# Welcome

*It is always a pleasure to be part of the University of Waikato graduation ceremonies acknowledging the hard work and successes of our graduates. Equally enjoyable is seeing the pride of whānau and friends, many of whom travel a long way to join us for graduation.*

*Some of you will have decided to stay with us to study for higher degrees, but many of you will be leaving the region, and possibly the country, to embark on new careers. I hope that you depart with fond memories of your university years, and prepared for a fulfilling future.*

*What you have learned during your time at Waikato, in and outside lectures and tutorials, will stay with you, not just in your work, but in your day-to-day lives as you face new and exciting challenges. I wish you well.*

**Rt Hon Jim Bolger ONZ  
Chancellor  
University of Waikato**

*It gives me great pleasure to be part of graduation ceremonies on Te Kohinga Mārama Marae and at Claudelands. Graduation reminds us of the hard work, focus and achievements of our students, and the contributions of those who have provided financial, physical and emotional support for them along the way.*

*Some of you will be the first in your family to graduate from university, and perhaps you have started a new family trend, while others of you will be upholding a long tradition of tertiary study.*

*Whatever your background, you have travelled a path that has allowed you to explore new ideas, exposed you to the frontiers of research in your major area of study, and provided you with skills and knowledge that will serve you well in future employment and contributions to society. Congratulations to you all.*

*Wherever you go, I would encourage you to stay connected with your university friends and your alma mater, by visiting us online, attending University and alumni events and coming back to visit if you have the chance.*

**Professor Neil Quigley  
Vice-Chancellor  
University of Waikato**

Ko ia rā anō tētehi o ngā rangatira nāna te whakahokinga o te tupuna ā-maunga o Mauao ki ngā mana whenua o Tauranga Moana, ko ana pukenga, ko ana mātauranga, ko ana mōhiotanga e manaaki nei i te maūri, i te mana, i te tāpu o reira. Ko ia hoki te poutaki i tana iwi i a Ngāti Ranginui ki te whakataunga o tōna Take Raupatu i te Āperire o 2012.*

*Nō te tau 2007 Ka whakahōnoretia ia ki te New Zealand Order of Merit (MNZM) mō ana tākoha ki te Iwi Māori. Inārā ia nei, ka hia nei ngā tau ko Morehu Ngatoko Rahipere MNZM tērā e whakapau ana i ōna kaha, mō tana iwi, he oti rā mō Tauranga Moana te take, ka tihē te mauri ora.*

Morehu Ngatoko Rahipere, MNZM, has spent decades working for his people.

He can whakapapa to Ngāi Tamarawaho, Ngāti Rangī hapu of Ngāti Ranginui, and Ngāi Te Rangī, two of the principal tribes from the Tauranga Moana region, and including Ngāti Awa – is an acknowledged leader, an exponent of tribal lore and narratives and a man of mana who is able to draw his people together.

Mr Ngatoko Rahipere is an example of someone who selflessly gives of his time and skills for the public good, is passionate about the role and power of education to enable people to meet their aspirations and has led many initiatives linked to the University of Waikato, including the establishment of the Maharaia Winiata Research Institute in Tauranga.

He was deeply involved in the Te Kotahitanga research programme established under Te Kura Toi Tangata Faculty of Education, providing strong cultural guidance while keeping those who were not Māori culturally safe in their research.

Mr Ngatoko Rahipere is a staunch advocate of the long standing relationship between Ngāti Ranginui and the Kingitanga, which recognises his outstanding leadership and knowledge.

He has led by example in many areas and holds enormous respect across the political spectrum. He was one of a team instrumental in advancing the return of Mauao (Mount Maunganui) to the people and his expertise and knowledge in tikanga and kawa, has ensured the mountain is protected and its cultural integrity is maintained. He provided strong leadership to his Iwi Ngāti Ranginui as they navigated toward Raupatu Settlement in April, 2012.

In 2007 he became a Member of the New Zealand Order of Merit (MNZM) for services to Māori and over many years has given exemplary service to his community of Tauranga Moana.

# Fanfare

*The Processional Fanfare for brass quintet and percussion was written by Associate Professor Martin Lodge from the University of Waikato's Conservatorium of Music.*

It was written in 2014 to mark the University of Waikato's 50th anniversary. The work is original except for a snippet of the popular graduation song *Gaudeamus Igitur* (see page 55), inserted by Associate Professor Lodge to acknowledge the great academic tradition of universities in the western world.

The Processional Fanfare is played as the University graduands and staff ceremonially enter the hall and take the stage for graduation and it is anticipated that the new fanfare will be played at University of Waikato graduation ceremonies from now on.

# Pou Whenua

*The ceremonial carved Māori mace being used in the Marae ceremony represents the strong links between the University and Māori.*

In 1965, just a year after the University of Waikato was established, Kīngitanga head Koroki invited founding University of Waikato Chancellor and Hamilton Mayor Denis Rogers, along with 20 University of Waikato graduates, to Tūrangawaewae Marae in Ngaruawahia.

There he presented the fledgling institution with the carved taonga to be used as ceremonial mace. The piece was carved by master carver Piri Poutapu, who established a carving school at Tūrangawaewae in 1932, and when not being used, it sits in pride of place at the head of the University Council chamber.

Dr Nihal Kularatna was named New Zealand Innovator of the Year at the 2013 New Zealand Engineering Excellence Awards. Today, he has been awarded a Doctor of Science from the University of Waikato.

In 2002, he moved to New Zealand with his family from Sri Lanka to take up a position at the University of Auckland, moving to the University of Waikato in 2006. His research focuses on power electronics, and the sub-areas of supercapacitor applications, power conditioning and surge protection. He invented a supercapacitor-based surge protector, the S-TViQ, which has made it to commercialisation.

Dr Kularatna has a BSc Engineering (Honours) from Sri Lanka's University of Peradeniya, has worked in Sri Lanka and the Middle East as an electronics engineer responsible for navigational aids and communications projects in civil aviation, and digital telephone exchange systems.

In 1985, after returning to Sri Lanka from a three-year contract as an electronic engineer in Saudi Arabia, Dr Kularatna joined the Arthur C Clarke Institute for Modern Technologies as a research and development engineer and became CEO for the company in 2000.

Dr Kularatna has eight published books and 120 journal and conference papers.

# A Brief History of the University

The University of Waikato had its genesis in 1956 when a small group of visionary individuals began working towards founding a university for the people of the South Auckland region.

A college, a sub-branch of Auckland University, was established in 1959 and in 1965, after opening its doors in 1964, the University of Waikato was officially opened by the then Governor-General, Sir Bernard Fergusson (later Lord Ballantrae).

From modest beginnings, on what was largely farmland and with a handful of temporary buildings and few staff, the University of Waikato now has a student population of more than 12,000, including nearly 1,800 postgraduate students. Each year about 4,000 students graduate.

In 2015, the University has nearly 1500 academic and professional staff, and in the next two years its contribution to the economy is expected to reach the \$1 billion mark.

The University is recognised for its strong research and teaching and has forged productive international links with more than 110 universities.

## THE CAMPUS

Our Hamilton campus, with grounds covering 65 hectares, continues to be a source of community pride. The grounds include sports fields, walkways, three lakes, extensive gardens and more than 6,000 trees.

At the end of 2011, we opened the new \$30 million Student Centre which houses the library, computers, meeting and relaxation spaces. It has a 5 Green Star rating from the New Zealand Green Building Council, recognising the environmental and sustainable features of the building's design. The conception and completion of the Student Centre is a further demonstration of our commitment to the delivery of a world-class education while providing our students with a dynamic student experience.

This will be further enhanced by the new Law and Management building which will be open to students early next year.

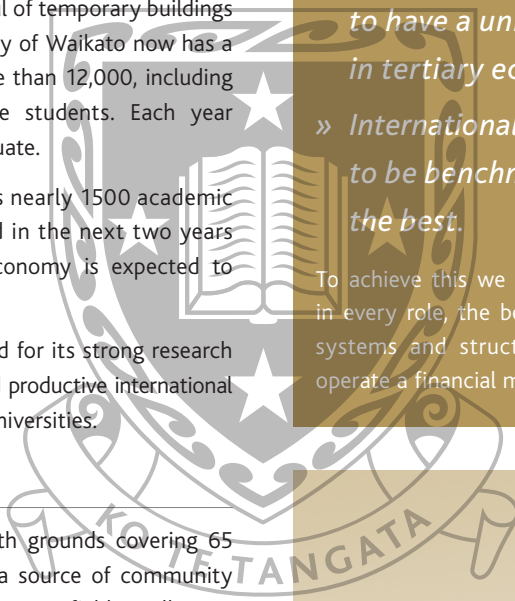

Planning has already begun for a new campus in downtown Tauranga.

## Our Vision

*The University of Waikato Vision is to offer:*

- » *Excellence – to provide world-class teaching and research.*
- » *Distinctiveness – to have a unique place in tertiary education.*
- » *International connectedness – to be benchmarked against the best.*

To achieve this we invest in the best people in every role, the best facilities and the best systems and structures which allow us to operate a financial model that is sustainable.

# Our Commitment

The University of Waikato is committed to creating and building knowledge for the future. We deliver a world-class education and research portfolio within a dynamic and distinctive university environment with strong international connections.

The University of Waikato/Te Whare Wānanga o Waikato plays an essential leadership role in the prosperity of our region and our country.

We are a New Zealand institution that looks at the world from a New Zealand perspective. We sit at the heart of a community of strong regional partnerships and take pride in the extent to which we reflect and serve the strengths and interests of our region.

We are also an international university. We consciously measure our performance against internationally established criteria, and our teachers, researchers and students inspire, and are inspired by, an international community of scholars.

We are committed to the recruitment and retention of world-class staff who excel at teaching, research and management in areas that are of particular strategic value to New Zealand. We pursue a research and research-management strategy that supports our country's nation-building policies and promises a generous return in terms of our nation's identity and the wealth and wellbeing of New Zealanders.

We adhere to the concept of a university education that is, by definition, research-led. Through sustained research intensity and the attraction of high levels of external research funding from public sector and industry sources, we aim to maintain a highly competitive research profile.

We are committed to meaningful partnerships under the Treaty of Waitangi and to providing leadership in research, scholarship and education relevant to the needs and aspirations of iwi and Māori communities.

We have developed, or are in the process of developing, world-class research platforms that take us through the research pipeline from discovery to application and commercialisation. Sustainability in all its forms – environmental, economic, social and cultural – is a strong emerging theme in many of these research platforms.

By its nature, sustainability is future-focused and rooted in new ways of thinking and new ways of tackling old problems. The University of Waikato is proud to lay claim to leading the way to a sustainable future.

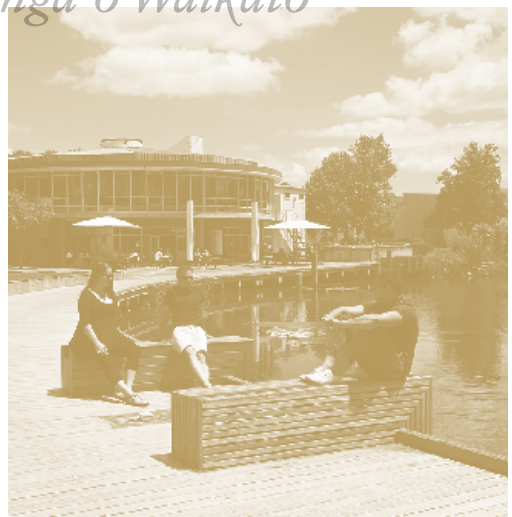

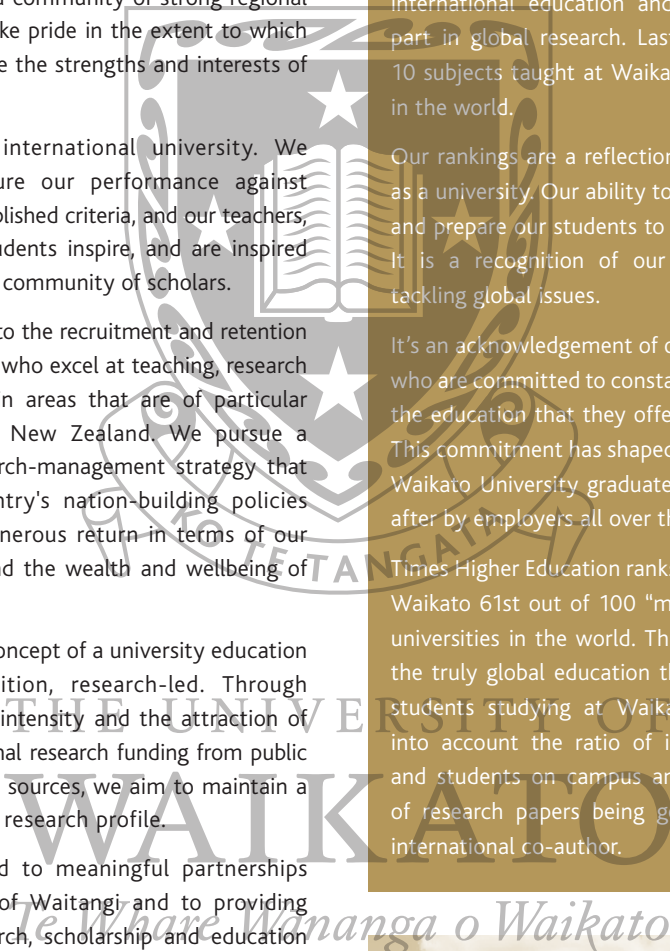

## World Rankings

We are proud to be ranked 338 in the world by the QS (Quacquarelli Symonds Limited) World University Rankings 2015. This sees a climb in the rankings of over 60 places from 2014 in which we were ranked 405 in the world. Our university stands proudly on the world stage as an institution that provides a future-focused international education and plays an active part in global research. Last year QS ranked 10 subjects taught at Waikato in the top 200 in the world.

Our rankings are a reflection of our strengths as a university. Our ability to challenge, inspire and prepare our students to be future-leaders. It is a recognition of our research that is tackling global issues.

It's an acknowledgement of our academic staff who are committed to constantly improving on the education that they offer to our students. This commitment has shaped the thousands of Waikato University graduates who are sought after by employers all over the world.

Times Higher Education ranks the University of Waikato 61st out of 100 "most international" universities in the world. This ranking reflects the truly global education that is received by students studying at Waikato. It also takes into account the ratio of international staff and students on campus and the proportion of research papers being generated with an international co-author.

# Ceremonial Traditions

*Elements of university graduation ceremonies have evolved from the 12th century when the first universities emerged in Europe.*

The organisation of medieval universities was modelled on the established institutions of the day – the church, the monastery and the guild.

Latin was the language used by medieval scholars, and it is from Latin that the words 'university' and 'degree' are derived. The Latin term *universitas* means a guild or union, and universities started as a scholastic guild – a self-constituted community of teachers and scholars.

The word *graduate* comes from the Latin word *gradus*, which means step. Admission to study a bachelors degree was the first step taken towards completing a university education. The second step was to become a 'master'. Masters were Master of Arts graduates whose degrees licensed them to teach. The Chancellor, an officer of the cathedral, originally granted teaching licences.

## CEREMONIAL ROBES AND ACADEMIC DRESS

In the Middle Ages the corporate existence of universities was recognised and sanctioned by civil or ecclesiastical authority. The regalia worn by graduates and university staff today reflect this mix of medieval governance. Robes worn by the Chancellor resemble those worn by the Lord Chancellor of England. Graduates and academic staff wear gowns similar to the dress of medieval clergy. Hoods are also fashioned on an everyday medieval garment, although the coloured lining was a later addition to indicate the wearer's university and degree.
