed under some of the prescriptions are a conservative list only. Additional required books may be prescribed during the academic year. Lists of recommended reading are usually included in the paper outline provided by the department concerned.

The **internal assessment/examination weighting** is provided for all papers. The weighting sets out how much of the paper is internally assessed and how much is formally examined, as percentages of the total mark. The weighting 100:0 means a paper is fully internally assessed, while the ratio 50:50 shows that the assessment for the paper is evenly weighted between internal assessment and an examination. Examinations are scheduled in a formal examination period. All A semester papers which are not fully internally assessed will be examined at mid-year unless otherwise specified. Tests that form part of the internal assessment requirements may be held outside normal lecture hours.

Teaching activities for all undergraduate papers are listed in the Timetable. Teaching activities, including lectures, tutorials, laboratories and workshops, are scheduled to last 50 minutes and begin on the hour until (and including) 12 noon, and at 10 minutes past the hour from 1:10 p.m. This allows a lunch break of 20 minutes from 12:50 p.m. to 1:10 p.m. for students with continuous teaching activity commitments. Normal teaching hours are between 8.00 a.m. and 6.00 p.m.

A **semester** is a period for which students enrol in papers, attend classes and submit assessment items. The University of Waikato has two standard semesters (A and B), which each normally

comprise 17 weeks. There are also two intensive summer semesters - Summer School 1 (S semester), normally comprising eight weeks in January/February, and Summer School 2 (T semester), normally comprising six weeks in November/December. The semester period includes teaching as well as any study weeks and an examination period. The exact duration of semesters in a particular year is defined by week numbers in the [Teaching and Assessment Periods](#).

2019:	A semester, weeks 9-25
	B semester, weeks 28-44
	S semester, weeks 1-7
	T semester, weeks 46-51
	Y semester, weeks 9-44

Some papers have start and end dates which differ from the standard semesters set out above. Papers which extend across both the A and B semesters are annotated as Y papers. Papers which are taught in non-standard periods have a C, D, or E etc. suffix.

The period for which a student is eligible for loans and/or allowances, is calculated on the basis of the exact start and end weeks of papers. Students are advised of the start and end dates of their papers in the relevant paper outlines.

Preamble

At the time they enrol, students are required to sign a Student Declaration agreeing to abide by the regulations of the University of Waikato as published in the University of Waikato Calendar. The Student Discipline Regulations provide the framework for addressing alleged breaches of University regulations by students and for applying penalties where breaches are substantiated.

Members of the University community are entitled to operate and interact in an environment of safety and respect. It is expected that students will act with integrity and demonstrate respect for others.

If differences and disputes arise between members of the University community, it is expected that they will attempt to resolve such conflicts reasonably and co-operatively. Formal procedures should be used only where other methods of resolving conflicts have been ineffective or would be inappropriate.

It is the policy of the University that all discipline procedures conform to the principles of natural justice. The procedures in these regulations have been adopted to safeguard the rights of individuals in this respect.

Student Discipline Regulations 2014

Part 1 General

1.		Title
		These are the Student Discipline Regulations 2014.
2.		Purpose
		The purpose of these regulations is to
	(a)	define student misconduct
	(b)	explain procedures for making, investigating and resolving complaints of student misconduct, and

	(c)	set out the penalties that may be applied where misconduct by a student is substantiated.
3.		Date of effect
		These regulations are effective from 4 March 2014.
4.		Definitions
		In these regulations
		chief examiner means the person appointed by the relevant Dean as the chief examiner for the paper concerned (the names of the chief examiners are available from the Director of Student Services) and includes any other person appointed by the Dean as an alternate chief examiner for the sole purpose of exercising summary jurisdiction under these regulations
		class means a lecture, tutorial, laboratory, workshop, practical session, practicum, placement, field trip or any other type of learning activity delivered or supervised by a staff member
		hall of residence means Bryant Hall, College Hall, Orchard Park or Student Village

		(c)	where the conduct is related directly to the student's status as a student, or
		(d)	where the conduct has the potential to harm unfairly the reputation of the University.
	(3)		For the purpose of these regulations, the period during which a student is deemed to be enrolled as a student is defined as the period in a given year from (inclusively) the Monday of the start week of the paper in the student's programme of study that starts earliest in that year, to the Sunday of the end week of the paper that ends last.
	(4)		'Start week' and 'end week' in subsection (3) are defined for Student Loans and Allowances purposes.
	(5)		The processes for dealing with complaints of

misconduct may extend beyond the period defined in subsection (3).

	(4)		If a person who is a party to a complaint of misconduct fails to respond to a communication by a relevant authority, provided the authority has made all reasonable effort to locate and contact that person and to provide adequate opportunity for a response, the authority may proceed to deal with the complaint at his or her discretion.

Part 3

	(4)		The process is facilitated by the Deputy Vice-Chancellor Māori, assisted by a tikanga panel appointed by the Deputy Vice-Chancellor Māori.
	(5)		Where possible, a resolution is negotiated by the complainant and the student answering the complaint; where they are unable to negotiate a resolution between themselves, a resolution is determined by the Deputy Vice-Chancellor Māori in consultation with the Chairperson of the

			Student Discipline Committee.
	(6)		In determining a resolution under subsection (5), the Deputy Vice-Chancellor Māori is authorised to take any of the actions that are available under summary jurisdiction procedures, as provided in section 14(6).
	(7)		The Deputy Vice-Chancellor Māori is responsible for reporting the resolution negotiated or determined under subsection (5), in writing, to the complainant and the student answering the complaint.

		(a)	the evidence provided by the complainant and the student, and
		(b)	any other evidence, written or oral, that he or she may seek or accept at his or her discretion, provided that this evidence is disclosed to the student and he or she is given the opportunity to comment on it.
	(5)		The Chairperson of the Student Discipline Committee may decide at any time to take no further action on a complaint of misconduct if, in his or her judgement

		(a)	the evidence provided by the complainant is insufficient
		(b)	the subject matter of the complaint is trivial
		(c)	the complaint is frivolous, vexatious, or not made in good faith, or
		(d)	the complaint falls outside the scope of these regulations.
	(6)		If, having investigated a complaint, the Chairperson of the Student Discipline Committee determines that a student has committed misconduct, he or she may take one or more of the following actions:
		(a)	issue to the student a warning containing a statement of the possible consequences if the act or behaviour that provoked the complaint is repeated
		(b)	require an undertaking from the student as to future behaviour while enrolled at the University and set in place provisions for monitoring the student's behaviour in keeping with the undertaking
		(c)	require the student to provide any appropriate and available remedy to relieve distress, or repair damage, or correct a mistake

	(d)		require the student to make a public or private apology, either written or spoken
	(e)		require the student to pay, by a given date, compensation or a fine of up to \$500
	(f)		arrange for the student to be formally reprimanded by the relevant Dean or by the Deputy Vice-Chancellor, in person and/or in writing
	(g)		suspend the student from attendance at any class or programme for up to one year
	(h)		exclude the student from, or limit access to, any designated part or facility of the University for up to one year
	(i)		if the misconduct is related to a particular paper or programme of the University,
		(i)	require the student to repeat or complete additional assessment
		(ii)	refuse or reduce credit

					for part or all of an individual item of assessment, or refuse credit for a paper as a whole
		(j)			require the student to participate in a specified educational and/or training programme related to the misconduct, in terms prescribed by the Chairperson of the Student Discipline Committee and within a prescribed period.
		(7)			The Chairperson of the Student Discipline Committee must exercise his or her discretion in the matter as expeditiously as possible.
		(8)			The outcome must be communicated to the complainant and the student as expeditiously as possible.
15.		Delegation of summary jurisdiction to chief examiners			
		(1)			The authority of the Chairperson of the Student Discipline Committee to exercise summary jurisdiction under section 14 may be delegated to a chief examiner, provided that
			(a)		the chief examiner has followed the process prescribed by the Chairperson of the Student Discipline Committee for

			requesting and exercising that delegated authority
		(b)	the complaint involves alleged plagiarism or cheating in a 100 or 200 level item of internal assessment which is worth less than 33% of the total assessment for the paper concerned
		(c)	the student who is the subject of the complaint has not previously been found guilty of misconduct under these regulations, and
		(d)	the student against whom the complaint is made accepts the delegated authority of the chief examiner.
	(2)		Where authority to exercise summary jurisdiction is delegated under this section, the chief examiner must follow the summary jurisdiction procedures prescribed by the Chairperson of the Student Discipline Committee.
	(3)		If, having investigated a complaint under this section, a chief examiner determines that the student has committed misconduct, the chief examiner may take one or more of the following actions:
		(a)	issue to the student a warning containing a statement of the possible consequences if the act or behaviour that provoked the complaint is repeated
		(b)	require an undertaking from

				the student as to future behaviour while enrolled at the University and set in place provisions for monitoring the student's behaviour in keeping with the undertaking
		(c)		require the student to repeat or complete additional assessment
		(d)		refuse or reduce credit for part or all of an individual item of assessment, or refuse credit for a paper as a whole
		(e)		require the student to participate in a specified educational and/or training programme related to the misconduct, in terms prescribed by the Chief Examiner and within a prescribed period.
	(4)			If, at any time during a summary jurisdiction process, a chief examiner considers that the penalties available to the Chairperson of the Student Discipline Committee may be more appropriate, or for any other reason, the chief examiner may refer the matter back to the Chairperson of the Student Discipline Committee, who will exercise his or her own summary jurisdiction as provided under these regulations.
16.	Constitution and jurisdiction of the Student Discipline Committee			
	(1)			The Student Discipline Committee comprises
		(a)		the Chairperson, appointed by the Vice-Chancellor, and

		(b)	two academic staff members, appointed by the Chairperson of the Student Discipline Committee from a pool of eight nominated by the Academic Board, and
		(c)	two students, one of whom is enrolled at the graduate or postgraduate level, appointed by the Chairperson of the Student Discipline Committee from a pool of six students, two of whom are enrolled at the graduate or postgraduate level; the pool of six students is appointed by the Chairperson of the Student Discipline Committee in consultation with the President of the Waikato Students' Union if membership of the Waikato Students' Union is compulsory, or the student members of the Academic Board and Council in any other case.
	(2)		A quorum is the chairperson, one academic staff member and one student member.
	(3)		Written notice of the time, date and place of the hearing of the Student Discipline Committee, together with full details of the substance of the complaint, must be sent to the student against whom the complaint has been made, at least 14 days before the date of the hearing.
	(4)		The student answering the complaint may write an answer to the complaint.
	(5)		Both the complainant and the student answering the complaint

		(a)	must be given the opportunity to appear and give evidence at the Student Discipline Committee hearing
		(b)	may be required to attend, at the Committee's discretion

Student Complaints Procedures

Preamble

Consistent with its commitment to excellence, the University has adopted these procedures to assist both students and staff in the resolution of student concerns and complaints constructively, quickly and fairly.

Where minor concerns arise, students are encouraged to take a common-sense approach and raise them directly with the relevant staff, with the aim of resolving them at the lowest possible level and without undue formality. However, where informal discussions have not yielded a satisfactory resolution, or where the matter is more serious, the following procedures provide for a more formal process to be pursued.

Complaints considered through these procedures will be monitored and reviewed to enable the University to continually improve processes and services in support of student learning.

Student and staff rights and responsibilities in relation to these procedures are set out in the appendix.

Procedures

1.

Definitions

	In these procedures		
	complaint means a written statement submitted by a student about a matter that requires formal consideration and resolution by the University in the terms set out in these procedures		
	natural justice means the right to have a decision made by an unbiased decision-maker who observes fair and impartial procedures.		
2.	Application and scope		
	(1)		Subject to subsection (2), these procedures apply to complaints about any aspect of the teaching and learning process and the broad provision made by the University to support that process.
	(2)		These procedures may not be used

		(b)	to challenge the academic judgement of examiners.
	(3)		Depending on the nature of the complaint, these procedures should be read in

			conjunction with the <i>Staff Code of Conduct</i> , <i>Code of Student Conduct</i> and/or the <i>Education (Pastoral Care of International Students) Code of Practice 2016</i> .
	(4)		No action will be taken on malicious or anonymous complaints.
	(5)		A complainant must be able to demonstrate that the complaint is brought without malice and is based on evidence that the complainant honestly and reasonably believes to be substantially true. Those responsible for resolving complaints under these procedures must take all reasonable steps to ensure that the complainant is protected against any subsequent recrimination or victimisation.
	(6)		Students and staff involved in the consideration and resolution of concerns and complaints have various rights and responsibilities, which are outlined in the appendix to these procedures.
3.	Informal resolution of concerns		
	(1)		Before making formal written complaints, students are encouraged to seek a resolution to any concerns by raising and discussing them informally with the relevant staff member who is most directly associated with the matter.
	(2)		A staff member with whom a concern is raised by a student is expected to deal with the matter in an open and professional manner and to take reasonable and prompt action to try to resolve it informally.
	(3)		A student who is uncertain about how to seek informal resolution of a concern is encouraged to seek advice from Director of Student Services on 07 837 9464 or the Waikato Student Union Advocacy Officer on

4.	Formal complaints procedures

	(5)	A Dean or Head, or equivalent, who receives a student complaint must acknowledge it in writing within three working days. He or she must also lodge the complaint in the relevant Division or Faculty complaints register, using the student ID number as identifier (rather than the student's name), and must maintain a file of all documentation in relation to the consideration of the complaint.
	(6)	The Dean or Head, or equivalent, must ensure that any staff member named in the complaint receives a copy as soon as practicable.

	(7)		The Dean or Head, or equivalent, must consider the complaint in accordance with the principles of natural justice, and must ensure that all parties to the complaint are accorded the full benefit of those principles.
	(8)		The process may include meetings with relevant staff and/or the complainant. Where meetings are held, the parties may, if they wish, be accompanied by a peer support person.

	(3)		The Senior Deputy Vice-Chancellor will

			consider the relevant documentation and may, at his or her discretion, consult the Dean or Head, or equivalent, who made the decision. The Senior Deputy Vice-Chancellor may also interview any parties to the complaint.
	(4)		If he or she determines that the complaint process has been conducted in accordance with these procedures and the outcome is appropriate, the Senior Deputy Vice-Chancellor may dismiss the appeal. Otherwise, he or she will decide the appeal in consultation with the relevant Dean or Head, or equivalent, and any other parties. Subject to subsections (6) and (7), the decision of the Senior Deputy Vice-Chancellor under this section is final.
	(5)		The Senior Deputy Vice-Chancellor will notify his or her appeal decision in writing to the parties.
	(6)		When he or she notifies the parties of the appeal decision, the Senior Deputy Vice-Chancellor will inform the parties of the Ombudsman's role in relation to complaints about government organisations (including universities) that affect people in their personal capacities, the New Zealand Qualifications Authority's grievance procedures available to international students under the Education (Pastoral Care of International Students) Code of Practice 2016 , and the iStudent Complaints financial or contractual dispute resolution service, also available to international students.
	(7)		The Senior Deputy Vice-Chancellor will also inform any staff members who are dissatisfied with a student complaint process of the steps available to them under the University's Procedure for Resolving Employment Relationship Problems and Personal Grievances .

Waikato Students' Union (WSU)

The Waikato Students' Union is the voice of the student body on campus. The organisation is governed by a group of democratically elected students who speak passionately on behalf of students for over 40 years. The WSU provides support services and consultation for students, clubs, and class reps. They create full weekly student experience programmes - from regular barbecues through to O'Week festivities — and provide an unfiltered platform for student voice through the multi-award-winning Nexus magazine.

Student Support

The WSU has a few key ways in which they support students at the University of Waikato:

Student Engagement

The Student Engagement team manage a network of over 85 rōpū, clubs, and societies as part of the WSU's commitment to an active campus. That network features clubs from every aspect of the University environment. Archetypal clubs such as debating and mooting societies are now joined by gaming clubs, cultural societies, casual hiking clubs, and a range of religious groups. If students can't find a club that fits them, the WSU Student Engagement team is always available to guide them through the process of making their own.

Student Advocacy

Whether it's tenancy, academic or hardship issues the WSU provide a free, confidential, "no judgement" advocacy service to ensure students are aware of their rights, processes, and know that someone will always have their back. With a comprehensive list of support partners, including Community Law Waikato and Hamilton Budgeting Advisory Trust, WSU Student Advocacy ensures you get the best advice from the right people.

Student Voice

When the WSU was founded it was based on the principle of ensuring the student voice was heard – nearly 50 years later, that still remains their driving principle. With a board comprised entirely of students, including an elected President on the University Council, the WSU ensures that your voice matters. The Student Voice team assist in the training of class reps and provide a support service called Reo Tauira, carrying out regular consultations on campus issues and working proactively with the University to provide student-focused solutions.

Student Experience

The WSU has always felt that the University experience should be more than just academics. They have a dedicated Student Experience team providing daily activities on campus, managing student spaces, and cooking free food. The last few years have also seen them develop inter-faculty competitions, expand Orientation and Re-Orientation weeks, as well as develop programmes for wellness and mental health awareness. They have also invested in tools like "The Hub" at wsu.org.nz to ensure students have access to information, discounts, and events.

NEXUS

At the heart of the student experience is Nexus. A student magazine that provides its readers with an editorial resource to discover and challenge ideas about news, music, politics, arts, technology, and general student life. Nexus strives to encompass and reflect student culture in all its diversity. They're constantly on the lookout for writers, artists, creatives, and media enthusiasts. If you're keen to get involved, simply email editor@nexusmag.co.nz .

For more information visit the Ground Floor of the Students' Union Building (SUB) between 9am to 4pm (Monday to Friday), visit the WSU website: wsu.org.nz, or email wsu@wsu.org.nz .

Relational Learning Centre

The Relational Learning Centre will build on the theoretical understandings that were developed prior to and during the implementation of the Te Kotahitanga project, from 2001 to 2013. The focus of this project was to improve the educational outcomes for Māori students in mainstream classrooms and schools; thereby reducing the educational disparities that Māori people and the broader nation have struggled with for decades. In the Centre's activities, these understandings will be extrapolated to allow the development of a broad range of research-informed policy and practice responses to the educational disparities associated with the increasing ethnic and cultural diversity and consequent ongoing power imbalances within modern nations. These disparities are the result of inadequate system-level responses to the increasing demand for a significant voice in policy making and power-sharing solutions to educational disparities in education by marginalised populations of indigenous and minoritised peoples. The Centre will provide a setting wherein this dialogic process will provide a focus for the work of a group of national and international scholars in ways that will improve the educational experiences of students currently not well served by education. On the basis of such dialogue, the centre will seek to attract further funding and world-class researchers to allow for the development of further iterative, theory and evidence-based, research and development education reform initiatives, so as to make a significant contribution to the socially-just advancement of Indigenous and minoritised peoples.

Cyber Security Research Group (CROW)

The Cyber Security Researchers of Waikato (CROW) aims to return control of data-to-data owners, by focusing on research addressing data security from a user-centric perspective. With the emergence of cloud computing technologies and prevalent mobile device usage, we are witnessing the diminishing effectiveness of traditional cyber security approaches such as perimeter defence, intrusion detection and infrastructure hardening. To address this, CROW focuses on six major themes: Provenance, User-Centricity, Visualisation, Economics, Hardware, and Tools & Datasets. Together, these six themes empowers the return of control of data to users, thereby reducing reliance on third-party vendors or trust relationships commonly found in most cyber security contracts today.

Formal Methods Group

Established in 1998, this is the first Formal Methods laboratory in New Zealand. The work that goes on in this lab is based on the view that programming is at the heart of computer science. It is also based on the view that, as engineers and scientists, we should use the machinery of mathematics to model and reason about the systems that we build before we build them. This is in contrast with the view that programs should be written by trial and error (usually at great expense and with a high likelihood of failure, judged by current experience) with our users ironing out our mistakes for us at their expense. To this end, we are developing languages and tools for modelling systems, for reasoning about those models and for transforming them into code in a way that is guaranteed to preserve meaning and correctness. We do not want to build software that usually works – we want software that always works, and in the way intended by the requirements.

Information Systems and Databases Group

Most of the computer applications you encounter today are in fact Information Systems, that means, systems that manage, store and deliver information to users. Examples are search engines like Google, ticket booking systems, or online stores. Exciting new kinds of applications that we look at in the ISDB group are mobile tourist information systems, memory-aid systems and systems that notify you about changes, eg, in web pages or online shops. Our latest projects are context-aware systems that deliver information to their users depending on a user's location, time of the day, task, or mood.

Learning, Behaviour and Welfare Research Unit (LBWRU)

The research activity of this group is aimed at advancing the understanding of human and animal behaviour. The research includes application of psychological principles to human behaviour problems and the improvement of animal welfare. Animal models of human learning have a long tradition in the behavioural sciences, and many of the advances in behavioural therapies, especially with children with severe developmental disability have their basis in laboratory research that was conducted with non-human animals. Several members of this Unit actively research areas where there is direct cross over between the experimental analysis of behaviour with animals to the applied analysis of behaviour with humans, such as in the areas of reinforcer preference, self-control, and stimulus generalisation.

Machine Learning Group

Machine learning is concerned with the task of automatically extracting useful information from data. The aim is to identify patterns that can be used to understand the domain from which the data was collected and to make predictions. Our team works on new, more efficient, algorithms for machine learning and data mining as well as new applications. We are well known for a software "workbench" called the Waikato Environment for Knowledge Analysis (WEKA), which contains a large number of machine learning techniques. WEKA is widely used for research, teaching, and commercial applications of machine learning.

Waikato Public Law & Policy Research Unit

Te Piringa – Faculty of Law at the University of Waikato has an established tradition of outstanding scholarship in Public Law and Policy as demonstrated by the contributions of the Faculty’s founding Dean, Professor Margaret Wilson, and Professor Sir Grant Hammond. Today a significant number of Faculty members continue to have research interests in these fields focused on the Faculty’s founding principles of professionalism, biculturalism, and the study of law in context. Current work in the Faculty covers a wide range of common law jurisdictions, in addition to New Zealand and Pacific Island states, and extends from constitutional and administrative law and theory to giving effect to the principles of the Treaty of Waitangi and Māori & indigenous governance. The Public Law & Policy Research Unit promotes the widest conception of Public Law and Policy, encompassing administrative law, charity and the regulation of civil society, constitutional law, criminal law and justice, and international law. It was established to fill a clear gap in the interrogation of these policy research areas in an integrated and holistic way.

Dissertations and Theses

Deadlines for the submission of dissertations and theses for graduate qualifications are prescribed in section 12 of the [Personal Programmes of Study Regulations](#).

General information about the submission of MPhil and doctoral theses is published on the Higher Research Degrees [website](#).

Deadlines for the submission of theses for the Master of Philosophy (MPhil) and doctoral degrees - Doctor of Philosophy (PhD), Doctor of Education (EdD), Doctor of Health Science (DHSc), Doctor of Juridical Science (SJD), and Doctor of Musical Arts (DMA) are determined on an individual basis. Details about terms of enrolment for these degrees are available from Te Mata Kairangi School of Graduate Research.

Students may obtain details about style, general layout, and important conventions to be followed in writing a thesis (referencing, bibliographies etc.) from their supervisor or relevant School or Faculty. The University of Waikato Library also publishes a guide to the presentation and submission of dissertations and theses which is available from the Library [website](#).

Dissertations and Theses Regulations

1. Title

These are the Dissertations and Theses Regulations 2020.

2. Date of effect

These regulations are effective from 1 January 2020.

3. Definitions

In these regulations

dissertation means a piece of written work that reports on the findings of a theoretical or empirical investigation and is undertaken in accordance with the regulations for an honours or first masters degree

first masters degree means a masters degree except for the Master of Philosophy (MPhil)

thesis means a piece of written work undertaken in accordance with the regulations for a first masters degree and equivalent to at least 90 points at 500 level, or a piece of written work undertaken in accordance with the regulations for a Master of Philosophy or doctoral degree. Applicants who intend to integrate a creative practice component with their thesis must comply with the Requirements for PhD with a Creative Practice Component, available from Te Mata Kairangi School of Graduate Research. A thesis is externally examined and if passed is considered to embody research of a kind and standard appropriate for the thesis to be lodged permanently in the University's digital repository, Research Commons, and is publicly accessible (unless embargoed under section 12 of these regulations).

4. **Word limit for dissertations**

The maximum word limit for a dissertation is determined by the School of Faculty in which the dissertation is undertaken.

5. **Word limit for first masters theses**

Unless the Head of School or Dean of the School or Faculty in which the thesis is undertaken approves otherwise in the case of an individual student or subject, the maximum word limit for a first masters thesis is 50,000 words.

6. **Word limit for Master of Philosophy (MPhil) theses**

Unless the Postgraduate Research Committee approves otherwise in an individual case, the maximum word limit for an MPhil thesis is 50,000 words.

7. **Word limit for doctoral theses**

Unless the Postgraduate Research Committee approves otherwise in an individual case, the maximum word limit is

- (a) for a PhD thesis, 100,000 words
- (b) for an EdD or SJD thesis, 60,000 words
- (c) for a DMA thesis, 50,000 words.

8. **Submission of dissertations**

- (1) When the dissertation is ready for examination, the student must submit two copies to the relevant Head of School or Dean of the School or Faculty.
- (2) Dissertations are not required to be bound, but must be formatted and presented in accordance with relevant School or Faculty policy.
- (3) The relevant Head of School or Dean may agree to accept part or all of a dissertation solely

in digital form.

9. Submission of first masters theses

- (1) When it is ready for examination, a digital copy of the thesis, which will include an abstract of no more than 500 words, immediately following the title page and written in a form suitable for publication, must be submitted by the student to the Student Centre Team.
- (2) The thesis must be accompanied by a declaration, signed by the student's chief supervisor, stating
 - (a) whether the thesis is, in the supervisor's opinion, ready for examination, and
 - (b) that the thesis embodies the student's own work, carried out under the supervisor's direct supervision, and
 - (c) that evidence of ethical approval or a statement confirming that it is not required, in accordance with the [Ethical Conduct in Human Research and Related Activities Regulations 2008](#) and/or the [Code of Ethical Conduct for the Use of Animals for Research Testing and Teaching 2014](#)  had been provided.
- (3) After a thesis has been examined, passed and returned to a student, the student must, within three weeks, submit a final digital copy of the thesis to the University's digital repository, Research Commons.
- (4) After a thesis has been examined, passed, and submitted in final digital form the digital copy will be lodged permanently in the University's digital repository, and, unless the Deputy Vice-Chancellor Research has approved an embargo under section 12 of these regulations, will be publicly accessible.

10. Submission of MPhil and doctoral theses

- (1) When it is ready for examination, a digital copy of the MPhil thesis or the doctoral thesis, which will include an abstract of no more than 500 words, immediately following the title page and written in a form suitable for publication, must be submitted by the student to Moodle, as per the submission for examination process outlined by Te Mata Kairangi School of Graduate Research.
- (2) The thesis must be accompanied by a declaration, signed by the student's chief supervisor, stating
 - (a) whether the thesis is, in the supervisor's opinion, ready for examination, and
 - (b) that the thesis embodies the student's own work, carried out under the supervisor's direct supervision, and
 - (c) that evidence of ethical approval or a statement confirming that it is not required, in accordance with the [Ethical Conduct in Human Research and Related Activities Regulations 2008](#) and/or the [Code of Ethical Conduct for the Use of Animals for Research Testing and Teaching 2014](#)  had been provided.
- (3) After a thesis has been examined and passed, a student, before being entitled to have the

relevant degree formally conferred, must submit in final digital form, the copy to be lodged permanently in the University's digital repository, Research Commons, and, unless the Deputy Vice-Chancellor Research has approved an embargo under section 12 of these regulations, this copy will be publicly accessible.

11. Digital format

- (1) The format for submission of the digital copy of a thesis required under subsection 9(1) and 10(1) of these regulations is set out in the University publication [Write and Submit a Thesis](#) which is available from the Library website.

12. Embargoes

- (1) Because freedom to exchange ideas and to publish acquired knowledge are fundamental to the purposes of a university, restrictions on freedom of access to dissertations and theses are acceptable only in very limited circumstances approved by the Deputy Vice-Chancellor Research.
- (2) Embargoes of dissertations or theses, either in part or in full, are subject to written approval of the Deputy Vice-Chancellor Research.
- (3) Embargo of a dissertation or thesis is normally approved only under the following circumstances:
 - (a) if it is pending publication
 - (b) if it is pending the filing of a patent
 - (c) to allow a funder to comment
 - (d) to protect pre-existing traditional knowledge of a whanau/hapu/iwi
 - (e) to protect pre-existing commercial agreements
 - (f) if there is a pre-existing contractual obligation
 - (g) if restriction is necessary under the Privacy Act 2020 or the Official Information Act 1982.
- (4) An embargo will be approved only for a limited period.
- (5) If the Deputy Vice-Chancellor Research has approved an embargo, only the author, title, abstract and other meta-data of the full digital copy held by the University may be publicly accessible through the University's digital repository, Research Commons.

Vice-Chancellor's Special Powers

1. The Vice-Chancellor may give such direction, or make such provision as they think fit for the relief of undue hardship where it is shown to their satisfaction
 - (a) that an alteration or amendment to statutes or regulations involving a change in a course of study or in examination requirements has caused a student hardship, or
 - (b) that official advice has been given and acted upon, and it is later found that a student's programme of study is not in accordance with the governing regulations and hardship would be caused if the student were to be compelled to comply with the full requirements of the regulations.
2. The Vice-Chancellor may, in consultation with the relevant Pro Vice-Chancellor, Head of School, Director or equivalent, give such direction or make such provision as they think fit where it is shown to their satisfaction that an unusual and particular case has arisen concerning a student's enrolment, in consideration of which no relevant provisions or regulations currently apply.
3. The Vice-Chancellor will report to the Academic Board any decisions made under these special powers.
4. A student may appeal to Council against a decision by the Vice-Chancellor under these special powers.
5. The Council decides appeals and makes any provisions that it considers appropriate.

Qualification Regulations

These regulations apply to candidates beginning their studies in 2024. Candidates who first enrolled in a qualification prior to 2024 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. Candidates who are resuming their studies for a qualification after an extended absence are advised to consult the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies concerned at the time of re-enrolment regarding the requirements for completion. However, where there have been significant changes in the structure of a qualification or content of the major or specified programme during the candidate's absence, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may prescribe a specific programme of study which will be deemed to satisfy the requirements for completion of the qualification.

Part 1 General

1. Title

These are the Assessment Regulations 2016.

2. Date of effect

These regulations are effective from 1 January 2016.

3. Definitions

In these regulations

Assessment means the internal assessment (details of which are prescribed in the relevant paper outline) and, if one is offered, the examination that a student must undertake in order to be awarded a grade for the paper concerned

Chief Examiner means the person appointed by the relevant Head of School or Dean as the

chief examiner for the paper concerned; (the names of chief examiners are available from the relevant Pro Vice-Chancellor or Dean of the Faculty of Māori and Indigenous Studies)

Compulsory Assessment Item means an assessment item that is identified as compulsory in the relevant paper outline, and that a student must submit in order to be eligible to pass the paper

Examination means the portion of the assessment for a paper that a student undertakes under formally supervised conditions, at a time and place notified by the Student Centre

Examiner means the person or persons designated in the relevant paper outline as the lecturer or convenor of the paper concerned

Internal Assessment means the portion of the assessment for a paper that is assigned, supervised and marked internally within the relevant department; it may include assignments, practical work, work in tutorials, seminars, written or oral tests, recitals, performances or attendance requirements

Paper Outline means the document distributed by the relevant department providing detailed information about the nature and requirements of the paper

Plagiarism means presenting as one's own work the work of another, and includes the copying or paraphrasing of another person's work in an assessment item without acknowledging it as the other person's work through full and accurate referencing; it applies to assessment presented through a written, spoken, electronic, broadcasting, visual, performance or other medium

Special Examination means an examination prepared and scheduled for a student whose application for special consideration under section 17 of these regulations has been accepted as valid by the Special Consideration Committee.

4. **Application**

These regulations apply to papers at 0, 100, 200, 300, 400, 500, and 700 levels.

5. **Fees**

The fees referred to in these regulations are prescribed in the [Table of Fees and Charges](#).

6. **Eligibility to submit assessment**

A student must be enrolled for a paper in order to be eligible to submit assessment in it.

7. **Use of particular languages for assessment**

- (1) Unless specified otherwise in the relevant paper outline, students must submit assessment in either English or Māori.
- (2) The presentation of assessment in Māori is subject to the [Policy on the Use of Māori for Assessment](#).

8. **Plagiarism and cheating**

- (1) Guidelines for sourcing and referencing styles appropriate to particular disciplines are available from the Faculties or School of Studies and the Library.
- (2) Plagiarism is prohibited.

(3) It is not a defence against a charge of plagiarism for a student to argue that they did not act intentionally in appropriating the writing or work of another person; however, the extent to which the student is judged to have plagiarised intentionally, and the level and standard of scholarship that might reasonably be expected of the student, may be factors in the determination of any disciplinary action to be taken against the student.

(4) Cheating in any matter connected with assessment is prohibited.

9. **Use of the same material for different assessment items**

Unless approved otherwise by the examiner of the paper concerned, a student must not submit for assessment material that is substantially the same as material submitted for assessment for a different paper, or for a paper which the student has attempted and/or completed previously in substantially the same form and is repeating.

Part 2

Conduct in Examinations

10. **Presence and identification at examinations**

(1) A student may attend an examination only if he or she is enrolled for the paper for which it is prescribed.

(2) A student may not enter an examination to begin an examination after the first 45 minutes.

(3) Except with the permission of the examination supervisor, a student may not leave an examination room during the first 45 minutes or during the last 15 minutes.

(4) Students undertaking an examination must sign their examination script and identify themselves to the Examination Supervisor by producing either

(a) their student identity card, or

(b) another form of photo identification that can be authenticated by the Examination Supervisor.

(5) A student may not leave the examination room during an examination with the intention of returning unless supervised during the period of absence by the examination supervisor.

11. **Conduct in the examination room**

(1) A student undertaking an examination must follow the instructions in the examination paper as well as any instructions given by the Examination Supervisor.

(2) An electronic device that

(a) makes use of an audible alarm, or

(b) has facilities for transmission or reception of information, or

(c) is capable of storing and displaying information

is prohibited in the examination room, unless it is turned off and stored separately from the

student, or is an item authorised by an Examiner under subsection 11(3) of these regulations.

- (3) A student may not bring into the examination room any of the following items unless authorised in writing by the Examiner:
 - (a) paper
 - (b) books
 - (c) calculators
 - (d) electronic devices, including dictionaries
 - (e) computers.
- (4) If items are authorised under subsection 11(3) of these regulations, details of the type and the functions that may be used will be specified by the Examiner.
- (5) Items brought into an examination room may be subject to scrutiny and their use during the examination may be monitored by the Examination Supervisor.
- (6) A student undertaking an examination must not
 - (a) communicate with another student during the examination
 - (b) share material in the examination room.

12. **Communications with others about examinations**

- (1) A student must not communicate with the examiner about the content of an examination between the time it is undertaken and the notification of confirmed grades.
- (2) A student who wishes to raise an issue about an examination between the time it is undertaken and the notification of confirmed grades may do so by contacting the Student Centre.

Part 3 Special Arrangements for Examinations

13. **Applications and procedures**

- (1) Applications under Part 3 are considered and decided upon by the Special Consideration Committee. Which is a committee of the Education Committee.
- (2) The times and places of examinations are notified by the Student Centre.
- (3) A student
 - (a) who has a learning or physical disability that is likely to affect his or her performance in an examination, or
 - (b) who, for any other reason that he or she considers to be compelling, requires a special arrangement to undertake an examination,

may apply to undertake the examination at a different time, a different place, or under special

conditions.

- (4) The application must be submitted to the Student Centre, on the prescribed form, as soon as practicable after the teaching of the paper has started and the need for the special arrangement has been identified.
- (5) If the need is identified too late to allow for a suitable arrangement to be made by the University, the student will be advised to apply for special consideration under Part 4 of these regulations.
- (6) An application under Part 3 must be supported by evidence as stipulated on the application form.
- (7) A student who makes an application under this Part may be requested by the Special Consideration Committee to undergo an evaluation by an independent professional person.
- (8) The University makes any arrangements and meets any costs for an evaluation under subsection 13(7) of these regulations.
- (9) If the Special Consideration Committee considers that
 - (a) the circumstances documented in the application are valid according to the criteria set down in subsection 13(3) of these regulations, and
 - (b) it is practicable to do so given the nature of the circumstances involved and the availability of resources, it will offer the student a special arrangement.

14. **Conditions attached to special arrangements**

- (1) Unless approved otherwise by the Special Consideration Committee, a student will not be permitted to undertake an examination at a different time that is more than two days before or after the notified time for other candidates.
- (2) A student who accepts an opportunity to undertake an examination at a different time is required to sign a statutory declaration promising not to communicate about the content of the examination with any other person between the time they undertake it and the time it is undertaken by the other candidates.
- (3) The Special Consideration Committee may require, as a condition attached to the offer of a special arrangement, that the student contribute part or all of any associated costs.

Part 4

Special Consideration for Missed Assessment, or Impaired Performance in Assessment

15. **Grounds for applications for special consideration**

- If, due to circumstances beyond their control (such as illness, injury, bereavement or trauma)
- (a) a student has been prevented from presenting internal assessment,

- (b) a student's performance in internal assessment has been seriously impaired,
- (c) a student has been prevented from undertaking an examination,
- (d) a student's performance in an examination has been seriously impaired, or
- (e) a student's ability to prepare for an examination in the two weeks immediately preceding the examination has been seriously impaired, the student may apply for special consideration.

16. **Special consideration in respect of internal assessment**

- (1) Applications for special consideration in respect of internal assessment are considered and decided by the Examiner of the paper for which the assessment is prescribed.
- (2) An application for special consideration in respect of an internal assessment must be made in writing to the relevant Examiner not later than three days after the date on which it is due.
- (3) The application must be supported by evidence that is acceptable to the Examiner; the evidence may be in the form of
 - (a) a medical certificate for an illness or injury affecting the period relevant to the particular assessment item, or
 - (b) evidence of any other circumstance and its effect on the student over the period relevant to the particular assessment item.
- (4) If the Examiner accepts that the circumstances documented in the application are valid, they may
 - (a) estimate a mark for the assessment item, or
 - (b) if it is practicable to do so, offer the student an opportunity to submit or repeat the original assessment item or to submit an alternative assessment item.
- (5) A student may not be awarded estimated marks under subsection 16(4) of these regulations for more than 33% of the overall internal assessment for a paper.
- (6) If the Examiner does not offer any of the options under subsection 16(4) of these regulations, the student may apply under the [Change of Enrolment Regulations 2012](#) to withdraw from the paper on medical or compassionate grounds.
- (7) A student may appeal to the Chief Examiner against any decision by an examiner under this section.

Preamble

Ethical Conduct in Human Research and Related Activities Regulations

Preamble

Any member of the University community who participates in research and specified related activities is required to conduct the research and/or related activities in a manner that conforms with ethical standards set down by the University, by relevant national and international professional bodies, and by the law of the country in which the research is undertaken.

These regulations apply specifically to the following activities: research, teaching, consulting, evaluation, and publications which involve collecting data about and from people and organisations. These regulations also apply to any research where there are ethical issues that are not addressed by the Animal Ethics Committee [Code of Ethical Conduct for the Use of Animals for Research, Testing and Teaching](#) .

Students are referred also to the University's [Student Discipline Regulations 2020](#) in this Calendar, and the [Guidelines for Professional Practice and Community Contact in the Conduct of University Research or Related Activities](#)  (see Appendix 1 to these regulations), and the Higher Research Degrees website, as amended from time to time: <http://www.waikato.ac.nz/students/research-degrees/>.

Staff are referred also to the University's [Staff Code of Conduct](#).

Students and staff are also referred to the resources on [Human Research Ethics](#), available from the [Research & Enterprise Office](#).

Ethical Conduct in Human Research and Related Activities Regulations

1. **Title**

These are the Ethical Conduct in Human Research and Related Activities Regulations 2008.

2. **Purpose**

Ethical issues arise when University research and/or related activities involve the interests and rights of others. The purpose of these regulations is to facilitate ethical conduct which respects the rights of people, communities, companies, trusts, and other organisations. These regulations explain the standards of ethical conduct and the procedures that apply for the maintenance and monitoring of these standards. All applications to the University's human research ethics review committees will be reviewed for approval on the basis of their compliance with these regulations.

3. **Date of effect**

These regulations are effective from 1 July 2008.

4. **Scope**

(1) These regulations apply to all

(a) staff of the University of Waikato

(b) students of the University of Waikato, and

(c) any other person authorised to undertake research and/or a related activity on behalf of the University of Waikato, including those employed or contracted in wholly-owned subsidiary entities.

(2) Research collaborators or partners are expected to apply for approval of their research and/or related activities from their organisation and must also apply to the relevant University of Waikato Divisional or Faculty of Māori and Indigenous Studies committee.

(3) Under these regulations, all research and/or related activities are required to have formal ethics review and approval.

(4) Applications for approval are not required for normal teaching activities; but are required for specific teaching that involves the participation of a student or students and has the potential for harm (see section 13 of these regulations), or that involves collection of data from students.

(5) Applications are not required for University teaching evaluations or for University reviews and quality assurance activities; however, such activities do have ethical implications and should be conducted in a professional way consistent with the University [Staff Code of Conduct](#) and should be consistent with the spirit of these regulations.

5. **Definitions**

In these regulations

research means an inquiry of an investigative, experimental, or critical nature which is driven by a question, hypothesis, or intellectual position capable of rigorous assessment, and the

findings of which are open to scrutiny and formal evaluation. It may include any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

related activities may include teaching, consulting, evaluation, and publication when these activities involve collecting data about and from people and organisations. These activities are defined as follows:

teaching means teaching in lectures, tutorials, demonstrations, and related educational research

consulting means the provision of advice to a client, such advice being based upon the pre-existing professional knowledge and skills of the consultant

evaluation means the systematic collection and analysis of information to make judgements, usually about the effectiveness, efficiency, and/or appropriateness of the research and/or related activity

publication means any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

participant means a live human being or group of live human beings who participate in research and/or related activities whether by observation, questioning, participation in an experiment, provision of specimens or human tissue samples, or by any other means

organisation means a social unit of people systematically arranged and managed to meet a need or to pursue collective goals on a continuing basis. Examples include firms, iwi groupings, schools, and professional societies

researcher means the person undertaking research and/or related activities

harm includes physical, psychological, social, economic, or cultural harm to participants

field research means research conducted in person in a natural setting outside of a laboratory.

6. Application procedures

- (1) A staff member, student, or authorised person must not commence research or a related activity until it has been approved by the appropriate authority and in accordance with these regulations.
- (2) Researchers must submit applications for approval for their research or related activity to one of the delegated relevant Divisional or Faculty of Māori and Indigenous Studies committees (see section 22 of and Appendix 2 to these regulations) within the University.
- (3) Where applications are made to an external ethics committee, an application must also be submitted to, and approved by, the relevant delegated committee within the University (see section 22(3) of and Appendix 5 to these regulations).
- (4) Applications for approval of research and/or related activities must be submitted in the form prescribed for the relevant Division or the Faculty of Māori and Indigenous Studies (see Appendix 3 to these regulations).
- (5) If an ethical issue relating to the research and/or related activity that was not envisaged at the beginning arises during its course, the researcher must stop the research and/or related activity, consult the appropriate authority, and apply for approval. The researcher must not

begin the research and/or related activity again until the necessary approval has been obtained.

- (6) For situations where prior, free, express, and informed consent from participants may not be possible, see sections 10 and 11 of these regulations for guidance in making application for approval of the research or a related activity.

7. **Responsibility for ethics in research and related activities**

- (1) Individual staff, students, and authorised persons are responsible for ensuring their research and/or related activities comply with these regulations.
- (2) If a researcher is a student, the staff member responsible for supervising the student's research must take all reasonable steps to ensure that the student complies with these regulations.
- (3) Paper convenors may apply for ethics approval for an entire paper if it involves students in that paper engaging in research or related activities. Such applications must cover all anticipated research or related activities the student may engage in, and the convenor's, lecturers' and/or tutors' responsibilities. Applications must identify ethical issues and describe practices for addressing them.

8. **Value of research or related activities and the public interest**

- (1) A researcher must be able to justify to their peers the goals and methodology of the research and/or related activity in terms of its reasonably anticipated benefits balanced against any foreseeable risk of harm to the participants.
- (2) A researcher must normally make available the findings of research in the public domain. Any exception to this must be approved in writing by the Senior Deputy Vice-Chancellor, or by a person to whom authority is delegated in writing by the Senior Deputy Vice-Chancellor (see section 12 of the [Dissertations and Theses Regulations 2020](#)).

9. **Informed consent of participants**

- (1) Researchers must gain participants' prior, free, express, and informed consent in a culturally and socially appropriate manner, unless in the case of approved exceptions. For proxy consent from authorised representatives, see subsection (4)(e) and (4)(f) of this section of these regulations. Exceptions regarding large sample surveys and similar research methods, some cases of field research, and the possibility of gaining informed consent after data collection are dealt with in sections 10, 11 and 14 of these regulations.
- (2) A researcher must establish explicit processes for reaching agreement with participants. A researcher must not involve a participant in any research and/or related activities unless the researcher is satisfied that the participant has understood the nature of their involvement and freely agreed to it in accordance with the principles outlined in this section.
- (3) A researcher must not use explicit or implicit coercion to obtain the agreement, and must not use inducement to obtain the agreement except in accordance with section 18 of these regulations.

- (4) Unless sections 10, 11 or 14 of these regulations apply, a researcher must adhere to the following principles with respect to informed consent of participants:
- (a) A researcher must inform prospective participants of all information relevant to the decision to participate including
 - (i) their right to decline to participate in the research and/or related activities or any portion or any part of these
 - (ii) the form in which the findings will be published
 - (iii) duration and security of data storage
 - (iv) their right to withdraw any information they have provided up until analysis has commenced on their data
 - (v) their right to access and correct personal information
 - (vi) the process for withdrawing information they have provided.
 - (b) The more readily identifiable the participants may be, the more formal the consent should be. Where participants are asked to answer questionnaires that might identify them, answer questions in a formal interview, undergo formal tests, or where they are subjected to formal observation and recording procedures, the process for obtaining informed consent, and the form of the consent, should be similarly formal and recorded in writing or some other reproducible form. Where the participation is more anonymous the consent may be less personalised and less explicit (see section 10 of these regulations).
 - (c) If the research or related activity involves manipulation of, or intervention in, the physical or psychological state of a participant, the participant's consent, or, if subsection (e) of this section applies, the consent of the person with authorised responsibility for the participant, must be recorded in writing or some other reproducible form.
 - (d) Because some research and/or related activities involve collectives, a researcher must recognise the complexities of relationships between individuals and collectives. In some cultures it is common for the leader of a collective to make a decision in respect of participation on behalf of its members. If an individual in a collective wishes to participate or not to participate in the research and/or related activity, regardless of a decision taken on behalf of the collective, the individual's wishes must be respected and all reasonable care taken to ensure that those wishes are also respected by other members of the collective.
 - (e) If a prospective participant is reasonably judged incapable of giving informed consent, the researcher must obtain the proxy consent from the person who has responsibility for the prospective participant's welfare, taking particular care to protect the participant's interests and also taking into account any potential conflict of interest between them and the person whose consent is required.
 - (f) A researcher who seeks the proxy consent of another person on behalf of a prospective

participant under subsection (e) of this section must make all reasonable effort to involve the prospective participant themselves in the process and the decision about consent.

- (g) Staff, students, and other approved persons must obtain informed consent when recording images of participants, participants' possessions, or research and/or related activity in which participants are involved, unless the recording of images is of lawful activity occurring in a public place and is culturally appropriate.
- (h) A researcher must provide the information under subsection (a) of this section plainly and in the language and medium that is appropriate for the prospective participants.
- (i) A researcher must inform participants of their right of access to any data that may have been collected from or about them.
- (j) A researcher must inform participants of their right to complain about the conduct of the research and/or related activity and must also inform them of the process for making a complaint.

10. Large random sample surveys and informed consent

- (1) A researcher who intends to collect data involving large numbers of people is not required to adhere to all the principles concerning informed consent outlined in section 9(4) of these regulations if the research method makes adherence to all these principles impractical or undesirable and if such a requirement is likely to impact adversely on the researcher's ability to generate reliable information.
- (2) However, the researcher must declare and justify an intention not to adhere to the principles in section 9(4) of these regulations in the application for approval submitted under section 6 of these regulations.
- (3) In these situations the researcher must provide the following information, as a minimum, to a participant before the research or related activity begins
 - (a) the anticipated length of the research or related activity
 - (b) the general purpose of the research or related activity
 - (c) the forms in which the data might be published
 - (d) an assurance that the participant will not be identified in any publication or dissemination of research findings.

11. Field research and informed consent

- (1) 'Field' research in this context means research conducted in person in a natural setting outside of a laboratory.
- (2) In field research situations, prior, free, express, and informed consent must be gained in a culturally and socially appropriate manner from participants.
- (3) In some forms of field research using such methods as participant observation, participatory research and action research, where obtaining prior, free, express, and informed consent

from all participants would be inappropriately intrusive or impractical for social, cultural, or methodological reasons, it is acceptable not to gain such consent.

- (4) However, the researcher must take care to apply other ethical principles, especially minimising the risk of harm to participants and maintaining the anonymity of participants. It may also be appropriate in such cases that informed consent be sought afterwards but prior to the publication of research findings, from people who have in the course of information collection come to the attention of the researcher.

12. Archiving of data, privacy, storage, and use of information

- (1) All non-identifying data (eg data sets and transcripts) used for publication must be securely kept long enough to allow for academic examination, challenge, or peer review. This period would normally be at least five years. Identifying data such as consent forms, photographs, and videos will be securely stored consistent with agreements made under section 9(4)(a) of these regulations. The responsibility for data storage lies with the department or other equivalent academic unit.
- (2) Where the research and/or related activity is conducted in New Zealand, the researcher must comply with the Privacy Act 1993 and the Official Information Act 1982, and must adhere to the following principles consistent with that legislation
 - (a) participants and informants must not be publicly identified or identifiable without their explicit consent
 - (b) participants must be informed (unless sections 10, 11 and 14 of these regulations apply) that they will not be identified in any publication or dissemination of the research findings without their explicit consent
 - (c) researchers must take all reasonable precautions to prevent unauthorised use, access, modification, or disclosure of personal information
 - (d) data identifying participants must not be kept for longer than required for the purpose for which it is collected (see subsection (1) of this section)
 - (e) except in circumstances specified in the relevant legislation, personal information may be used only for the purpose for which it is collected.
- (3) Where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply with any legislation that applies in that country with respect to privacy and storage of personal information.
- (4) Even where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply as far as possible with the spirit of the Privacy Act 1993 and the Official Information Act 1982; however, if there are contradictions between the legislation of New Zealand and the other country, the legislation of the other country must prevail
- (5) A researcher must include in an application submitted under section 4(3) of these regulations a statement about the conditions under which, and the period for which, any personal

information collected for the research and/or related activity is to be stored.

Policy on the Use of Māori for Assessment

Statement of Principle

1. In recognition of the status of the Māori language as a tāonga protected under the Treaty of Waitangi, and within the spirit of the Māori Language Act 1987, the University of Waikato endorses the right of its students to use the Māori language in written work for assessment within the University.
2. In keeping with the above and in accordance with its Charter commitments the University seeks to have sufficient suitable staff employed or available throughout its Divisions or the Faculty of Māori and Indigenous Studies to ensure that any work submitted in Māori would be assessed in that language by staff competent in the subject under examination and in the Māori language.
3. In the meantime, the use of the Māori language in assessment is subject to conditions set out in this policy statement.

Exceptions

4. There are occasions when, due to the nature of the skills being tested, work submitted for assessment may be required to be in a particular language. In such cases that requirement shall be made explicit in writing, either in the relevant subject entry or prescription in the University of Waikato [Catalogue of Papers](#) or in the paper outline distributed to candidates at the beginning of a paper.

Notice

5. Candidates who intend to present all or part of an examination or piece of internally assessed work in Māori are requested to give at least 14 day's notice of their intention of doing so in writing to the Student Centre. This notice of intention is desirable to allow the University the time and opportunity to make proper arrangements for marking including, when necessary, translation and external assessment. If less than 14 days' notice is given, the material presented in Māori will still

be accepted. The processing of it may, however, be delayed and the opportunity to have the script marked in the original language may be reduced.

6. Where a candidate who intends to present material in Māori has given the requested notice of intention, they will be informed as soon as reasonably possible, as to whether or not the assessment will be based on translation.

Potential for Delays

7. The University will do its best to make the results of an examination or item of internally assessed work presented in Māori available to the candidate within the ordinary time-frame. However the process of assessment in such cases, possibly including translation, may result in delays in the return of coursework or in the publication of results.

Māori-speaking Paper Examiners

8. The examination or internally assessed work will be assessed in Māori by the examiner for the paper if the examiner is considered by the Deputy Vice-Chancellor Māori or their nominee to be linguistically competent to do so.

Co-examiners

9. If the examiner of the relevant paper is not competent to assess in Māori, a co-examiner, competent in both the subject under examination and in Māori, may be appointed to conduct the assessment of work presented in Māori in consultation with the examiner.

Translation

10. If no person is available in the circumstances to assess the work in Māori, a translator will be appointed by the Deputy Vice-Chancellor Māori or their nominee in agreement with the appropriate chief examiner. The translator will be asked not to correct errors in the original nor to make any embellishments; however, ambiguities may be pointed out to the examiner. Where necessary the examiner may seek clarification of the translation of the paper from the translator but contact between the student and the translator is prohibited, as is contact between the student and the examiner. The assessment will then be carried out by the examiner of the paper on the basis of the translation.

The University intends that resort to translation be made only when reasonable efforts to find an examiner capable of assessing the work in its original language have been exhausted.

11. In the process of appointing a translator, the Deputy Vice-Chancellor Māori or their nominee will take all reasonable steps to ensure that the translator is competent in the relevant subject under examination, as well as in the Māori language.

External Assessment

12. If the internal assessment and/or examination script is to be subject to external assessment, the other institution undertaking the external assessment will be requested to indicate whether an external assessor is available to conduct the assessment in Māori. If not, a translation will be obtained for the purpose by the University according to the process explained in sections 10 and 11 of these regulations.

Return of Scripts

13. When any translation is relied upon in the assessment of an examination, a candidate making proper application for the return of a script shall also receive any translation made of the script. When assessed coursework is normally returned to the student, any translation used is likewise to be returned.

Appeals and Reconsiderations

14. An appeal against a decision regarding linguistic or subject competence made under the provisions of sections 8 and 11 of these regulations shall be to the Senior Deputy Vice-Chancellor whose decision shall be final.
15. The regulatory provisions for reconsideration of final grade together with the established appeal provisions will apply, with the addition that the Māori Language Commission is regarded by the Council as the final authority on the accuracy of a translation.

Oral Work

16. The details of this policy apply to written internally assessed work and to examinations. When oral work is assessable, the same principles should apply; however, practicalities may necessitate more restricted policy details, such as a requirement on the candidate to give longer notice or a limitation on the use of Māori where oral work involves interaction with other candidates.

6. Unless special arrangements are agreed by the Director of Finance, the following penalties apply in addition to the cancellation of the student's enrolment while a debt remains outstanding:

Student Complaints Procedures

Preamble

Consistent with its commitment to excellence, the University has adopted these procedures to assist both students and staff in the resolution of student concerns and complaints constructively, quickly and fairly.

Where minor concerns arise, students are encouraged to take a common-sense approach and raise them directly with the relevant staff, paper convenor or Dean or Head of School or equivalent with the aim of resolving them at the lowest possible level and without undue formality. However, where informal discussions have not yielded a satisfactory resolution, or where the matter is more serious, the following procedures provide for a more formal process to be pursued.

Complaints considered through these procedures will be monitored and reviewed to enable the University to continually improve processes and services in support of student learning.

Student and staff rights and responsibilities in relation to these procedures are set out in the appendix.

Procedures

1. Definitions

In these procedures

complaint means a written statement submitted by a student about a matter that requires formal consideration by the University under the terms set out in these procedures

natural justice means the right to have a decision made by an unbiased decision-maker who observes fair and impartial procedures.

student means a person enrolled at the University of Waikato.

2. Application and scope

- (1) Subject to subsection (2), these procedures apply to complaints about any aspect of the teaching and learning process and the broad provision made by the University to support that process.
- (2) These procedures may not be used
 - (a) where the complaint can be dealt with under the [Higher Degree Appeals and Complaints Regulations](#), [Student Discipline Regulations](#) or the [Assessment Regulations](#) , or
 - (b) to challenge the academic judgement of examiners.
- (3) Depending on the nature of the complaint, these procedures should be read in conjunction with the [Staff Code of Conduct](#), the [Code of Student Conduct](#), and the [Education \(Pastoral Care of Tertiary and International Learners\) Code of Practice 2021](#) .
- (4) No action will be taken on complaints that are anonymous, frivolous, vexatious or not made in good faith.
- (5) A complainant must be able to demonstrate that the complaint is brought without malice and is based on evidence that the complainant honestly and reasonably believes to be substantially true. Those responsible for resolving complaints under these procedures must take all reasonable steps to ensure that the complainant is protected against any subsequent recrimination or victimisation.
- (6) Students and staff involved in the consideration of complaints have various rights and responsibilities, which are outlined in the appendix to these procedures.

3. Informal resolution of concerns

- (1) Before making formal written complaints, students are encouraged to seek a resolution to any concerns by raising and discussing them informally with the relevant staff member who is most directly associated with the matter.
- (2) A staff member with whom a concern is raised by a student is expected to deal with the matter in an open and professional manner and to take reasonable and prompt action to try to resolve it informally.
- (3) A student who is uncertain about how to seek informal resolution of a concern is encouraged to seek advice from the [Waikato Students' Union Student Support and Advocacy Service](#).

4. Formal complaints procedures

- (1) Where it has not been possible to resolve a concern informally, a student may make a formal complaint.
- (2) A student who wishes to make a formal complaint must submit it in writing, accompanied by evidence, through [My Waikato](#) addressed to the Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent responsible for the area in which the action or matter that has given rise to the complaint occurred or, if requested to be considered under the Tikanga Māori procedure set out under section 5 of these procedures, to the Deputy Vice-Chancellor

Māori; if the complaint is about a Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent, it must be submitted to the Senior Deputy Vice-Chancellor.

- (3) The written complaint must be submitted within three months of the occurrence of the action or matter that has given rise to the complaint unless the Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent agrees to receive it beyond this timeframe.
- (4) The Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent who receives a student complaint must acknowledge it in writing as soon as practicable (normally within three working days). They must create and maintain a file of all documentation in relation to the consideration of the complaint.
- (5) The Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent must consider the complaint in accordance with the principles of natural justice and must ensure that all parties to the complaint are accorded the full benefit of those principles.
- (6) The process of consideration may include meetings with relevant staff, students and the complainant. Where meetings are held, the parties may, if they wish, be accompanied by a support person.
- (7) The Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent may refer a matter to the Police if they believe that a crime has been committed and may suspend consideration of a complaint until such time as any associated Police matter has been concluded.

5. **Tikanga Māori**

- (1) The spirit of tikanga is to seek resolutions to complaints in a Māori way that encourages a facilitated open exchange of views in order to achieve a resolution that is agreed by all the parties involved.
- (2) A complaint may only be addressed through the Tikanga Māori process if
 - (a) the complainant, and
 - (b) the person answering the complaint, and
 - (c) the Deputy Vice-Chancellor Māoriagree to the arrangements determined under subsection (3).
- (3) The Deputy Vice-Chancellor Māori is responsible for determining the arrangements for the Tikanga Māori process after discussion with the parties and for informing the parties of the nature and implications of the process.
- (4) If, at any time after having agreed to the arrangements determined under subsection (3) the complainant or the person answering the complaint wish to withdraw from the Tikanga Māori process, they may do so only with the agreement of all other parties listed under subsection (2); in such cases, the complaint will be referred to the Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent responsible for the area in which the action or matter that

has given rise to the complaint occurred; if the complaint is about a Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent it will be referred to the Senior Deputy Vice-Chancellor.

- (5) Under the Tikanga Māori process a resolution is negotiated by the complainant and the person answering the complaint.
- (6) The process is facilitated by the Deputy Vice-Chancellor Māori, assisted by a tikanga panel appointed by the Deputy Vice-Chancellor Māori.
- (7) A resolution negotiated by the complainant and the person answering the complaint is final; there is no right of appeal.
- (8) Section 6, subsections (1) and (2) and section 7 of these procedures do not apply to complaints addressed under the Tikanga Māori process.

6. Resolution of complaints

- (1) The Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent must make a decision in relation to the complaint and notify their decision to the parties, in writing, as soon as practicable (normally within 28 days of receiving the complaint).

- (2) If the original complaint was addressed to the Senior Deputy Vice-Chancellor under section 4(2) of these procedures, any appeal of that decision must be made to the Vice-Chancellor. That appeal will be considered and decided by the Vice-Chancellor or their nominee in accordance with appeal processes consistent with these procedures.
- (3) An appeal may only be made on one or more of the following grounds:

- (a) that the process used for addressing the complaint was unfair
 - (b) that the decision reached was manifestly at odds with the evidence
 - (c) that the remedy imposed was manifestly at odds with the misconduct
 - (d) that significant new evidence has become available that could not reasonably have been obtained and presented during the initial process that could have had a material effect on the outcome.
- (4) The appeal must be submitted in writing within 28 days of the date of the letter notifying the decision.
 - (5) The Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee will consider the relevant documentation and evidence and may, at their discretion, consult the Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent who made the decision. The Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee may also interview any parties to the complaint.
 - (6) If they determine that the complaint process has been conducted in accordance with these procedures and the outcome is appropriate, the Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee may dismiss the appeal. Subject to subsections (8) and (9), the decision of the Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee under this section is final.
 - (7) The Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee will notify their appeal decision in writing to the parties as soon as practicable.

Personal Programmes of Study Regulations

These regulations apply to candidates beginning their studies in 2022. Candidates who first enrolled in a qualification prior to 2022 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. Candidates who are resuming their studies for a qualification after an extended absence are advised to consult the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies concerned at the time of re-enrolment regarding the requirements for completion. However, where there have been significant changes in the structure of a qualification or content of the major or specified programme during the candidate's absence, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may prescribe a specific programme of study which will be deemed to satisfy the requirements for completion of the qualification.

1. Title

These are the Personal Programmes of Study Regulations 2012.

2. Date of effect

These regulations are effective from 1 January 2013.

3. Delegation of powers

The powers and authority of the Academic Board referred to in these regulations have been delegated in certain matters under the [Delegation of Powers Statute 2014](#).

4. Definitions

In these regulations

paper means a segment of work in a particular subject and is identified by means of a unique code number. Papers are delivered through lectures, tutorials, practicals and such other coursework as may be required by the department concerned

programme of study means the selection of papers taken by a candidate in any one academic year for a particular qualification

equivalent papers are in effect the same papers, one of which was taught in the past with a different paper code

restricted papers share a significant amount of common content. Candidates may therefore receive credit for only one of the papers listed. Restricted papers may not necessarily be used to satisfy prerequisite or corequisite requirements

a **prerequisite** must be passed before a candidate may enrol in the paper for which the prerequisite is specified. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies in which the other paper is offered approves otherwise)

a **corequisite** must be taken either prior to or concurrently with the paper for which the corequisite is specified

internal assessment means all or some of the following: essays, assignments and reports of various kinds, practical work, work in tutorials and/or seminars and tests

a **field** means a general area of academic study that includes a number of related subjects

a **subject** is a grouping of papers with a common academic theme, defined in terms of the listings under individual subject headings in the University of Waikato [Catalogue of Papers](#). A department may offer more than one subject

a **major** means a principal area of study a candidate has chosen for a bachelors degree and is selected from those listed in the relevant degree regulations. A candidate is required to take a defined and substantial number of papers in the major at a range of levels up to and including 300 or 400 level

a **minor** means an additional subject to the major and is a requirement of some bachelors degrees

a **supporting subject** means an additional subject to the major, usually of at least 60 points in a single minor subject

a **specialisation** means a recognised pathway within a qualification or major which provides an area of focus within the qualification or major

points is the term used to express the student workload of a paper or programme. A normal full-time academic year comprises 120 points or 1.0 EFTS (Equivalent Full-time Student)

5. Application

These regulations apply to undergraduate certificates, undergraduate diplomas, bachelors degrees, bachelors with honours degrees, graduate certificates, graduate diplomas, postgraduate certificates, postgraduate diplomas, masters degrees and individual paper credits.

6. Admission and re-entry

(1) In order to be eligible to be enrolled at the University of Waikato, candidates must meet the

requirements of Section 255 of the Education and Training Act 2020.

- (2) The criteria for admission to the University of Waikato in a given year are determined by the Council and are set out in the [Admission Statute 2016](#).
- (3) The criteria for admission to a particular qualification in a given year are determined by the Academic Board and are set out in the [Criteria for Admission to Particular Qualifications](#) and the qualification regulations.
- (4) To ensure that a candidate is adequately prepared for a graduate qualification, the Academic Board will require relevant papers in the relevant subject or subjects of the qualifying bachelors degree to have been passed at grades which it deems appropriate.
- (5) Candidates are usually required to have majored in their bachelors degree in the main subject to be presented for a graduate degree. This requirement may be waived in cases where no more than one or two papers in a given subject are proposed to be incorporated into the candidate's graduate degree.
- (6) In exceptional circumstances, based on academic merit, candidates who have no more than 30 points left to complete the requirements of a qualifying degree may be permitted to enrol in a graduate degree, provided that they have completed all of the requirements of the major or main subject of the qualifying degree. The graduate degree will not be deemed to have been completed until the qualifying degree has also been completed.
- (7) The Academic Board may approve limitations on enrolment for programmes or papers due to insufficiency of staffing or resources. Limitations and the criteria for selection are published in the [Limitations Statute](#).
- (8) A candidate who has been awarded a particular qualification in one major or subject may only be re-admitted to the same qualification in another major or subject.
- (9) The criteria for re-entry for returning students are determined by the Academic Board and are set out in Part 3 of the [Criteria for Admission to Particular Qualifications](#).
- (10) In addition, the Academic Board may decline to re-enrol a candidate whose progress during the preceding year or years has not been to the satisfaction of the Academic Board.

7. Enrolment in a programme of study

- (1) The Academic Board may prescribe qualifying or additional papers which must be passed by a candidate either prior to, or concurrently with, the minimum requirements for a qualification. Qualifying or additional papers may be required if the candidate is considered by the Academic Board to be inadequately prepared in a core subject area.
- (2) Enrolment in a programme of study or paper is subject to the approval of the Academic Board. Such approval will be determined on the basis of the candidate's academic background as well as staffing and resources.
- (3) The personal programme of study of every candidate is subject to the approval of the Academic Board.
- (4) The papers for qualifications and their prescriptions are defined in the University of

Waikato [Catalogue of Papers](#). Before enrolling for a paper, candidates must meet any requirements specified in the relevant prescription unless approved otherwise by the Academic Board.

- (5) Particular regulations governing qualifications may be varied or waived by approval of the Academic Board.

8. **Maximum student workload**

- (1) The normal maximum full-time student workload for an academic year (excluding C trimester) is 120 points.
- (2) For the purposes of calculating workload, a paper that runs for the duration of two full trimesters has a workload equivalent to half of its points value during each of the trimesters in which it is taught.
- (3) The normal maximum full-time student workload for C trimester is 45 points.
- (4) Approval of the Academic Board is required for a candidate to enrol in a programme of study which has a workload equivalent to more than the normal maximum full-time workload.

9. **Completion of a qualification**

- (1) The minimum requirements for the completion of a qualification are defined in the relevant regulations.
- (2) With the approval of the Academic Board, a candidate may be permitted to complete the requirements of a qualification in less than the minimum period of enrolment prescribed in the relevant regulations. Approval will depend on the candidate's academic record and on the availability of suitable teaching and supervision arrangements.

10. **Eligibility for Honours or Distinction**

In order to qualify for Honours or Distinction in a particular qualification, a candidate may be required to complete the requirements within a prescribed time period of first enrolling for the qualification.

11. **Dissertations and theses**

- (1) The [Dissertations and Theses Regulations 2020](#) governing the presentation of dissertations and theses apply in these regulations and any dissertation or thesis required for a graduate qualification must be presented in accordance with these regulations.
- (2) Enrolment in a dissertation or thesis, or a qualification which requires the completion of a dissertation or thesis, is subject to the availability of a suitable supervisor for the dissertation or thesis.
- (3) For dissertations and theses, one or more supervisors will be appointed by the Academic Board. If the chief supervisor is also an examiner of the dissertation or thesis, at least one other examiner (who is not also a supervisor) will be appointed.
- (4) A dissertation or thesis must embody the results obtained by the candidate in an investigation

relating to some branch of the subject or subjects being presented, or, with the approval of the Academic Board, shall take some other form proposed by the candidate's supervisors and approved by the relevant Head of School or Dean concerned. The chief supervisor or sole supervisor will be required to certify that the dissertation or thesis embodies the candidate's own work carried out under the supervisor's direct supervision.

- (5) Dissertations and theses are assessed in terms of the points value they represent.

12. **Date for submission of dissertations, theses and research reports**

- (1) The deadline for the submission of any dissertation or research report will be 4.00pm on the last working day of the paper occurrence which completes the candidate's enrolment in the total points required for the dissertation or research report.
- (2) The deadline for the submission of any thesis will be 11.59pm on the last day of the paper occurrence which completes the candidate's enrolment in the total points required for the thesis.
- (3) Candidates who expect that they will not submit their dissertation, thesis or research report by the due date may apply to the relevant Head of School or Dean or delegated authority for an extension of time without the requirement for re-enrolment, provided that the application for an extension is lodged prior to the deadline for submission.
- (4) Extensions will not normally be awarded for periods of more than 21 days beyond the relevant due date.
- (5) Candidates who do not submit their dissertation, thesis or research report by the due date, and who have not applied for and been awarded an extension, will be required to re-enrol for a minimum period to be determined by the relevant Head of School or Dean or delegated authority and will be liable for a further payment of tuition and any other fees and charges for the period of re-enrolment.

13. **Resubmission of dissertations and theses**

- (1) A dissertation or thesis for a graduate qualification that receives a narrow fail may be returned to the candidate with the offer of an opportunity to revise and re-submit. The decision to offer such an opportunity is at the discretion of the relevant Head of School or Dean and is based on a number of factors, including the likelihood that the revision will be successful, and the availability of suitable supervisors and examiners.
- (2) An offer by a Head of School or Dean under subsection 13(1) of these regulations will be in writing, and any conditions attached to the offer will be explicit. The period allowed for the revision will be no more than the equivalent of one trimester and the deadline for submission will be prescribed. If the offer to revise and submit is accepted, the candidate will be eligible to receive a maximum grade of C and, in the case of a masters degree, will not be eligible for the award of Honours.
- (3) A candidate's acceptance of an offer to revise and re-submit and associated conditions must be in writing. The candidate must then re-enrol for the equivalent of one trimester and pay fees accordingly. For administrative and fees purposes, the candidate will enrol for the

particular enrolment period in which the deadline for re-submission falls.

- (4) A 'provisional fail' is recorded against the first dissertation or thesis enrolment for the period of revision. The 'provisional fail' grade is replaced by a final grade (either a fail grade or a C grade, depending on the outcome), after the revision and re-examination processes are concluded.
- (5) The opportunity to revise and re-submit a particular dissertation or thesis may be offered to a candidate only once.

14. **Credit - transfer credit and cross credit**

- (1) **Transfer credit** means credit towards a University of Waikato qualification for papers passed at another tertiary institution.
- (2) **Cross credit** means credit towards a University of Waikato qualification for papers passed towards another University of Waikato qualification.
- (3) A candidate who has passed papers at an appropriate level at the University of Waikato or another tertiary institution may apply for credit in respect of those papers towards a University of Waikato qualification.
- (4) Applications for credit must be submitted on the online qualification application, together with the prescribed fee.
- (5) Applications for credit from another institution must be accompanied by a verified copy of an academic record. If the original document is not in English, the academic record must be accompanied by an official English translation of the record. The University reserves the right to request an original copy of an academic record.
- (6) The policy on the level and amount of credit which may be awarded from a completed qualification is determined by the Academic Board and is set out below:
 - (a) Credit from a completed qualification is normally only available towards a bachelors degree.
 - (b) Credit is not normally awarded from a completed graduate or postgraduate qualification.
 - (c) Credit from a completed qualification will normally be limited to no more than one third of the completed qualification.
 - (d) Credit towards a University of Waikato bachelors degree from a completed qualification will normally be limited to no more than one third of the University of Waikato degree. For the purposes of this regulation, one third of a bachelors degree is considered to be 120 points at 100 and 200 levels, including a maximum of 60 points at 200 level. Where appropriate, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may, at their discretion, permit 20 further points at 100 or 200 level to be credited towards a four-year bachelors degree where the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies deems a paper to be relevant to the candidate's programme of study.
 - (e) Credit will not normally be awarded for 300 or 400 level papers required for a major in an

undergraduate degree.

- (f) No paper may count towards more than two qualifications.
 - (7) The decision to award credit in individual cases will be made by the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies.
 - (8) In making decisions on credit, the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies will consider the relevance and level of the papers completed, the regulations of the University of Waikato qualification concerned, and the credit guidelines maintained by the Student Services.
 - (9) Regardless of the total number of papers which an applicant has passed at other institutions, the total credit awarded will not be more than half of the total requirement of the University of Waikato qualification concerned, unless this is approved under subsections 14(10) or 14(11) of these regulations.
 - (10) In individual cases, the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies or delegated authority may vary subsection 14(9) of these regulations and award credit for up to two thirds of the University of Waikato qualification concerned.
 - (11) In individual cases, the Education Committee, under delegated authority of the Academic Board, may award credit for more than two thirds of a University of Waikato qualification, or for more than half of an undergraduate degree that includes 300 and/or 400 level papers for a major.
 - (12) Applicants wishing to appeal a Pro Vice-Chancellor's or the Dean of the Faculty of Māori and Indigenous Studies decision on credit may apply to the Director of Student Services.
 - (13) The consideration of an appeal will involve the Pro Vice-Chancellor or the Dean of the Faculty of Māori and Indigenous Studies concerned being requested to reconsider the decision. Further appeals against the outcome of a reconsideration will be referred to the Education Committee for consideration on behalf of the Academic Board.
15. **Completion of a University of Waikato qualification at another New Zealand university**
A candidate who, based on the assessment of the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies, has completed the major part of a qualification at the University of Waikato and then moved to another district may, in some cases, complete the University of Waikato qualification by taking the remaining papers at another university in New Zealand. Prior approval of the specific papers, in writing, must be obtained from the Director of Student Services of this University and the prescribed charge paid. The candidate must advise the Registrar of the other university of the purpose of the enrolment and the papers concerned must be taken on a Certificate of Proficiency (COP) basis at that university. The candidate's academic record will not be transferred.
16. **Completion of a qualification of another New Zealand university at the University of**

Waikato

A candidate who has completed the major part of a qualification at another New Zealand university may, in some cases, be permitted by that university to complete the qualification by passing specified papers at the University of Waikato. Any such approval must be given in writing by the 'home' university and the candidate will take the papers concerned on an Individual Paper Credit (IPC) basis at the University of Waikato. The candidate's academic record will not be transferred.

The University of Waikato

Te Whare Wānanga o Waikato is committed to academic quality, research excellence and innovative teaching programmes. It prides itself on maintaining internationally relevant, globally significant research and degree programmes while remaining very much a university that keeps the needs of the Waikato and Bay of Plenty the regions at the forefront.

The University of Waikato is distinct from other universities because the Hamilton campus is located on land returned to Waikato-Tainui following the tribe's 1995 settlement with the government. The Tauranga campus, which was opened in early 2019, is situated on Ngāi Tamarāwaho land. This distinctiveness is underpinned by the University's commitment to working in partnership with Waikato-Tainui and the iwi of Tauranga Moana specifically and through the Treaty of Waitangi to all iwi.

Vice-Chancellor Professor Neil Quigley is leading the University through a new phase of development. This includes strengthening programmes to meet national and international skills shortages, addressing global issues, such as water quality, indigenous studies and cyber security, and enhancing teaching and research quality in health and high performance sport.

Research is a key focus for the University. Students are taught in research-intensive environments by experienced lecturers, and much importance is placed on fostering an active research community and producing critical-thinking, future-focused graduates who are globally aware.

The University is the tertiary partner of the Avantidrome in Cambridge and the Adams Centre for High Performance in Mount Maunganui. Staff and postgraduate students based in these facilities work closely with High Performance athletes and the community, to enhance their performance.

The University campus in Tauranga works with tertiary partners in the Bay of Plenty region, Toi Ohomai Institute of Technology and Te Whare Wānanga o Awanuiārangi, to deliver study

programmes and research activity that provide students with pathways to lifelong learning. Tauranga is also home to the University's Coastal Marine Field Station where staff and students undertake research to enhance water quality, increase kaimoana stocks, and improve the environmental impacts on marine life.

The University of Waikato stands proudly on the world stage as an institution providing a future-focused internationally-relevant education and plays an active part in global research. The latest Quacquarelli Symonds (QS) World University Rankings place Waikato 250th and among the top 20% of institutions ranked by QS, with ten subjects ranked in the top 300. In the Times Higher Education (THE) World University Rankings, Waikato sits in the 401-500 band, =4th in New Zealand.

The University also ranks highly for student satisfaction. The International Student Barometer survey showed more than 90% of international students surveyed who studied at the University of Waikato were satisfied with their experience and over 80% would recommend the University of Waikato to others. International students were particularly satisfied with the University's response to Covid-19, with over 90% of students rating this positively.

Part of the University's success is due to the high priority it places on student pastoral care. The development and wellbeing of every student is an important dimension of the institution's uniqueness. Staff have a strong reputation for excellence and take an innovative approach to student support. Staff have a track-record of effectiveness for supporting students as they transition to university study.

While the University of Waikato has renowned strength in the teaching and research of te reo Māori and tikanga Māori, its Māori teaching and research expertise can also be found across the various disciplines including Māori psychology, business, education, law, social sciences, science and computer science.

The Māori student communities on campus are vibrant and are key contributors to campus events, and there are many University programmes and activities dedicated to supporting Māori student achievement and success.

Over the past few years, the University implemented a new curriculum, which was reviewed and revitalised to ensure teaching continues to be relevant to student, employer and societal needs. As a result, work-integrated learning programmes and compulsory work experience are now included in all undergraduate degrees.

Helping to support students making the transition to university-level study is the University's Study Advising programme which is designed to help new students over their first year of undergraduate study. Every first year student is automatically allocated a dedicated staff member – a Study Advisor. Most Study Advisor's will be from the student's main area of study, but all have roles aimed at helping students to succeed in their study goals.

The University of Waikato is dedicated to supporting student success. Along with the Study Advising Programme, we have a variety of pastoral services, that are available to students to help them achieve their educational goals.

Students will be introduced to an adult learning environment including lectures, tutorials and workshops. The Certificate of University Preparation is an academically approved qualification that covers academic skills and capabilities, and introduces students to their discipline subjects through elective papers.

For more information, see [University of Waikato College](#).

International Diploma (Business) and International Diploma (Computer Science)

The International Diplomas provide pathways for international students into the second year of some degrees. The International Diploma (Business) consists of the first year of the Bachelor of Business, with additional supporting papers in academic English and academic study skills. The International Diploma (Computer Science) provides a similar preparation that leads to the Bachelor of Science in two computing majors or the Bachelor of Computer Science.

For more information, see [University of Waikato College](#).

This pre-masters programme prepares international students for postgraduate studies at the University of Waikato, providing entry into several masters programmes in the Waikato Management School, the Division of Arts, Law, Psychology and Social Sciences, and the Division of Health, Engineering, Computing and Science.

For more information, see [University of Waikato College](#).

The University's Commitment to the Treaty of Waitangi

The direction and goals which underpin the University's commitment to Māori and the Treaty of Waitangi are outlined in the University's Treaty of Waitangi Statement Strategy and Te Ruataki Māori Advancement Plan. The general areas of priority include:

- building on the University's reputation for making a unique and significant contribution to the educational success of Māori;
- enhancing the teaching and research capacity of Māori academic staff, with a focus on leadership and academic excellence;
- providing a distinctive University of Waikato experience for both staff and students which draws on kaupapa Māori and the heritage of our region;
- positioning the University as a leader in research relevant to the needs and aspirations of iwi and Māori communities.

As reflected in our Charter and Vision, the University has been committed to the Treaty of Waitangi from the outset. We are determined to build on this commitment and on our reputation as a leader in partnership with Māori - to further enhance the relevance and value of the University to Māori communities and to the nation as a whole.

International Students

The following information is a general guide for international students wishing to enrol at the University of Waikato. Further information is available on the website: www.waikato.ac.nz/study/international/.

Email: international@waikato.ac.nz .

Admission

All students are required to meet the entry requirements for admission, as set out in the [Admission Statute 2016](#). Applicants whose first language is not English or Māori are also required to provide satisfactory evidence of English language proficiency, as set out in the [English Language Requirements for Admission](#). Scores can vary according to the qualification sought.

International students apply for admission online at www.waikato.ac.nz/study/apply

Permanent residents of Australia and New Zealand, Australian citizens, and students from the Cook Islands, Tokelau or Niue who are New Zealand citizens, are treated as New Zealand students and do not need to apply for admission as international students.

Please note that to be eligible for domestic tuition fees, permanent residents and citizens of Australia must be living in New Zealand for the duration of the study. Domestic tuition fees information is available at www.waikato.ac.nz/study/costs/tuition-costs-domestic.

All international students enrolling in an undergraduate programme must hold as a minimum requirement, an equivalent university entrance qualification as set out online at www.waikato.ac.nz/study/enrolment/undergraduate-international.

Many of the degrees offered at the University of Waikato have prerequisites on their core papers. Applicants who have not achieved specified prerequisites through their study will be required to take additional papers or foundation courses in order to satisfy these prerequisites. Applicants in this

situation are advised that not all papers may count towards the completion of the degree and that the programme may take an additional period of time.

Code of Practice

The University of Waikato has agreed to observe and be bound by the *Education (Pastoral Care of Tertiary and International Learners) Code of Practice 2021*. Copies of the Code are available from the New Zealand Qualifications Authority website <https://www.nzqa.govt.nz/providers-partners/tertiary-and-international-learners-code/>.

Students should refer to the Code of Practice for their specified responsibilities and to the International Student Handbook or this Calendar for University procedures and recommendations.

Tuition Fees and Charges

1. International students are required to pay full cost tuition fees. Students should refer to the [Table of Fees and Charges](#) for other fees and charges that may be applicable.
2. New international PhD students may be eligible for domestic fees for their studies. Conditions apply. For more information, see the [Higher Research Degrees](#) website.

New Zealand Immigration Requirements

1. All international students must hold a valid student visa for the duration of their studies. A visitor visa is only valid for courses lasting less than three months in total. Further information regarding the various requirements of Immigration New Zealand (INZ) can be obtained from the Immigration New Zealand website, or the nearest New Zealand High Commission or Embassy.
2. An offer of place at the University of Waikato does not guarantee that the student will be issued with a student visa.
3. International students are required to obtain a student visa before travelling to New Zealand. Students must provide evidence to show they can have enough money to support themselves while they study in New Zealand. The source of fund is considered stable and there are no unexplained lump sum deposits. For more information please see [here](#).
4. The University is required to report to INZ those students who are not fulfilling the requirements of their student visa, which includes completing compulsory course components and passing papers.
5. Full details of immigration requirements, advice on rights to employment in New Zealand while studying, and reporting requirements are available from INZ, and can be viewed on their [website](#).

Pre-paid Tuition Fees Policy

1. As indicated above, international students are required to obtain their student visa and pay their tuition fees before enrolment can be completed. These funds are held against the student's name until they complete their enrolment in person. This policy details the process for refunding these funds if (i) the student travels to New Zealand and does not complete their enrolment, or (ii)

- completes the first trimester of study and does not enrol in the second trimester of study and they have a student visa valid for one year, with the exception of students enrolling in B trimester then A trimester.
2. All students must apply in writing for a refund of their pre-paid tuition fees to the Director of Student Systems and Administration.
 3. Students are required to supply a verified copy of their passport and student visa, and a copy of their University of Waikato receipt(s) with their application for a refund.
 4. The University of Waikato will notify INZ that the student has not fulfilled the obligations of their visa by completing their enrolment at the University of Waikato.
 5. Where a student wishes to attend another institution in New Zealand, the University of Waikato will transfer the pre-paid tuition fees to that institution, upon written confirmation from that institution of the student's intention to study. This should be in the form of a formal letter of offer or invoice which confirms the student's acceptance into a qualification. If the student has already paid their tuition fees at the other institution, the University of Waikato will refund the pre-paid tuition fees to the student, upon written confirmation from the other institution that the fees have been paid. It is the student's responsibility to provide the necessary documentation from the other institution.
 6. Where a student will be returning to their home country, the funds will be refunded in one of two ways:
 - (a) an overseas bank draft sent to the overseas address provided by the student
 - (b) if it is known that the pre-paid tuition fees have been paid by a third party, the refund may be paid back to that third party.
 7. Where a student is wishing to remain in New Zealand without enrolling at an educational institution, the University of Waikato will refund these funds either:
 - (a) upon evidence of a valid INZ visa to remain in New Zealand, or
 - (b) confirmation that INZ has discharged the University of Waikato's duty under the original student visa.
 8. If a programme of study is cancelled by the University of Waikato, a full refund of pre-paid tuition fees will be made to the student by bank draft.

International Students Refund Administration Charge

International students who withdraw their application or their enrolment before the start date of their programme will receive a 100 percent refund of pre-paid tuition fees less a \$500 Administration Fee. Students who withdraw their application or their enrolment after the start date of their programme but during the period for deletion of papers (refer to Clause 12 of the [Change of Enrolment Regulations 2012](#), will receive a 100 percent refund of pre-paid tuition fees less a \$2,000 Administration Fee.

Compulsory Medical and Travel Insurance

International students (including group students) must have appropriate and current medical and travel insurance while studying in New Zealand, as stated in the *Education (Pastoral Care of Tertiary and International Learners) Code of Practice 2021*. Under the Immigration New Zealand policy, this must be at least for the duration of your student visa. Enrolment is dependent on proof of appropriate insurance. To simplify the process of selecting insurance, the University has selected Studentsafe-University (underwritten by Allianz New Zealand) as the preferred insurance policy for all international students. The Studentsafe-University insurance premium will be added to tuition fees at the time of enrolment, resulting in international students being automatically enrolled in the Studentsafe-University insurance scheme. This premium will not be charged if evidence of an alternative compliant insurance policy is provided to the University before the specified deadline (please note there are only a small number of approved alternative compliant policies). For further information please refer to the website <https://www.waikato.ac.nz/study/international>.

Eligibility for Health Services

Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on the website <https://www.health.govt.nz>. The Accident Compensation Corporation provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website www.acc.co.nz.

New Zealand Government Scholarships

The New Zealand Aid Programme (NZAP) is the New Zealand Government's International Aid and Development Programme managed by the Ministry of Foreign Affairs and Trade. Education is vital to the New Zealand Aid Programme's mission of supporting sustainable development in order to reduce poverty and contribute to a more secure, equitable and prosperous world. Scholarships are available to citizens from selected developing countries to undertake vocational training or tertiary level study in their home country, in New Zealand, or in the Pacific region. These scholarships enhance the skills, training and knowledge of individuals, and build their capacity to contribute to the sustainable development of key areas in their home country. The eligibility criteria and application process can be found on: <https://www.mfat.govt.nz/en/aid-and-development/new-zealand-government-scholarships/>.

Strategic Alliances, International Partnerships and Agreements

The University is a forward-looking, innovative institution that welcomes strategic alliances, international partnerships, and agreements. Consideration is given to international institutions that match the University of Waikato profile in terms of reputation, academic standing, and research output.

All proposals for university to university linkages should be discussed in the first instance with the International Office. Proposals for guaranteed credit agreements need submission of full

documentation to the International Office which will refer them to the appropriate academic authority for approval. Partnership proposals are welcome and will be explored on a case-by-case basis.

Memorandums of Understanding should also be submitted as proposals to the International Office, which will refer them to the appropriate authority.

Overseas visitors are welcome. Prospective visitors should contact the International Office with full background information about their proposed visit. The International Office will assist in arranging an itinerary which meets both the visitors' and the University of Waikato's needs.

Please contact the International Office.

Specialisations

Specialisations provide you with another opportunity to shape your qualification to your interests and needs. They can be used to broaden your knowledge, allow you to focus on an aspect related to your first major, or perhaps provide some cohesion to your elective papers in an area of interest to you.

Specialisations meet all of the requirements for a qualification but provide for further specialisation in or beyond the major (bachelors degree) or subject (honours or masters degree, graduate certificate, graduate diploma, postgraduate certificate, or postgraduate diploma).

For more information and advice on how a specialisation might fit into your programme of study, talk to a Student Advisor in your Division or the Faculty of Māori and Indigenous Studies.

Specialisations at degree level

Specialisations at degree level allow students to include complementary study within their overall programme of study. Specialisations available at degree level are:

- Advanced Pedagogy BEd
- Technology BEd

Specialisations at major or subject level

Specialisations at major or subject level allow students to focus in depth on a particular aspect of that subject. For example, within the International Languages and Cultures major, specialisations in Chinese, French, Japanese and Spanish are available.

At postgraduate level, for example within the Education subject for the Postgraduate Diploma, a specialisation in Māori Medium Teaching/Te Ropu Paerua are available.

Specialisations available at major or subject level are listed under the subject entries in the [University](#)

Enrolment for Individual Paper Credit (IPC)

Students may be permitted to enrol in a paper without enrolling for a particular qualification. This may be because they have no intention of completing a full qualification, or because the paper is being taken for the purposes of qualifying for admission to a specific qualification. Alternatively, the student may be taking the paper for credit towards a qualification at another institution. Enrolments of this nature are recorded as Individual Paper Credit (IPC) enrolments.

Regulations Governing Enrolment for Individual Paper Credit (IPC)

1. A candidate who enrolls on an IPC basis is liable for all fees and charges prescribed for the paper(s) and must meet any requirements specified in the prescription and paper outline.
2. Enrolment on an IPC basis is subject to the approval of the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies in which the paper is offered.
3. A candidate who has passed a paper taken on an IPC basis may, at a later date, apply to have the paper credited to a University of Waikato qualification. Approval will be based on the regulations for the qualification concerned.
4. A student enrolled on an IPC basis is subject to all general regulations of the University of Waikato.
5. A candidate who completes a paper on an IPC basis will receive official notification of their final results from the University of Waikato, and will be eligible to apply for an academic transcript.

Prescriptions for Papers

The following page contains a brief introduction to the subjects and papers offered by the University. Subjects are set out in alphabetical order. A brief description may be given of the content of each paper as well as equivalents and restrictions, prerequisites and corequisites, required book information, and the internal assessment/examination ratio. Students also receive a paper outline when classes start, which provides more detail about the content, reading and assessment requirements for each paper.

In addition to the papers listed, departments may offer 800 and 900 level papers for MPhil and PhD students. Prospective students are advised to consult with Te Mata Kairangi School of Graduate Research and the Head of School or Dean concerned for more information.

The prescriptions refer to the papers which the University expects to offer. The availability of these papers is subject to change if the University encounters unexpected staffing or resource difficulties. For up-to-date details of 2024 offerings, see the online Catalogue of Papers at papers.waikato.ac.nz.

In all cases where it is necessary to cancel papers, the Policy and Procedure for the Cancellation of Papers will apply, as approved by the Academic Board. Copies are available from the Academic Office.

In the prescriptions, each paper is identified by an alpha-numeric code.

For example:

HISTY107-24A (HAM)

*New Zealand
Histories: Fresh
Perspectives*

HISTY		This is the subject code, in this case History
	107	This is the level of the paper, followed by a unique identifier. 100 = 100 level 200 = 200 level 300 = 300 level 500 = 500 level
	24A	This is the year and trimester in which the paper is taught.
	(HAM)	This is the location where the paper is taught.

A **prerequisite** must be passed before a student may enrol in the paper for which the prerequisite is specified. For example, JAPAN231 *Basic Japanese 1* is a prerequisite for JAPAN232 *Basic Japanese 2*. Students may not enrol in JAPAN232 until they have passed JAPAN231. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies in which the other paper is offered approves otherwise).

A **corequisite** must be taken in association with the paper for which the corequisite is specified. For example ENGEE231 *Electrical Circuits* is a corequisite with ENGEN201 *Engineering Maths and Modelling 2*. You may enrol in ENGEE231 only if you have either already passed ENGEN201 or are concurrently enrolled in it.

Equivalent papers are in effect the same papers, one of which was taught in the past with a different paper code. For example ACCT331 *Management Accounting* is equivalent to ACCTN303 *Management Accounting*. Students who have passed ACCT331 may not enrol in and receive credit for ACCTN303.

Restricted papers share a significant amount of common content. Students may therefore receive credit for only one of the papers listed. For example DIGIB200 *Tools for Managing Projects* has a restriction with PRMGT301 *Fundamentals of Project Management*. Restricted papers may not be used to satisfy prerequisite or corequisite requirements.

The **required books** which may be listed under some of the prescriptions are a conservative list only. Additional required books may be prescribed during the academic year. Lists of recommended reading are usually included in the paper outline provided by the department concerned.

The **internal assessment/examination weighting** is provided for all papers. The weighting sets out how much of the paper is internally assessed and how much is formally examined, as percentages of the total mark. The weighting 100:0 means a paper is fully internally assessed, while the ratio 50:50 shows that the assessment for the paper is evenly weighted between internal assessment and an examination. Examinations are scheduled in a formal examination period. All A trimester papers which are not fully internally assessed will be examined at mid-year unless otherwise specified. Tests that form part of the internal assessment requirements may be held outside normal lecture hours.

Teaching activities for all undergraduate papers are listed in the Timetable. Teaching activities, including lectures, tutorials, laboratories and workshops, are scheduled to last 50 minutes and begin on the hour until (and including) 12 noon, and at 10 minutes past the hour from 1:10 p.m. This allows a lunch break of 20 minutes from 12:50 p.m. to 1:10 p.m. for students with continuous teaching activity commitments. Normal teaching hours are between 8.00 a.m. and 6.00 p.m.

A **trimester** is a period for which students enrol in papers, attend classes and submit assessment items. The University of Waikato has two standard trimesters (A and B), which each normally comprise 17 weeks. There are also two intensive summer teaching periods - Summer School 1 (H trimester), normally comprising seven weeks in January/February, and Summer School 2 (G trimester), normally comprising six weeks in November/December. The trimester period includes teaching as well as any study weeks and an examination period. The exact duration of trimesters in a particular year is defined by week numbers in the [Teaching and Assessment Periods](#).

2024:	A trimester	weeks 9-25
	B trimester	weeks 28-44
	C trimester	weeks 46-6
	D trimester	weeks 9-44
	G trimester	weeks 46-51
	H trimester	weeks 1-7

Some papers have start and end dates which differ from the standard teaching periods set out above. Papers which extend across both the A and B trimesters are annotated as D papers. Papers which are taught in non-standard periods have a X, I, or J etc. suffix.

The period for which a student is eligible for loans and/or allowances, is calculated on the basis of the exact start and end weeks of papers. Students are advised of the start and end dates of their papers in the relevant paper outlines.

The University Library

Tēnā koutou katoa and welcome to the University of Waikato Library. Our library strives to be inclusive for all. Whether you're on campus or on the other side of the world, we have resources and services to empower you on your academic journey.

In support of the University's ambition to be the first anti-racist institution in Aotearoa, we have six Māori and Pacific focused roles. These awesome colleagues help us to integrate kaupapa and mātauranga Māori in our policies, processes and services.

Our physical spaces

Our Hamilton campus has [Central Library](#) and [Teaching Resources Library](#) and we provide a [distance library service](#) to Tauranga campus.

During our [open hours](#) anyone can enjoy our physical spaces and consult our physical collections. Borrowing physical items and using electronic resources is restricted to [Library members](#) - current staff, students, associates and alumni. After hours access is restricted to current staff and students. In Hamilton, we have a bookable whānau study room for students accompanied by under 14's.

Our 24/7 spaces have a kitchenette, snack machines, computers, individual and group study areas, accessible toilets, showers, and equipment to serve accessibility requirements. Members can borrow Chromebooks, headphones, as well as [audiovisual equipment](#).

Help to find what you need

Whether you contact us online, or in person, you will receive a friendly "kia ora" from one of our friendly staff. Your query may then lead you to one of our specialised library teams.

We can help you navigate the scholarly environment to locate, evaluate and cite resources for study and research. We offer self-paced online workshops and partner with teaching staff to deliver information literacy sessions for a particular class or cohort.

Making research open

We are the first university in Aotearoa to [state our position](#) on making research as open (and freely available to all) as possible (and as closed as necessary) for the benefit of society. We partner with researchers to achieve these goals, and provide advice and support around Open Access, indigenous data sovereignty, research data management, strategic publishing, research profiles, and research impact. Our work supports the University's Open Research Statement and efforts globally to increase the visibility and availability of research.

Our collections

Our online, print and multimedia collections cover all of the disciplines taught at the University. While many of our resources are online, some are available only in print.

- Physical items in the general collection are located on Level 3.
- Level 4 houses the physical items of the [Mātangireia](#) collection with many more items available online. This collection contains contemporary and historical Māori, Pacific, Aotearoa and Indigenous resources and services and is underpinned by kaupapa Māori values. Mātangireia includes iwi histories, Māori Land Court Minute Books, the Michael King Collection, and [Mahi Mareikura](#) – home to the taonga and works of Dr. Pei te Hurinui Jones, expert in Māori language revival and Māori cultural knowledge.
- Complementing Mātangireia is [O Neherā](#), a digital collection of historical materials including images, documents, and firsthand accounts which provide unique local insights into Waikato and Aotearoa. Information about our [physical archival collections](#) is also available.
- Level 4 also holds our physical [Law Library](#) of primary and secondary material designed to support Te Piringa Faculty of Law. This collection has a particular emphasis on New Zealand and other key Commonwealth jurisdictions and provides community access to primary legal resources in physical form.
- Our [Teaching Resources Library](#) is located within the Division of Education with materials to assist students with teaching in primary and secondary schools and early childhood centres. We have picture books, school journals, readers and literature for children and young adults in a variety of languages. All staff and students may use these resources.

Art Collection

The artworks enriching our campuses are from the [University of Waikato Art Collection](#), of which the Library are kaitiaki (custodians). We hold over 600 works of national significance by contemporary Māori, Pacific and New Zealand artists. Our Poutiaki Taonga (Art Curator) works alongside academics and students to create exhibitions for display on campus.

Waikato Students' Union (WSU)

The Waikato Students' Union is the voice of the student body on campus. The organisation is governed by a group of democratically elected students who listen, speak and act passionately on behalf of students, and have done for over 40 years. The WSU provides support services and consultation for students, clubs, and class reps. They create full weekly student experience programmes - from regular barbecues through to O'Week festivities - and provide an unfiltered platform for student voice through the multi-award-winning Nexus magazine.

Student Support

The WSU has a few key ways in which they support students at the University of Waikato:

Student Engagement

The Student Engagement team manages a network of over 85 rōpū, clubs, and societies as part of the WSU's commitment to an active campus. That network features clubs from every aspect of the University environment. Archetypal clubs such as debating and mooting societies are now joined by gaming clubs, cultural societies, casual hiking clubs, and a range of religious groups. If students can't find a club that fits them, the WSU Student Engagement team is always available to guide them through the process of making their own.

Student Advocacy

Whether it's tenancy, academic or hardship issues, the WSU provide a free, confidential, "no judgement" advocacy service to ensure students are aware of their rights, processes, and know that someone will always have their back. With a comprehensive list of support partners, including Community Law Waikato and Hamilton Budgeting Advisory Trust, WSU Student Advocacy ensures you get the best advice from the right people.

Student Voice

When the WSU was founded, it was based on the principle of ensuring the student voice was heard, and nearly 50 years later, that still remains their driving principle. With a 12-member board comprised entirely of students, including an elected President on the University Council, a dedicated Vice-President Māori, and a new Tauranga and Pacific director, the WSU ensures your voice matters. The Student Voice team assist in the training of class reps and provide a support service called Reo Taurira, carrying out regular consultations on campus issues and working proactively with the University to provide student-focused solutions. With the WSU we are here to ensure your voice is heard.

Student Experience

The WSU has always felt that the University experience should be more than just academics. They have a dedicated Student Experience team providing daily activities on campus, managing student spaces, and cooking free food. The last few years have also seen them develop inter-divisional competitions, expand Orientation and Reorientation weeks, as well as develop programmes for wellness and mental health awareness.

NEXUS

At the heart of the student experience is Nexus. A student magazine that provides its readers with an editorial resource to discover and challenge ideas about news, music, politics, arts, technology, and general student life. Nexus strives to encompass and reflect student culture in all its diversity.

They're constantly on the lookout for writers, artists, creatives, and media enthusiasts. If you're keen to get involved, simply email: editor@nexusmag.co.nz.  For more information visit the Ground Floor of the Students' Union Building (SUB) between 9am to 4pm (Monday to Friday), visit the WSU website: wsu.org.nz, or email wsu@wsu.org.nz .

Cyber Security Research Group (CROW)

The Cyber Security Researchers of Waikato (CROW) aims to return control of data to data owners, by focusing on research addressing data security from a user-centric perspective. With the emergence of cloud computing technologies and prevalent mobile device usage, we are witnessing the diminishing effectiveness of traditional cyber security approaches such as perimeter defence, intrusion detection and infrastructure hardening. To address this, CROW focuses on six major themes: Provenance, User-Centricity, Visualisation, Economics, Hardware, and Tools and Datasets. Together, these six themes empower the return of control of data to users, thereby reducing reliance on third-party vendors or trust relationships commonly found in most cyber security contracts today.

Formal Methods Group

Established in 1998, this is the first Formal Methods laboratory in New Zealand. The work that goes on in this lab is based on the view that programming is at the heart of computer science. It is also based on the view that, as engineers and scientists, we should use the machinery of mathematics to model and reason about the systems that we build before we build them. This is in contrast with the view that programs should be written by trial and error (usually at great expense and with a high likelihood of failure, judged by current experience) with our users ironing out our mistakes for us at their expense. To this end, The Group is developing languages and tools for modelling systems, for reasoning about those models and for transforming them into code in a way that is guaranteed to preserve meaning and correctness. The Group does not want to build software that usually works – it wants software that always works, and in the way intended by the requirements.

Most of the computer applications you encounter today are in fact Information Systems, that means, systems that manage, store and deliver information to users. Examples are search engines like Google, ticket booking systems, or online stores. Exciting new kinds of applications that ISDB group looks at are mobile tourist information systems, memory-aid systems and systems that notify you about changes, e.g., in web pages or online shops. The Group's latest projects are context-aware systems that deliver information to their users depending on a user's location, time of the day, task, or mood.

Transport Research Group (TRG)

Transport affects many aspects of everyday life. The multi-disciplinary Transport Research Group at the University of Waikato is interested in how:

- Transport fosters a strong and sustainable economy;
- Transport can be maintained in a way that supports healthy environments;
- Drivers might respond to changes in vehicle technology; and
- Research findings might inform decision-making in government and industry.

The Group explore a wide range of different questions in our studies, such as:

- What are public perceptions of connected and autonomous vehicle technologies?
- What policy issues are barriers to more widespread uptake of electric vehicles?
- What are the differences between the ways engineers and the road-using public understand risk?
- How does infrastructure investment in ports contribute to economic development and welfare?
- How can in-vehicle cyber-security help people to access more of their own information about their mobility?

Waikato Public Law & Policy Research Unit

Te Piringa – Faculty of Law at the University of Waikato has an established tradition of outstanding scholarship in Public Law and Policy as demonstrated by the contributions of the Faculty’s founding Dean, Professor Margaret Wilson, and Professor Sir Grant Hammond. Today a significant number of Faculty members continue to have research interests in these fields focused on the Faculty’s founding principles of professionalism, biculturalism, and the study of law in context. Current work in the Faculty covers a wide range of common law jurisdictions, in addition to New Zealand and Pacific Island states, and extends from constitutional and administrative law and theory to giving effect to the principles of the Treaty of Waitangi and Māori and Indigenous governance. The Public Law & Policy Research Unit promotes the widest conception of Public Law and Policy, encompassing administrative law, charity and the regulation of civil society, constitutional law, criminal law and justice, and international law. It was established to fill a clear gap in the interrogation of these policy research areas in an integrated and holistic way.

Limitations Statute

Limitations on enrolments can be established under:

- section 255(4) of the Education and Training Act 2020 where the Council is satisfied that it is necessary to do so because of insufficiency of staff, accommodation or equipment, or
- section 525(4) of the Education and Training Act 2020 where the Council has established places for foreign students in a programme whose continued availability is dependent on the fees payable by foreign students enrolled in it.

The Council has delegated authority to approve limitations under section 255(4) to the Academic Board.

Schedule of Limitations on Enrolments for 2022

Limitations under Section 255(4) of the Education and Training Act 2020

Ministry-funded enrolments will be limited in a manner that allows the University to meet the Government's expectations with respect to its approved Mix of Provision for the year in question.

Applications from Ministry-funded students who meet the University's published deadlines for applications to enrol, as well as the admission, entry, re-entry and programme approval criteria for the relevant qualifications and papers, will be accepted according to the priority groups listed below until the relevant Mix of Provision target is achieved at the relevant level.

If places are still available after the published deadlines for applications to enrol, Ministry-funded students who have not met those deadlines, but who meet the admission, entry, re-entry and programme approval criteria for the relevant qualifications and papers, will be accepted in order of application up until the relevant targets have been met.

Undergraduate (Bachelors, Undergraduate and Graduate Certificates and Diplomas)

All these groups will be considered in priority order and, within each priority group, on academic merit.

1. Undergraduate returners (enrolled in undergraduate study in the previous year returning to continue an undergraduate qualification).

All these groups will be considered in priority order and, within each priority group, on academic merit.

2. Students who have previously been enrolled at the University of Waikato, commencing taught postgraduate study or returning (after a gap in study) to continue a postgraduate qualification.
Students new to the University of Waikato.

Research Postgraduate (Doctoral, MPhil, Masters 594 theses)

Because research postgraduate students can apply to enrol at any point in the year, applications will be considered at regular intervals according to the following groups:

All these groups will be considered in priority order and, within each priority group, on academic merit.

1. Research postgraduate returners (enrolled in research postgraduate study in the previous year).
2. University of Waikato Doctoral and Masters Scholarship recipients.
3. Students who have previously been enrolled at the University of Waikato, commencing research postgraduate study or returning after a gap in study to continue research postgraduate study.

Student Complaints Procedures

Preamble

Consistent with its commitment to excellence, the University has adopted these procedures to assist both students and staff in the resolution of student concerns and complaints constructively, quickly and fairly.

Where minor concerns arise, students are encouraged to take a common-sense approach and raise them directly with the relevant staff, paper convenor or Dean or Head of School or equivalent with the aim of resolving them at the lowest possible level and without undue formality. However, where informal discussions have not yielded a satisfactory resolution, or where the matter is more serious, the following procedures provide for a more formal process to be pursued.

Complaints considered through these procedures will be monitored and reviewed to enable the University to continually improve processes and services in support of student learning.

Student and staff rights and responsibilities in relation to these procedures are set out in the appendix.

Procedures

1. Definitions

In these procedures

complaint means a written statement submitted by a student about a matter that requires formal consideration by the University under the terms set out in these procedures

natural justice means the right to have a decision made by an unbiased decision-maker who observes fair and impartial procedures.

student means a person enrolled at the University of Waikato.

2. Application and scope

- (1) Subject to subsection (2), these procedures apply to complaints about any aspect of the teaching and learning process and the broad provision made by the University to support that process.
- (2) These procedures may not be used
 - (a) where the complaint can be dealt with under the [Higher Degree Appeals and Complaints Regulations](#), [Student Discipline Regulations](#) or the [Assessment Regulations](#) , or
 - (b) to challenge the academic judgement of examiners.
- (3) Depending on the nature of the complaint, these procedures should be read in conjunction with the [Staff Code of Conduct](#), the [Code of Student Conduct](#), and the [Education \(Pastoral Care of Tertiary and International Learners\) Code of Practice 2021](#) .
- (4) No action will be taken on complaints that are anonymous, frivolous, vexatious or not made in good faith.
- (5) A complainant must be able to demonstrate that the complaint is brought without malice and is based on evidence that the complainant honestly and reasonably believes to be substantially true. Those responsible for resolving complaints under these procedures must take all reasonable steps to ensure that the complainant is protected against any subsequent recrimination or victimisation.
- (6) Students and staff involved in the consideration of complaints have various rights and responsibilities, which are outlined in the appendix to these procedures.

3. Informal resolution of concerns

- (1) Before making formal written complaints, students are encouraged to seek a resolution to any concerns by raising and discussing them informally with the relevant staff member who is most directly associated with the matter.
- (2) A staff member with whom a concern is raised by a student is expected to deal with the matter in an open and professional manner and to take reasonable and prompt action to try to resolve it informally.
- (3) A student who is uncertain about how to seek informal resolution of a concern is encouraged to seek advice from the [Waikato Students' Union Student Support and Advocacy Service](#).

4. Formal complaints procedures

- (1) Where it has not been possible to resolve a concern informally, a student may make a formal complaint.
- (2) A student who wishes to make a formal complaint must submit it in writing, accompanied by evidence, through [My Waikato](#) addressed to the Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent responsible for the area in which the action or matter that has given rise to the complaint occurred or, if requested to be considered under the Tikanga Māori procedure set out under section 5 of these procedures, to the Deputy Vice-Chancellor

Māori; if the complaint is about a Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent, it must be submitted to the Senior Deputy Vice-Chancellor.

- (3) The written complaint must be submitted within three months of the occurrence of the action or matter that has given rise to the complaint unless the Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent agrees to receive it beyond this timeframe.
- (4) The Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent who receives a student complaint must acknowledge it in writing as soon as practicable (normally within three working days). They must create and maintain a file of all documentation in relation to the consideration of the complaint.
- (5) The Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent must consider the complaint in accordance with the principles of natural justice and must ensure that all parties to the complaint are accorded the full benefit of those principles.
- (6) The process of consideration may include meetings with relevant staff, students and the complainant. Where meetings are held, the parties may, if they wish, be accompanied by a support person.
- (7) The Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent may refer a matter to the Police if they believe that a crime has been committed and may suspend consideration of a complaint until such time as any associated Police matter has been concluded.

5. **Tikanga Māori**

- (1) The spirit of tikanga is to seek resolutions to complaints in a Māori way that encourages a facilitated open exchange of views in order to achieve a resolution that is agreed by all the parties involved.
- (2) A complaint may only be addressed through the Tikanga Māori process if
 - (a) the complainant, and
 - (b) the person answering the complaint, and

- (4) If, at any time after having agreed to the arrangements determined under subsection (3) the complainant or the person answering the complaint wish to withdraw from the Tikanga Māori process, they may do so only with the agreement of all other parties listed under subsection (2); in such cases, the complaint will be referred to the Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent responsible for the area in which the action or matter that

has given rise to the complaint occurred; if the complaint is about a Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent it will be referred to the Senior Deputy Vice-Chancellor.

- (5) Under the Tikanga Māori process a resolution is negotiated by the complainant and the person answering the complaint.
- (6) The process is facilitated by the Deputy Vice-Chancellor Māori, assisted by a tikanga panel appointed by the Deputy Vice-Chancellor Māori.
- (7) A resolution negotiated by the complainant and the person answering the complaint is final; there is no right of appeal.
- (8) Section 6, subsections (1) and (2) and section 7 of these procedures do not apply to complaints addressed under the Tikanga Māori process.

6. Resolution of complaints

That appeal will be considered and decided by the Vice-Chancellor or their nominee in accordance with appeal processes consistent with these procedures.
- (3) An appeal may only be made on one or more of the following grounds:

 - (b) that the decision reached was manifestly at odds with the evidence
 - (c) that the remedy imposed was manifestly at odds with the misconduct

- (4) The appeal must be submitted in writing within 28 days of the date of the letter notifying the decision.
 - (5) The Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee will consider the relevant documentation and evidence and may, at their discretion, consult the Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent who made the decision. Ethical Conduct in Human Research and Related Activities Regulations

Preamble

Any member of the University community who participates in research and specified related activities is required to conduct the research and/or related activities in a manner that conforms with ethical standards set down by the University, by relevant national and international professional bodies, and by the law of the country in which the research is undertaken.

These regulations apply specifically to the following activities: research, teaching, consulting, evaluation, and publications which involve collecting data about and from people and organisations. These regulations also apply to any research where there are ethical issues that are not addressed by the Animal Ethics Committee [Code of Ethical Conduct for the Use of Animals for Research, Testing and Teaching](#) .

Students are referred also to the University's [Student Discipline Regulations 2020](#) in this Calendar, and the [Guidelines for Professional Practice and Community Contact in the Conduct of University Research or Related Activities](#)  (see Appendix 1 to these regulations), and the Higher Research Degrees website, as amended from time to time: <http://www.waikato.ac.nz/students/research-degrees/>.

Staff are referred also to the University's [Staff Code of Conduct](#).

Students and staff are also referred to the resources on [Human Research Ethics](#), available from the [Research & Enterprise Office](#).

Ethical Conduct in Human Research and Related Activities Regulations

1. **Title**

These are the Ethical Conduct in Human Research and Related Activities Regulations 2008.

2. **Purpose**

Ethical issues arise when University research and/or related activities involve the interests and rights of others. The purpose of these regulations is to facilitate ethical conduct which respects the rights of people, communities, companies, trusts, and other organisations. These regulations explain the standards of ethical conduct and the procedures that apply for the maintenance and monitoring of these standards. All applications to the University's human research ethics review committees will be reviewed for approval on the basis of their compliance with these regulations.

3. **Date of effect**

These regulations are effective from 1 July 2008.

4. **Scope**

(1) These regulations apply to all

(a) staff of the University of Waikato

(b) students of the University of Waikato, and

(c) any other person authorised to undertake research and/or a related activity on behalf of the University of Waikato, including those employed or contracted in wholly-owned subsidiary entities.

(2) Research collaborators or partners are expected to apply for approval of their research and/or related activities from their organisation and must also apply to the relevant University of Waikato Divisional or Faculty of Māori and Indigenous Studies committee.

(3) Under these regulations, all research and/or related activities are required to have formal ethics review and approval.

(4) Applications for approval are not required for normal teaching activities; but are required for specific teaching that involves the participation of a student or students and has the potential for harm (see section 13 of these regulations), or that involves collection of data from students.

(5) Applications are not required for University teaching evaluations or for University reviews and quality assurance activities; however, such activities do have ethical implications and should be conducted in a professional way consistent with the University *Staff Code of Conduct* and should be consistent with the spirit of these regulations.

5. **Definitions**

In these regulations

research means an inquiry of an investigative, experimental, or critical nature which is driven by a question, hypothesis, or intellectual position capable of rigorous assessment, and the

findings of which are open to scrutiny and formal evaluation. It may include any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

related activities may include teaching, consulting, evaluation, and publication when these activities involve collecting data about and from people and organisations. These activities are defined as follows:

teaching means teaching in lectures, tutorials, demonstrations, and related educational research

consulting means the provision of advice to a client, such advice being based upon the pre-existing professional knowledge and skills of the consultant

evaluation means the systematic collection and analysis of information to make judgements, usually about the effectiveness, efficiency, and/or appropriateness of the research and/or related activity

publication means any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

participant means a live human being or group of live human beings who participate in research and/or related activities whether by observation, questioning, participation in an experiment, provision of specimens or human tissue samples, or by any other means

organisation means a social unit of people systematically arranged and managed to meet a need or to pursue collective goals on a continuing basis. Examples include firms, iwi groupings, schools, and professional societies

researcher means the person undertaking research and/or related activities

harm includes physical, psychological, social, economic, or cultural harm to participants

field research means research conducted in person in a natural setting outside of a laboratory.

6. Application procedures

- (1) A staff member, student, or authorised person must not commence research or a related activity until it has been approved by the appropriate authority and in accordance with these regulations.
- (2) Researchers must submit applications for approval for their research or related activity to one of the delegated relevant Divisional or Faculty of Māori and Indigenous Studies committees (see section 22 of and Appendix 2 to these regulations) within the University.
- (3) Where applications are made to an external ethics committee, an application must also be submitted to, and approved by, the relevant delegated committee within the University (see section 22(3) of and Appendix 5 to these regulations).
- (4) Applications for approval of research and/or related activities must be submitted in the form prescribed for the relevant Division or the Faculty of Māori and Indigenous Studies (see Appendix 3 to these regulations).
- (5) If an ethical issue relating to the research and/or related activity that was not envisaged at the beginning arises during its course, the researcher must stop the research and/or related activity, consult the appropriate authority, and apply for approval. The researcher must not

begin the research and/or related activity again until the necessary approval has been obtained.

- (6) For situations where prior, free, express, and informed consent from participants may not be possible, see sections 10 and 11 of these regulations for guidance in making application for approval of the research or a related activity.

7. **Responsibility for ethics in research and related activities**

- (1) Individual staff, students, and authorised persons are responsible for ensuring their research and/or related activities comply with these regulations.
- (2) If a researcher is a student, the staff member responsible for supervising the student's research must take all reasonable steps to ensure that the student complies with these regulations.
- (3) Paper convenors may apply for ethics approval for an entire paper if it involves students in that paper engaging in research or related activities. Such applications must cover all anticipated research or related activities the student may engage in, and the convenor's, lecturers' and/or tutors' responsibilities. Applications must identify ethical issues and describe practices for addressing them.

8. **Value of research or related activities and the public interest**

- (1) A researcher must be able to justify to their peers the goals and methodology of the research and/or related activity in terms of its reasonably anticipated benefits balanced against any foreseeable risk of harm to the participants.
- (2) A researcher must normally make available the findings of research in the public domain. Any exception to this must be approved in writing by the Senior Deputy Vice-Chancellor, or by a person to whom authority is delegated in writing by the Senior Deputy Vice-Chancellor (see section 10(7) and section 14 of the [Dissertations and Theses Regulations 2015](#)).

9. **Informed consent of participants**

- (1) Researchers must gain participants' prior, free, express, and informed consent in a culturally and socially appropriate manner, unless in the case of approved exceptions. For proxy consent from authorised representatives, see subsection (4)(e) and (4)(f) of this section of these regulations. Exceptions regarding large sample surveys and similar research methods, some cases of field research, and the possibility of gaining informed consent after data collection are dealt with in sections 10, 11 and 14 of these regulations.
- (2) A researcher must establish explicit processes for reaching agreement with participants. A researcher must not involve a participant in any research and/or related activities unless the researcher is satisfied that the participant has understood the nature of their involvement and freely agreed to it in accordance with the principles outlined in this section.
- (3) A researcher must not use explicit or implicit coercion to obtain the agreement, and must not use inducement to obtain the agreement except in accordance with section 18 of these regulations.

- (4) Unless sections 10, 11 or 14 of these regulations apply, a researcher must adhere to the following principles with respect to informed consent of participants:
- (a) A researcher must inform prospective participants of all information relevant to the decision to participate including
 - (i) their right to decline to participate in the research and/or related activities or any portion or any part of these
 - (ii) the form in which the findings will be published
 - (iii) duration and security of data storage
 - (iv) their right to withdraw any information they have provided up until analysis has commenced on their data
 - (v) their right to access and correct personal information
 - (vi) the process for withdrawing information they have provided.
 - (b) The more readily identifiable the participants may be, the more formal the consent should be. Where participants are asked to answer questionnaires that might identify them, answer questions in a formal interview, undergo formal tests, or where they are subjected to formal observation and recording procedures, the process for obtaining informed consent, and the form of the consent, should be similarly formal and recorded in writing or some other reproducible form. Where the participation is more anonymous the consent may be less personalised and less explicit (see section 10 of these regulations).
 - (c) If the research or related activity involves manipulation of, or intervention in, the physical or psychological state of a participant, the participant's consent, or, if subsection (e) of this section applies, the consent of the person with authorised responsibility for the participant, must be recorded in writing or some other reproducible form.
 - (d) Because some research and/or related activities involve collectives, a researcher must recognise the complexities of relationships between individuals and collectives. In some cultures it is common for the leader of a collective to make a decision in respect of participation on behalf of its members. If an individual in a collective wishes to participate or not to participate in the research and/or related activity, regardless of a decision taken on behalf of the collective, the individual's wishes must be respected and all reasonable care taken to ensure that those wishes are also respected by other members of the collective.
 - (e) If a prospective participant is reasonably judged incapable of giving informed consent, the researcher must obtain the proxy consent from the person who has responsibility for the prospective participant's welfare, taking particular care to protect the participant's interests and also taking into account any potential conflict of interest between them and the person whose consent is required.
 - (f) A researcher who seeks the proxy consent of another person on behalf of a prospective

participant under subsection (e) of this section must make all reasonable effort to involve the prospective participant themselves in the process and the decision about consent.

- (g) Staff, students, and other approved persons must obtain informed consent when recording images of participants, participants' possessions, or research and/or related activity in which participants are involved, unless the recording of images is of lawful activity occurring in a public place and is culturally appropriate.
- (h) A researcher must provide the information under subsection (a) of this section plainly and in the language and medium that is appropriate for the prospective participants.
- (i) A researcher must inform participants of their right of access to any data that may have been collected from or about them.
- (j) A researcher must inform participants of their right to complain about the conduct of the research and/or related activity and must also inform them of the process for making a complaint.

10. Large random sample surveys and informed consent

- (1) A researcher who intends to collect data involving large numbers of people is not required to adhere to all the principles concerning informed consent outlined in section 9(4) of these regulations if the research method makes adherence to all these principles impractical or undesirable and if such a requirement is likely to impact adversely on the researcher's ability to generate reliable information.
- (2) However, the researcher must declare and justify an intention not to adhere to the principles in section 9(4) of these regulations in the application for approval submitted under section 6 of these regulations.
- (3) In these situations the researcher must provide the following information, as a minimum, to a participant before the research or related activity begins
 - (a) the anticipated length of the research or related activity
 - (b) the general purpose of the research or related activity
 - (c) the forms in which the data might be published
 - (d) an assurance that the participant will not be identified in any publication or dissemination of research findings.

11. Field research and informed consent

- (1) 'Field' research in this context means research conducted in person in a natural setting outside of a laboratory.
- (2) In field research situations, prior, free, express, and informed consent must be gained in a culturally and socially appropriate manner from participants.
- (3) In some forms of field research using such methods as participant observation, participatory research and action research, where obtaining prior, free, express, and informed consent

from all participants would be inappropriately intrusive or impractical for social, cultural, or methodological reasons, it is acceptable not to gain such consent.

- (4) However, the researcher must take care to apply other ethical principles, especially minimising the risk of harm to participants and maintaining the anonymity of participants. It may also be appropriate in such cases that informed consent be sought afterwards but prior to the publication of research findings, from people who have in the course of information collection come to the attention of the researcher.

12. Archiving of data, privacy, storage, and use of information

- (1) All non-identifying data (eg data sets and transcripts) used for publication must be securely kept long enough to allow for academic examination, challenge, or peer review. This period would normally be at least five years. Identifying data such as consent forms, photographs, and videos will be securely stored consistent with agreements made under section 9(4)(a) of these regulations. The responsibility for data storage lies with the department or other equivalent academic unit.
- (2) Where the research and/or related activity is conducted in New Zealand, the researcher must comply with the Privacy Act 1993 and the Official Information Act 1982, and must adhere to the following principles consistent with that legislation
 - (a) participants and informants must not be publicly identified or identifiable without their explicit consent
 - (b) participants must be informed (unless sections 10, 11 and 14 of these regulations apply) that they will not be identified in any publication or dissemination of the research findings without their explicit consent
 - (c) researchers must take all reasonable precautions to prevent unauthorised use, access, modification, or disclosure of personal information
 - (d) data identifying participants must not be kept for longer than required for the purpose for which it is collected (see subsection (1) of this section)
 - (e) except in circumstances specified in the relevant legislation, personal information may be used only for the purpose for which it is collected.
- (3) Where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply with any legislation that applies in that country with respect to privacy and storage of personal information.
- (4) Even where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply as far as possible with the spirit of the Privacy Act 1993 and the Official Information Act 1982; however, if there are contradictions between the legislation of New Zealand and the other country, the legislation of the other country must prevail
- (5) A researcher must include in an application submitted under section 4(3) of these regulations a statement about the conditions under which, and the period for which, any personal

information collected for the research and/or related activity is to be stored.

- (6) Data must not be made available to persons or for purposes that are not named on the application.

13. **Minimisation of harm**

- (1) A researcher must make particular effort to identify physical, psychological, social, economic, or cultural harm to participants before seeking their consent to participation.
- (2) A researcher must minimise both the risk of harm to a participant and the potential for negative consequences of the harm.
- (3) 'Harm' in this context includes pain, stress, emotional distress, fatigue, embarrassment, and exploitation.
- (4) Unless it would be impractical or undesirable to do so in the terms described in section 10 of these regulations, a researcher must consult participants to ascertain any risk of harm that they themselves may identify or concerns that they themselves may have.
- (5) If, during the course of the research and/or related activity, it is apparent to the researcher that the risk of harm to the participant is greater than originally envisaged, the researcher must inform the participant and re-evaluate the research and/or related activity in terms of the principles outlined in this section.

14. **Limitation of deception**

- (1) Deception of participants conflicts with the principle of informed consent, but in some research and/or related activities it may be necessary to withhold information about the purpose of the research and/or related activity or the procedures involved.
- (2) Research and/or related activities involving deception of participants will be approved only if the researcher demonstrates in the application for ethics review that the deception is absolutely essential to the goals of the research and/or related activity.
- (3) A researcher who undertakes research and/or related activities involving deception of a participant must ensure that the participant is provided with an explanation of the true purpose of the research and/or related activity and the reason for the deception as soon as practicable after the participation.

15. **Social and cultural sensitivity**

- (1) A researcher must respect the cultural, social, and language preferences and sensitivities of the participant.
- (2) Where the research and/or related activity potentially affects individuals or groups who are significantly different in culture from the researcher, the researcher must consult an appropriate person before the research and/or related activity begins about appropriate cultural procedures and approaches to the research and/or related activity and about informing the participant or community concerned of the research findings.
- (3) An application for ethics review under these regulations must demonstrate how the

researcher has responded to the advice received from the person consulted.

- (4) Appropriate consultation and subsequent responses on matters of social and cultural sensitivity are the responsibility of the researcher.

16. **Exploitation of relationships**

- (1) A researcher must not exploit the relationship between researcher and participant.
- (2) A researcher must resist any initiative by a participant to exploit the relationship between researcher and participant.
- (3) 'Exploitation' in this context means the seeking or obtaining of money, goods, services, favours, information or relationships that have no direct bearing on the stated research and/or related activity aims or data gathering.
- (4) Where a researcher is a staff member and the prospective participant a student, the researcher must not exploit that relationship and must strive to ensure that the student is not disadvantaged through their participation or refusal to participate, academically, professionally, or otherwise.

17. **Respect for property rights**

- (1) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe legally determined property rights.
- (2) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe culturally determined property rights to the extent possible and reasonable in all circumstances.
- (3) Property rights in this context may apply to land, goods, works of art and craft, images, and intangible materials such as spiritual treasures, music, information, and intellectual property (see Appendix 4 of these regulations).
- (4) A researcher must identify and address any issues associated with property rights and ownership of data at the time they seek informed consent and monitor these issues throughout the research process.

18. **Payment for participation**

A researcher must not pay participants for their participation, or arrange for participants to be paid, in money, goods, services, prizes, favours, or in any other form of remuneration or form of hospitality appropriate to the engagement, either directly or indirectly, unless the payment is approved by the appropriate approving authority (see section 22 of and Appendix 2 to these regulations).

19. **Professional codes of ethics**

A researcher must ensure that their research or related activity complies with any professional code of ethical practice or standard relevant to the research and/or related activity.

20. **University research and/or related activities in schools and early childhood services**

A researcher involved in research and/or related activities in schools or early childhood services must comply with the [Guidelines for Observation and Research in Schools and Early Childhood Services](#)  (see Appendix 5 to these regulations).

21. Declaration of potential conflict of interest

- (1) A researcher must, in an application submitted under section 4 of these regulations, declare any potential conflict of interest.
- (2) 'Conflict of interest' occurs where a researcher or related party is, or is reasonably likely to
 - (a) obtain an unfair, inappropriate, or unethical professional, commercial, or personal advantage as a result of or in connection with the research and/or related activity
 - (b) be in a position in relation to the activity or the participants that could appear to affect the researcher's impartiality in the research and/or related activity;
 - (c) obtain a direct or indirect pecuniary benefit or interest as a result of or in connection with the research or related activity.
- (3) If the research and/or related activity is commissioned or sponsored, the researcher must ensure that the commission or the sponsorship
 - (a) is declared to the participants and in any published findings

22. Authority for ethical approval and monitoring

- (1) Authority for administering these regulations rests with the University of Waikato Human Research Ethics Committee.

[Part 5: Reporting](#)

Preamble

At the time they enrol, students are required to agree to abide by the regulations of the University of Waikato as published in the University of Waikato Calendar. The Student Discipline Regulations provide the framework for addressing alleged breaches of University regulations by students and for applying penalties where breaches are substantiated.

Members of the University community are entitled to operate and interact in an environment of safety and respect. It is expected that students will act with integrity and demonstrate respect for others.

If differences and disputes arise between members of the University community, it is expected that they will attempt to resolve such conflicts reasonably and co-operatively. Discipline procedures should be used only where other methods of resolving conflicts have been ineffective or would be inappropriate.

It is the policy of the University that all discipline procedures conform to the principles of natural justice. The procedures in these regulations have been adopted to safeguard the rights of individuals in this respect.

2. An offer of place at the University of Waikato does not guarantee that the student will be issued with a student visa.
3. International students are required to obtain a student visa before travelling to New Zealand. Students must provide evidence to show they can have enough money to support themselves while they study in New Zealand. The source of fund is considered stable and there are no unexplained lump sum deposits. For more information please see [here](#).
4. The University is required to report to INZ those students who are not fulfilling the requirements of their student visa, which includes completing compulsory course components and passing papers.
5. Full details of immigration requirements, advice on rights to employment in New Zealand while studying, and reporting requirements are available from INZ, and can be viewed on their website at <https://www.immigration.govt.nz>.

Pre-paid Tuition Fees Policy

1. As indicated above, international students are required to obtain their student visa and pay their tuition fees before enrolment can be completed. These funds are held against the student's name until they complete their enrolment in person. This policy details the process for refunding these

- funds if (i) the student travels to New Zealand and does not complete their enrolment, or (ii) completes the first trimester of study and does not enrol in the second trimester of study and they have a student visa valid for one year, with the exception of students enrolling in B trimester then A trimester.
2. All students must apply in writing for a refund of their pre-paid tuition fees to the Director of Student Services Division.
 3. Students are required to supply a verified copy of their passport and student visa, and a copy of their University of Waikato receipt(s) with their application for a refund.
 4. The University of Waikato will notify INZ that the student has not fulfilled the obligations of their visa by completing their enrolment at the University of Waikato.
 5. Where a student wishes to attend another institution in New Zealand, the University of Waikato will transfer the pre-paid tuition fees to that institution, upon written confirmation from that institution of the student's intention to study. This should be in the form of a formal letter of offer or invoice which confirms the student's acceptance into a qualification. If the student has already paid their tuition fees at the other institution, the University of Waikato will refund the pre-paid tuition fees to the student, upon written confirmation from the other institution that the fees have been paid. It is the student's responsibility to provide the necessary documentation from the other institution.'
 6. Where a student will be returning to their home country, the funds will be refunded in one of two ways:
 - (a) an overseas bank draft sent to the overseas address provided by the student
 - (b) if it is known that the pre-paid tuition fees have been paid by a third party, the refund may be paid back to that third party
 7. Where a student is wishing to remain in New Zealand without enrolling at an educational institution, the University of Waikato will refund these funds either:
 - (a) upon evidence of a valid INZ visa to remain in New Zealand, or
 - (b) confirmation that INZ has discharged the University of Waikato's duty under the original student visa.
 8. If a programme of study is cancelled by the University of Waikato, a full refund of pre-paid tuition fees will be made to the student by bank draft.

International Students Refund Administration Charge

International students who withdraw their application or their enrolment before the start date of their programme will receive a 100 percent refund of pre-paid tuition fees less a \$500 Administration Fee. Students who withdraw their application or their enrolment after the start date of their programme but during the period for deletion of papers (refer to Clause 12 of the [Change of Enrolment Regulations 2012](#)), will receive a 100 percent refund of pre-paid tuition fees less a \$2,000 Administration Fee.

Compulsory Medical and Travel Insurance

International students (including group students) must have appropriate and current medical and travel insurance while studying in New Zealand, as stated in the *Code of Practice for the Pastoral Care of International Students*. Under the Immigration New Zealand Policy, this must be at least for the duration of your student visa. Enrolment is dependent on proof of appropriate insurance. To simplify the process of selecting insurance, the University has selected Studentsafe-University (underwritten by Allianz New Zealand) as the preferred insurance policy for all international students. The Studentsafe-University insurance premium will be added to tuition fees at the time of enrolment, resulting in international students being automatically enrolled in the Studentsafe-University insurance scheme. This premium will not be charged if evidence of an alternative compliant insurance policy is provided to the University before the specified deadline (please note there are only a small number of approved alternative compliant policies). For further information please refer to the website <https://www.waikato.ac.nz/study/international>.

Eligibility for Health Services

Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on the website <https://www.health.govt.nz>. The Accident Compensation Corporation provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website www.acc.co.nz.

New Zealand Government Scholarships

The New Zealand Aid Programme (NZAP) is the New Zealand Government's International Aid and Development Programme managed by the Ministry of Foreign Affairs and Trade. Education is vital to the New Zealand Aid Programme's mission of supporting sustainable development in order to reduce poverty and contribute to a more secure, equitable and prosperous world. Scholarships are available to citizens from selected developing countries to undertake vocational training or tertiary level study in their home country, in New Zealand, or in the Pacific region. These scholarships enhance the skills, training and knowledge of individuals, and build their capacity to contribute to the sustainable development of key areas in their home country. The eligibility criteria and application process can be found on: <https://www.mfat.govt.nz/en/aid-and-development/new-zealand-government-scholarships/>.

Strategic Alliances, International Partnerships and Agreements

The University is a forward-looking, innovative institution that welcomes strategic alliances, international partnerships, and agreements. Consideration is given to international institutions that match the University of Waikato profile in terms of reputation, academic standing, and research output.

All proposals for University to University linkages should be discussed in the first instance with the

International Office. Proposals for guaranteed credit agreements need submission of full documentation to the International Office which will refer them to the appropriate academic authority for approval. Partnership proposals are welcome and will be explored on a case by case basis.

Memorandums of Understanding should also be submitted as proposals to the International Office, which will refer them to the appropriate authority.

Overseas visitors are welcome. Prospective visitors should contact the International Office with full background information about their proposed visit. The International Office will assist in arranging an itinerary which meets both the visitors' and the University of Waikato's needs.

withdrawal from a paper, without refund of any fees (the paper remains on the student's academic record, annotated as 'withdrawn')

change of qualification, major or specified programme.

MyWaikato means the computer system, accessible to enrolled students, which enables them to apply for change of enrolment on the internet.

4. Application

These regulations apply to papers at 0, 100, 200, 300, 400, 500 and 700 levels.

Note: Policies and procedures with respect to change of enrolment for 800 (MPhil) and 900 (doctoral) level programmes are available from the School of Graduate Research.

The teaching periods referred to in these regulations are defined in the [Teaching and Assessment Periods 2022](#) section of the University of Waikato Calendar.

7. **COVID-19**

Pursuant to the COVID-19 Public Health Response (Vaccinations) Order 2021 or any University [COVID-19 vaccination requirement](#), the University may delete a paper from a student's enrolments at any time if:

- (1) the student has not provided and maintained a valid Ministry of Health My Vaccine Pass as evidence of COVID-19 vaccination or exemption, and
- (2) the paper requires the student to undertake a future activity that would breach the COVID-19 Public Health Response (Vaccinations) Order 2021 or any University [COVID-19 vaccination requirements](#).

8. **Programme approval**

Any change of enrolment constitutes a change to a programme of study and requires the approval of the relevant Division or the Faculty of Māori and Indigenous Studies.

- (1) Applications for change of enrolment must be submitted to the relevant Division or the Faculty of Māori and Indigenous Studies that the student is enrolled in for consideration. They need to be submitted through MyWaikato.

- (3) Attendance at classes and submission of items for assessment does not constitute enrolment in that paper.

10. **Timeframe for change of qualification, major or specified programme**

11. **Deadlines for adding papers (with payment of the prescribed fees)**

1. **Withdrawal from papers (without a refund of the tuition fee)**

- (1) Unless exceptional circumstances apply (as provided for under section 15 of these regulations), a student who withdraws from a paper after the deadline for deletion (see section 13 of these regulations) is not entitled to a refund of the fees for that paper; if the fees have not been paid, the student remains liable for them.

Policy on the Use of Māori for Assessment

Statement of Principle

1. In recognition of the status of the Māori language as a tāonga protected under the Treaty of Waitangi, and within the spirit of the Māori Language Act 1987, the University of Waikato endorses the right of its students to use the Māori language in written work for assessment within the University.
2. In keeping with the above and in accordance with its Charter commitments the University seeks to have sufficient suitable staff employed or available throughout its Divisions or the Faculty of Māori and Indigenous Studies to ensure that any work submitted in Māori would be assessed in that language by staff competent in the subject under examination and in the Māori language.
3. In the meantime, the use of the Māori language in assessment is subject to conditions set out in this policy statement.

Exceptions

4. There are occasions when, due to the nature of the skills being tested, work submitted for assessment may be required to be in a particular language. In such cases that requirement shall be made explicit in writing, either in the relevant subject entry or prescription in the University of Waikato [Catalogue of Papers](#) or in the paper outline distributed to candidates at the beginning of a paper.

Notice

5. Candidates who intend to present all or part of an examination or piece of internally assessed work in Māori are requested to give at least 14 day's notice of their intention of doing so in writing to the Student Centre. This notice of intention is desirable to allow the University the time and opportunity to make proper arrangements for marking including, when necessary, translation and external assessment. If less than 14 days' notice is given, the material presented in Māori will still

be accepted. The processing of it may, however, be delayed and the opportunity to have the script marked in the original language may be reduced.

6. Where a candidate who intends to present material in Māori has given the requested notice of intention, they will be informed as soon as reasonably possible, as to whether or not the assessment will be based on translation.

Potential for Delays

7. The University will do its best to make the results of an examination or item of internally assessed work presented in Māori available to the candidate within the ordinary time-frame. However the process of assessment in such cases, possibly including translation, may result in delays in the return of coursework or in the publication of results.

Māori-speaking Paper Examiners

8. The examination or internally assessed work will be assessed in Māori by the examiner for the paper if the examiner is considered by the Deputy Vice-Chancellor Māori or their nominee to be linguistically competent to do so.

Co-examiners

9. If the examiner of the relevant paper is not competent to assess in Māori, a co-examiner, competent in both the subject under examination and in Māori, may be appointed to conduct the assessment of work presented in Māori in consultation with the examiner.

Translation

10. If no person is available in the circumstances to assess the work in Māori, a translator will be appointed by the Deputy Vice-Chancellor Māori or their nominee in agreement with the appropriate chief examiner. The translator will be asked not to correct errors in the original nor to make any embellishments; however, ambiguities may be pointed out to the examiner. Where necessary the examiner may seek clarification of the translation of the paper from the translator but contact between the student and the translator is prohibited, as is contact between the student and the examiner. The assessment will then be carried out by the examiner of the paper on the basis of the translation.

The University intends that resort to translation be made only when reasonable efforts to find an examiner capable of assessing the work in its original language have been exhausted.

11. In the process of appointing a translator, the Deputy Vice-Chancellor Māori or their nominee will take all reasonable steps to ensure that the translator is competent in the relevant subject under examination, as well as in the Māori language.

External Assessment

12. If the internal assessment and/or examination script is to be subject to external assessment, the other institution undertaking the external assessment will be requested to indicate whether an external assessor is available to conduct the assessment in Māori. If not, a translation will be obtained for the purpose by the University according to the process explained in sections 10 and 11 of these regulations.

Return of Scripts

13. When any translation is relied upon in the assessment of an examination, a candidate making proper application for the return of a script shall also receive any translation made of the script. When assessed coursework is normally returned to the student, any translation used is likewise to be returned.

Appeals and Reconsiderations

14. An appeal against a decision regarding linguistic or subject competence made under the provisions of sections 8 and 11 of these regulations shall be to the Senior Deputy Vice-Chancellor whose decision shall be final.
15. The regulatory provisions for reconsideration of final grade together with the established appeal provisions will apply, with the addition that the Māori Language Commission is regarded by the Council as the final authority on the accuracy of a translation.

Oral Work

16. The details of this policy apply to written internally assessed work and to examinations. When oral work is assessable, the same principles should apply; however, practicalities may necessitate more restricted policy details, such as a requirement on the candidate to give longer notice or a limitation on the use of Māori where oral work involves interaction with other candidates.
